Meeting Notes Assignment

Changes to the Agenda

State map with ISO control area shaded.

CAISO Controlled Grid

Why Revisit and Revise?

- “periodically review the ISO Grid Planning Standards”
- Standards last modified February 2, 2002
- To be consistent with today’s system
- To be consistent with regulatory requirements

Discussion of Stakeholder Comments on the Existing CAISO Grid Planning Standards

- Refer to stakeholder comments distributed prior to this meeting and the Sept. 17th meeting notes

Discussion of Potential Planning Standards Revisions and Additions

- Refer to stakeholder comments distributed prior to this meeting
- Define potential revisions and additions

Formation of Small Work Groups

- Additional review of comments
- Recommend revision and/or additions

Schedule to Propose Revisions

Send out suggested revisions by?

Complete by 2nd quarter 2008

Next Steps / Action Items

Next Meeting

November 20, 2007

Time: 10:00 AM – 3 PM

Location: Lake Tahoe Conference Room
101 Blue Ravine Road
Folsom, CA 95630

Back-up Slides

Purpose of the Standards

- To have consistent reliability standards for the CAISO Controlled Grid to maintain or improve the level of transmission system reliability that existed with pre-CAISO standards.
- Fully utilize and adhere to NERC and WECC Standards
- Take into account the specific requirements of maintaining reliability of the CAISO Controlled Grid.
- Provide Interpretations of NERC and WECC Standards.
- Identify if more stringent standards are required.

CAISO Grid Planning Standards

- NERC/WECC Planning Standards
- Specific Nuclear Unit Standards
- Combined Line and Generator Outage Standard
- New Transmission versus Involuntary Load Interruption Standard
- San Francisco Greater Bay Area Generation Outage Standard

CAISO Grid Planning Standards

- CAISO Grid Planning Guides for New Generator Special Protection System
- Interpretations of NERC/WECC Planning Standards Terms
- Background behind the New Transmission versus Involuntary Load Interruption Standard
- Background behind the San Francisco Greater bay Area Generation Outage Standard
