- Certification Statuses in AIM ..... 11**

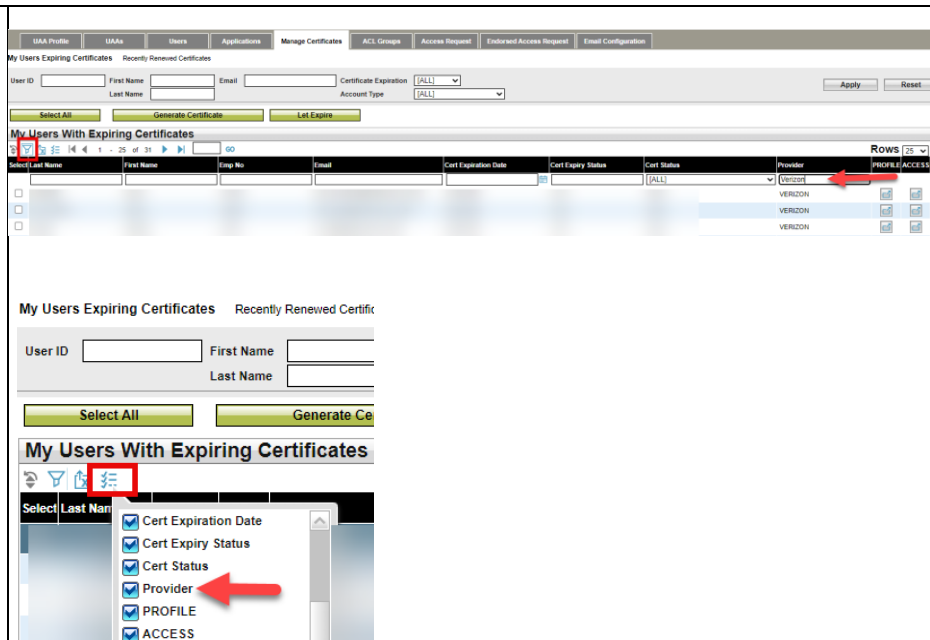

### Replacing a Verizon Certificate with an Entrust Certificate

Navigate to the **Manage Certificates** tab and change the **Certificate Expiration** to filter for [ALL].

After filtering for [ALL], navigate to the filter icon on the table. In the **Provider** column, type **Verizon** and hit enter to filter.

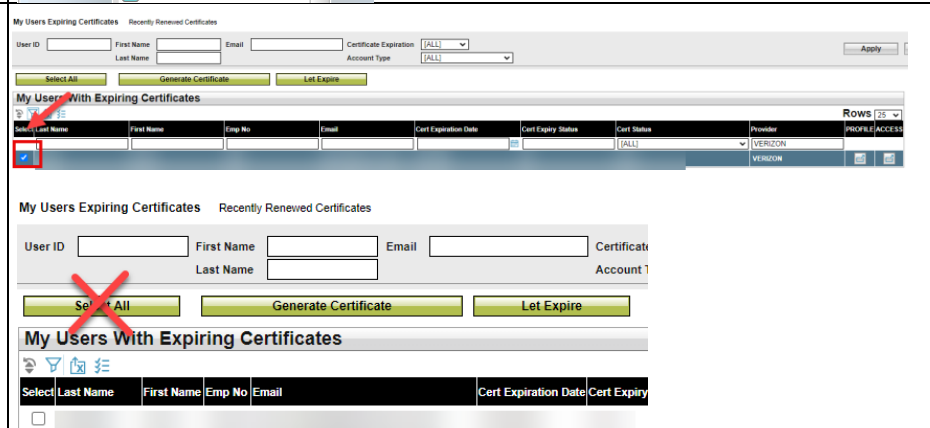

*Note: If the Provider column is not showing, please add this column by selecting the Adjust columns button.*

The screenshot shows the 'My Users With Expiring Certificates' interface. At the top, there are search filters for User ID, First Name, Last Name, Email, Certificate Expiration, and Account Type, all set to [ALL]. Below the filters are buttons for 'Select All', 'Generate Certificate', and 'Let Expire'. The main table has columns: Select, Last Name, First Name, Emp No, Email, Cert Expiration Date, Cert Expiry Status, Cert Status, Provider, PROFILE, and ACCESS. A red arrow points to the 'Provider' column. Below the table, there is a section for 'My Users With Expiring Certificates' with search filters and buttons. A dropdown menu is open, showing a list of columns to toggle: Cert Expiration Date, Cert Expiry Status, Cert Status, Provider, PROFILE, and ACCESS. A red arrow points to the 'Provider' checkbox, which is checked.

Now that only Verizon certificates are filtered, **select one** of the certificates.

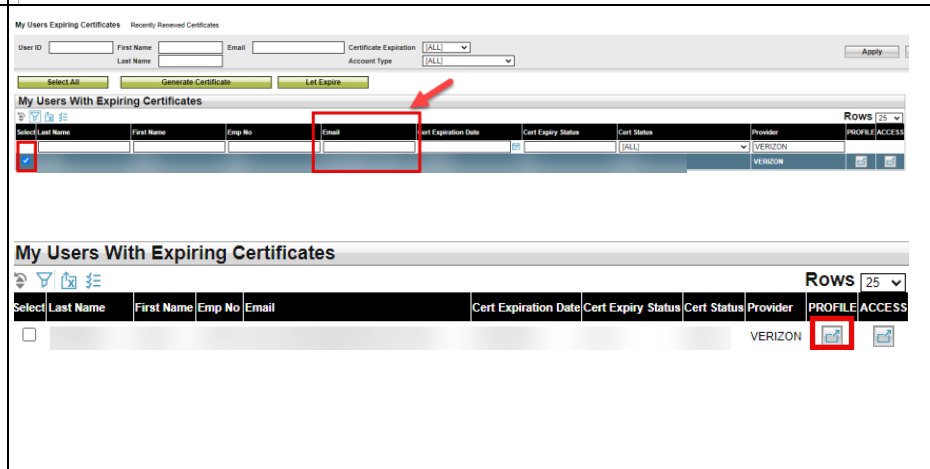

**IMPORTANT TO NOTE:** Do not hit the **Select All** feature. If you do, the system will select Entrust certificates as well.

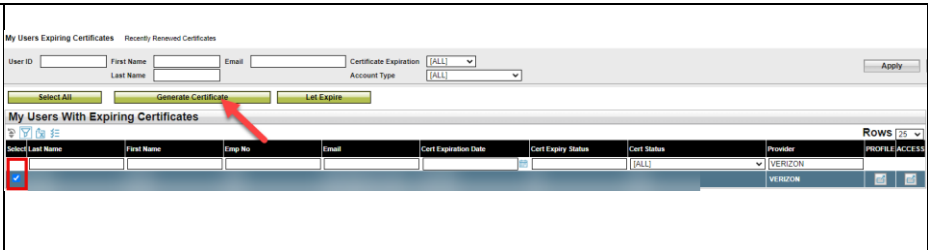

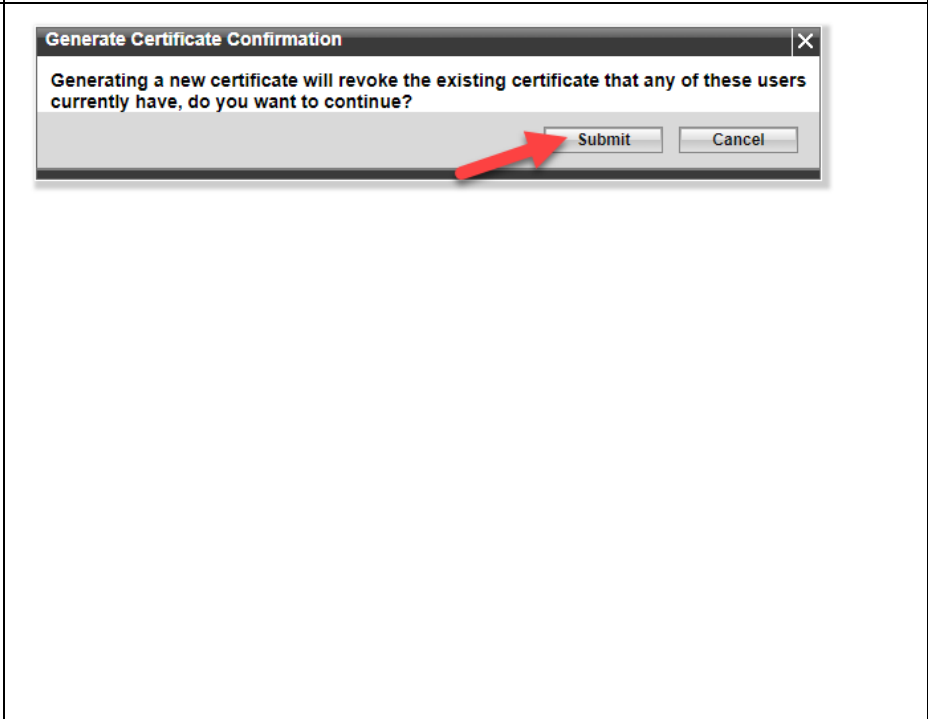

The screenshot shows the 'My Users With Expiring Certificates' interface. The 'Select All' button is crossed out with a red X. The table shows one user with 'VERIZON' in the Provider column. Below the table, there is a section for 'My Users With Expiring Certificates' with search filters and buttons. The 'Select All' button is crossed out with a red X.

Please verify that the email address listed for the user is correct.

If the email is **NOT** correct, the UAA will need to edit the email address associated with the certificate by clicking the user's **Profile** button and updating.

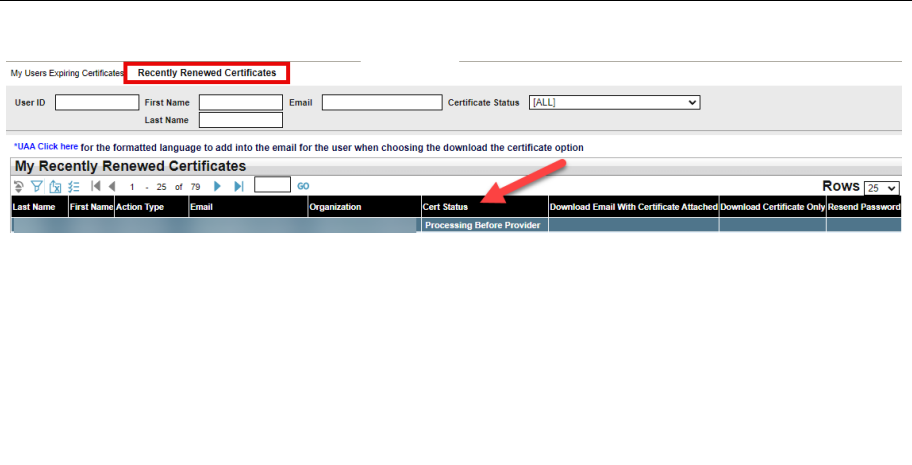

The screenshot shows the 'My Users With Expiring Certificates' interface. The 'Email' column in the table is highlighted with a red box. Below the table, there is a section for 'My Users With Expiring Certificates' with search filters and buttons. The 'PROFILE' button in the table is highlighted with a red box.

<p>Once the email is confirmed, click <b>Generate Certificate</b>.</p>	
<p>Clicking <b>Generate Certificate</b> will prompt a pop-up box if the certificate is 90 days or more from expiration warning that the older certificate will be revoked.</p> <p>This <b>WILL NOT</b> be the case for <b>Verizon</b> Certificates.</p> <p>For the purpose of replacing a Verizon Certificate to an Entrust Certificate, please disregard the pop-up by selecting <b>Submit</b>.</p>	
<p>At the bottom of the screen, users will see a text box indicating the request was submitted</p> <p><i>Note: Older Verizon certificates will remain available alongside newer Entrust certificates for roughly 14 days.</i></p>	<p>02/28/2024 08:59:05 A Request has been submitted to Generate the Certificate for all Selected Users.</p>

It will take 5-10 minutes for certificates to generate. Navigate to the **Recently Renewed Certificates** tab. There, users will see the status of the new certificate that was generated.

Details on **Certification Statuses** column can be located on the last page.

To: john.green@nosuchcompany.com

Subject: New CAISO Certificate for JOHN GREENx30213

Attached: JOHN\_GREENx30213\_01d1b350079c810825d2743eebd21ba\_certificate.p12 (7 KB)

Dear JOHN GREENx30213,

Your organization's User Access Administrator "Rashele Wiltzius" has downloaded a CAISO CMA certificate and it is attached. The CAISO will send you a separate email to the following address "rwtizius@caiso.com" with the password required to install your certificate.

The password email will also have instructions on how to install the certificate.

\*\*\*IMPORTANT NOTICE\*\*\* The attached certificate contains the CAISO's Certificate Authority trust chain.

The application access configuration may take approximately 3 to 5 days to complete following receipt of the certificate.

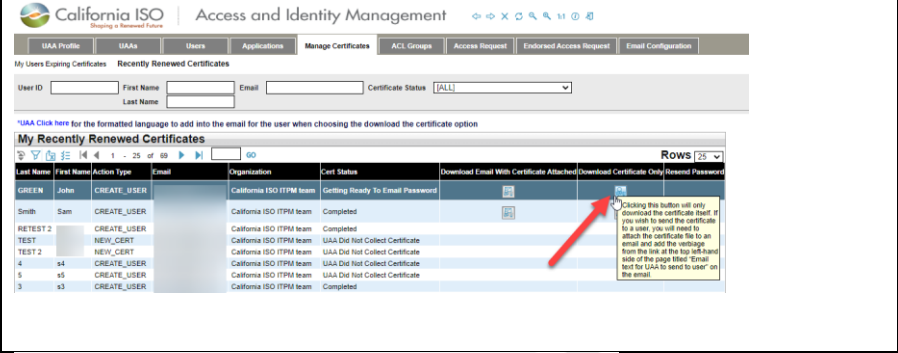

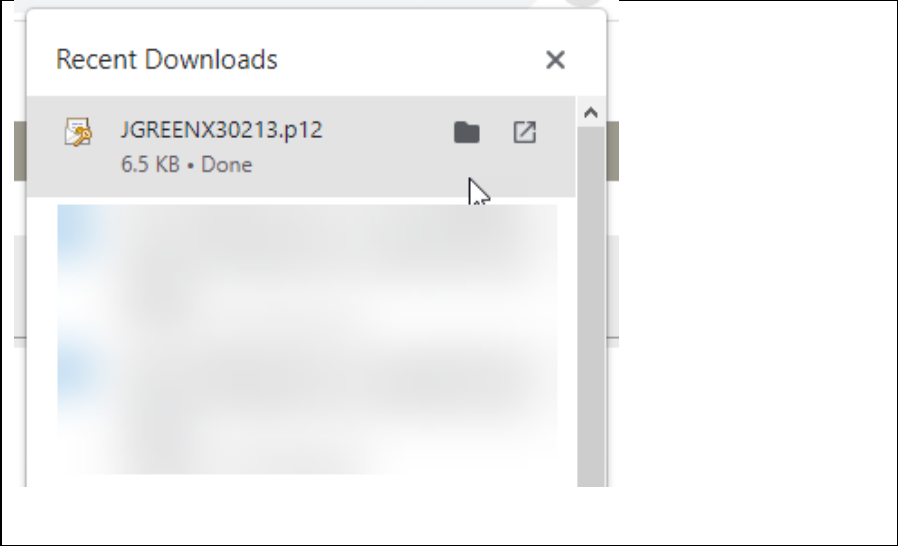

IMPORTANT: California ISO will hold a copy of your certificate for up to 5 days. After this period has passed, California ISO will not have a copy of your certificate.

For questions, contact our support desk at ServiceDesk@caiso.com or (888) 889-0450.

Regards,  
CAISO Identity Management Operations

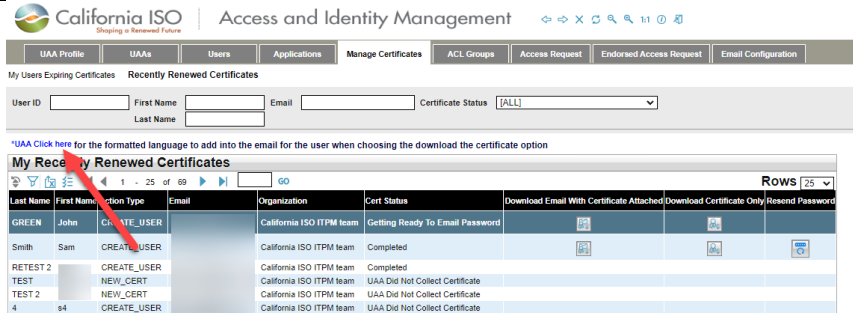

<p>Users will receive a separate email directly from AIM with the certificate password.</p> <p><i>Note: Make sure your organization whitelists downloads from the website “aim.caiso.com” and “caiso.com”</i></p>	<p>Dear User "SALLY JANE 2x30171",</p> <p>We have given below the password to be used to install your California ISO CMA Certificate. ## Certification Statuses in AIM

Cert Status	Definition
<b>Active</b>	AIM has just started processing the certificate.
<b>Getting Ready To Email Password</b>	The certificate has been downloaded and AIM is about to send the password to the user.
<b>Certificate Available for Download</b>	The certificate has been created and is ready to be downloaded by the UAA.
<b>UAA Did Not Collect Certificate</b>	After the certificate was ready to be downloaded, the UAA did not download it. <i>Note: CAISO only keeps the certificate for 5 days. After 5 days we remove the certificate information and you will have to create a new certificate request.</i>
<b>Completed</b>	The certificate process has completed.
<b>Something Went Wrong – Certificate</b>	There was failure while trying to process the certificate. If this status has not change after approximately 2 hours, contact customer support.
<b>Invalid Cert Request</b>	The certificate request was deemed to be invalid. This is a very rare occurrence. Please contact customer support to determine why this occurred.

<b>Password Emailed to User</b>	The password has been emailed to the user.
<b>Processing Before Provider</b>	CAISO is processing the certificate request.
<b>Processing At Provider</b>	The certificate is being processed by the certificate provider.
