

May 23 2019 Exceptional Dispatch CPM Designation Report

Designation Summary:

The California ISO issued an Exceptional Dispatch Capacity Procurement Mechanism (CPM) designation to CSCGNR_1_UNIT 1 and DUANE_1_PL1X3 for a non-system reliability need. The designation is effective May 23, 2019 for a duration of 60 days.

Duration and Cost:

RESOURCE_ID	MW	ED Code	Accepted Offer Price	Estimated CPM Cost
CSCGNR_1_UNIT 1	7.95	Local Reliability Issue	\$6.31/kw-month	\$59,629.5
DUANE_1_PL1X3	130.1	Local Reliability Issue	\$6.31/kw-month	\$1,158,516.00

Reason for CPM:

The ISO issued an Exceptional Dispatch CPM designation to CSCGNR_1_UNIT 1 and DUANE_1_PL1X3 to address an Exceptional Dispatch non-system Reliability Need. The Exceptional Dispatch was issued to address a potential thermal overload on a 230 kV line in the PG&E Area for the next contingency event. The designation amount reflects the minimum amount of capacity the ISO could designate to mitigate the reliability need posed by the potential thermal overload.
