

BPM Change Management Process

Christine Kirsten
BPM Change Manager

Market Performance and Planning Forum

March 16, 2010

Stakeholders are concerned about timing and notification of charge code changes.

- Stakeholders request:
 - Immediate communication of changes
 - Efficient methods to organize and track current PRRs, comments, and status
- The following methods are currently available:
 - PRRs can be found using the Advanced Find mechanism.
 - Summary report is available in XML which can be imported into Excel and sorted/filtered.
 - RSS (Really Simple Syndication) feeds are available for each PRR.
 - Weekly Market Notices & SaMC User Group calls communicate newly posted PRRs, recommendations, and final decisions.
 - SaMC User Group calls communicate PRR revisions.
