***This memorandum does not require ISO Board of Governors action.***

As required by the Federal Energy Regulatory Commission, Management provides this report to inform the ISO Board of Governors on the status of the business practice manual change requests submitted by stakeholders and/or the California Independent System Operator Corporation.

Both the ISO and stakeholders use the same electronic system and process to submit and track proposed changes to the BPMs. The process includes stakeholder review, ISO approval or rejection, and a possible appeal to the BPM Appeals Committee, which is comprised of three ISO officers.

As of April 28, 2023, the following table represents the active Proposed Revision Requests (PRRs) in the BPM change management system.

There was a stakeholder meeting on January 24, 2023, in which nineteen (19) stakeholders participated, a stakeholder meeting on February 21, 2023, in which sixteen (16) stakeholders participated, a stakeholder meeting on March 28, 2023, in which thirty-two (32) stakeholders participated and a stakeholder meeting on April 25, 2023, in which forty-five (45) stakeholders participated. Based on stakeholder comments during the meetings and comments entered into the BPM change management electronic system, it appears that stakeholders are generally satisfied with the process.
