

II. BACKGROUND

On March 16, 1999, Cabrillo Power II LLC (“Cabrillo Power II”) tendered for filing pursuant to Section 205 of the Federal Power Act (16 U.S.C. § 824d), an amendment to the jurisdictional Reliability Must-Run Agreement applicable to 17 Combustion Turbines (the “Combustion Turbines RMR Agreement”). The Combustion Turbines RMR Agreement was originally filed in Docket Nos. ER98-496-000 and ER98-2160-000 by the San Diego Gas & Electric Company (“SDG&E”) on October 31, 1997, and subsequently amended on March 11, 1998. Pursuant to its filing, Cabrillo Power II proposes to adopt the Combustion Turbines RMR Agreement as its own. Cabrillo Power II has requested that the amendment become effective as of the date it acquires the 17 Combustion Turbines, which will be on or about March 31, 1999.

III. BASIS FOR MOTION TO INTERVENE

The ISO is a non-profit public benefit corporation organized under the laws of the State of California and responsible for the reliable operation of a grid comprising the transmission systems of SDG&E, Southern California Edison Company, and Pacific Gas and Electric Company, as well as for the coordination of the competitive electricity market in California.

At issue in this proceeding is an RMR Agreement to which the ISO is a party and that could affect the reliability of the ISO Controlled Grid. The ISO therefore has an interest in this proceeding that cannot be represented by any other party. Accordingly, the ISO requests that it be permitted to intervene herein with full rights of a party.

The ISO raises no substantial issues at the present time but reserves the right to do so in any further aspects of the proceeding ordered by the Commission.

IV. BASIS FOR MOTION TO CONSOLIDATE

The ISO moves to consolidate this proceeding with the ongoing proceeding in San Diego Gas & Electric, Docket Nos. ER98-496-000, et al. Consolidation is appropriate as the proceeding in Docket Nos. ER98-496-000, et al., has been established to resolve all outstanding issues regarding RMR Agreements. The ISO submits that in light of the related nature of the two proceedings, SDG&E's assignment of the Combustion Turbines RMR Agreement should be subject to the resolution of Docket Nos. ER98-496-000, et al.

V. CONCLUSION

Wherefore, for the foregoing reasons, the ISO respectfully requests (1) that the Commission permit it to intervene, and that it be accorded full party status in this proceeding, and (2) that the Commission consolidate this proceeding with Docket Nos. ER98-496-000, et al.
