

I am a Stakeholder in the C3ET Project Meetings and have an Urgent complaint / suggestion as to the Scheduling of such.

We are working CA. citizens and residents who have daytime

jobs which require that we not be available at 2 PM for web/tele conferencing.

I am hereby requesting and strongly Urging that the remaining Stakeholder meetings regarding C3ET, be scheduled as late Afternoon & Evening Hours, open to us as Working Public Stakeholders for involvment & Active Participation.

I believe that the prior meetings have been held when only the Private Energy Corporations, CAISO Board Members, and retired persons can partake.

This is not compliant with the

" Open & Transparent Process "

we are legally afforded.

Please reply immediately so we can arrange participation in the upcoming " prior to Thanksgiving" ?? Stakeholder Conference Hearing.
