**Re: California Independent System Operator Corporation
Errata to Filing to Clarify Tariff Provisions
Docket No. ER11-3510-____**

Dear Secretary Bose:

On May 3, 2011, the California Independent System Operator Corporation ("ISO") submitted a filing in this proceeding to clarify provisions of the ISO tariff relating to the self-provision of regulation services. After it submitted the filing, the ISO discovered that page 4 of the transmittal letter for the filing includes the following inadvertent misstatement: "For regulation down, this level is the resource's lower regulation limit, and for regulation up, this level is the resource's upper regulation limit." That sentence should read as follows: "For regulation down, this level must be at the resource's upper regulation limit so that the resource can provide regulation down, and for regulation up, this level must be at the resource's lower regulation limit so that the resource can provide regulation up." The ISO respectfully requests that the erroneous sentence be disregarded and the corrected sentence inserted in its place.

The ISO apologizes for any inconvenience this may have caused. Please contact the undersigned with any questions regarding this matter.

The Honorable Kimberly D. Bose
