1. Procedure Detail

1.1. Purpose and Distribution

The California ISO (CAISO) sends Emergency notices when adverse grid or market conditions require activation of the CAISO Electrical Emergency Plan, which is implemented through CAISO’s Emergency procedures. Notices are targeted to control centers and communications departments of Participating Transmission Owners, Utility Distribution Companies, Metered Subsystems, Scheduling Coordinators as well as state, federal, regulatory and oversight agencies. Not all Emergency notices are necessarily sent to all recipients but rather to the stakeholders for each notice identified by the CAISO. Subsequent re-transmissions of these notices by media, public safety agencies, and others extend the audience to a much wider range of recipients than those specified above.

This document is controlled when viewed electronically.
When downloaded or printed, this document becomes UNCONTROLLED.

Page 1 of 56
Emergency notices may be issued on a California ISO Grid or Regional (Northern or Southern California) basis. In addition to the standardized text in the following pages, CAISO Operators can elect to provide additional details and descriptions specific to the event.

1.1.1. Advisories, NOT Dispatch Instructions

Emergency notices do not serve as, nor should they be mistaken for, Operating Instructions issued by the CAISO. They are advisories only and Operating Instructions relative to system emergencies will be issued through established modes.

1.1.2. Disclaimer

Emergency notices are based on current conditions of the transmission grid system. While an Emergency notice reflects the most current information available to the CAISO at the time of issuance, transmission grid system conditions are subject to sudden and rapid change without warning and the accuracy of any notice cannot be assured. These CAISO notices are provided solely for informational purposes. Reliance by any party on the contents of these CAISO notices, regardless of any errors, omissions, inaccuracies, and/or subsequent changed conditions shall not be made the basis for any claim, demand, or cause for action against the CAISO. Any recipient's decisions or actions that may be based in any way whatsoever on the contents of these CAISO notices shall be the sole responsibility of the recipient.

1.2. Emergency Notices

**Terminology:**

- **Initiation:** Issue a new event and event message. This event will either immediately be in effect or will be issued to be in effect at a future time or date.

- **Update:** Update an event (e.g. start time, end time, reason text).

- **End:** Formally end an event.

- **Cancellation:** Cancel an event before it takes place.

1.2.3. **Restricted Maintenance Operations - Gas Supply Insufficiency**

### 1.2.3.1. Issue

**Regions:**

CAISO Grid, Northern CA Region, Southern CA Region, VEA Region, or South OC San Diego Region

**Subject:**

Restricted Maintenance Operations – Gas supply insufficiency declared for @StartDate - @EndDate

**Header:**

Restricted Maintenance Operations – Gas supply insufficiency declared for @StartDate - @EndDate - @EventId

Notice No: @MessageId

**Message:**

The California ISO has declared Restricted Maintenance Operations due to gas supply insufficiency for @Region, effective @StartDate through @EndDate.

Reason: Natural gas curtailments in @Region. For more information as it becomes available, monitor the System Conditions Bulletin on the caiso.com News page.

Restricted Maintenance Operations, as detailed in CAISO Operating Procedure 4120, Gas Transmission Pipeline Derates or Outages, will be in effect. Outages are not being cancelled at this time but [generators?] need to follow the scheduled times to avoid cancellation. If outages need to be cancelled, a separate RMO notice will be issued with additional information.

Market participants are cautioned to avoid actions, which may jeopardize generator and/or transmission availability.

1.2.7.1. Issue

**Regions:**
CAISO Grid, Northern CA Region, Southern CA Region, VEA Region, or South OC San Diego Region

**Subject:**
EEA Watch declared for @Region, effective @StartDate - @EndDate

**Header:**
EEA Watch declared for @Region, effective @StartDate - @EndDate - @EventId
Notice No: @MessageId

**Message:**
An Energy Emergency Alert (EEA) Watch has been declared for the California ISO for @Region, effective @StartDate through @EndDate.

Reason: For more information as it becomes available, monitor the System Conditions Bulletin on the caiso.com News page.

CAISO analysis shows that all available resources are committed or forecasted to be in use, for the specified time period, and there is potential for an energy deficiency. Entities are encouraged to offer available energy and ancillary service bids, participating customers may be directed by utilities to use generators approved for emergencies, or to reduce load according to the protocols of each utility's program.

**Footer:**

Monitor system conditions on Today's Outlook ([http://www.caiso.com/TodaysOutlook/Pages/default.aspx](http://www.caiso.com/TodaysOutlook/Pages/default.aspx)) and contact local electric utilities for details about their respective load reduction programs.

Notice issued at: @IssueDate
1.2.7.2. Update

Regions:
CAISO Grid, Northern CA Region, Southern CA Region, VEA Region, or South OC San Diego Region

Subject:
UPDATE: EEA Watch for @Region, effective @StartDateTime - @EndDateTime

Header:
UPDATE: EEA Watch for @Region, effective @StartDateTime - @EndDateTime - @EventId
Notice No: @MessageId

Message:
The California ISO has updated the Energy Emergency Alert (EEA) Watch for @Region, effective @StartDateTime through @EndDateTime.

Reason: For more information as it becomes available, monitor the System Conditions Bulletin on the caiso.com News page.

CAISO is forecasting an energy deficiency, with all available resources in use or forecasted to be in use, for the specified time period. Conservation efforts are encouraged during this time, and energy market participants are encouraged to offer additional supplemental energy and ancillary service bids. During this time, participating customers may be directed by utilities to use generators approved for emergencies, or to reduce load following the protocols of each utility's programs.

Message:
An Energy Emergency Alert (EEA) 1 has been declared for the California ISO for @Region, effective @StartDate through @EndDate.

Reason: For more information as it becomes available, monitor the System Conditions Bulletin on the caiso.com News page.

During the effective time period, all available generation resources in the CAISO Balancing Authority are committed to meet firm load, firm transactions, and reserve commitments. CAISO is anticipating that it can maintain sufficient contingency reserves during this period.

Conservation efforts are encouraged during this time, and entities are encouraged to offer available energy and ancillary service bids. During this time, participating customers may be directed by utilities to use generators that are approved for emergencies, or to reduce load according to the protocols of each utility's program.

1.2.10. EEA 3 – Preparing for rotating power outages

1.2.10.1. Issue

Regions:
- CAISO Grid
- Northern CA Region
- Southern CA Region
- VEA Region
- South OC San Diego Region

Subject:
- EEA 3 - Preparing for rotating power outages declared for @Region, effective @StartDate - @EndDate

Header:
- EEA 3 - Preparing for rotating power outages declared for @Region, effective @StartDate - @EndDate - @EventId
- Notice No: @MessageId

Message:
An Energy Emergency Alert (EEA) 3 - Preparing for rotating power outages has been declared for the California ISO for @Region effective @StartDate through @EndDate.

Reason: For more information as it becomes available, monitor the System Conditions Bulletin on the caiso.com News page.

Firm load has been armed as contingency reserve but no operating instructions for firm load interruptions have been issued at this time.

CAISO is currently an energy-deficient balancing authority and is unable to meet minimum contingency reserve requirements. Utilities have been directed to prepare for possible load curtailments, use of interruptible loads, and requests for out-of-market and emergency energy from all available sources.

Maximum conservation efforts are urged. During this time, participating utility customers will be directed by utilities to use generators that are approved for emergencies, or to reduce load according to the protocols of each utility’s program.

Utility distribution companies and metered subsystems shall stand by for operating instructions from the CAISO for load curtailments, use of interruptible loads and requests out-of-market and emergency energy from all available sources.

Unless the context otherwise indicates, any word or expression defined in the Master Definitions Supplement to the CAISO Tariff shall have that meaning when capitalized in this Operating Procedure.

The following additional terms are capitalized in this Operating Procedure when used as defined below:

None.

Version History

<table>
<thead>
<tr>
<th>Version</th>
<th>Change</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>8.1</td>
<td>Added Section 1.2.11 and 1.2.12 for Restricted Maintenance Operations Northern and Southern CA – Gas Supply Insufficiency added to AWE Tool. Noted Errata Change for version of last update in Version History. Minor formatting and grammar updates. Updated language of notices per updated templates (added California, replaced ISO with CAISO, and added websites references).</td>
<td>8/28/18</td>
</tr>
</tbody>
</table>
## Emergency Notice Templates

<table>
<thead>
<tr>
<th>Version</th>
<th>Change</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>9.0</td>
<td>Annual Review: Updating messaging; changed order of alerts to be consistent with 4420, 4420B, Flex Alert, RMO, Transmission Emergency, Alert, Warning, etc. Updated instances of ISO to CAISO. Updated energy emergency language for warning, stages 1, 2, and 3. Added Table of Contents.</td>
<td>6/15/21</td>
</tr>
<tr>
<td>9.1</td>
<td>AWE messages modified to add references and actions related to demand response and the California State Emergency Program (CSEP).</td>
<td>8/20/21</td>
</tr>
<tr>
<td>10.0</td>
<td>Annual Review/Major Update: Sections 1.2.8 through 1.2.12 and 1.3.8 through 1.3.12 - converted AWE notices to EEA notices – removing Grid Alert, Warning, Stage 1, Stage 2 and Stage 3, and adding EEA Watch, EEA 1, EEA 2 and EEA 3. Removed 1-hour probability notice. Updated procedure title by removing “System.”</td>
<td>5/01/22</td>
</tr>
<tr>
<td>10.1</td>
<td>Annual Review: Minor edit to Section 1.2.8. Updates to multiple message templates for 2023 summer (Sections 1.2.8, 1.2.9, 1.2.10, 1.2.11, 1.3.8, 1.3.9, 1.3.10, 1.3.11, and 1.3.12). Updated fact sheet URL reference throughout.</td>
<td>6/22/23</td>
</tr>
<tr>
<td>11.0</td>
<td>Major Update: Reflects new ONS templates and adds new terminology. Removed history prior to five years.</td>
<td>11/01/23</td>
</tr>
</tbody>
</table>
