</thead>
</table>
| California Department of Water Resources (CDWR) | Strongly supports the following initiatives:  
- 7.1.7 Pumped Storage with Multiple Pumping Levels (D)  
- 7.1.47 Aggregated Pumps and Pumped Storage (D)  
- 7.2.2 Congestion Revenue Rights Revenue Sufficiency (D) | CAISO appreciates CDWR’s comments and will consider them when prioritizing initiatives in the roadmap process |
| California Municipal Utilities Association (CMUA) | Urges CAISO to immediately open initiative to review MIC construct in its entirety | Added initiative to the catalog in Section 7, Discretionary Initiatives |
| Public Advocates Office (PAO) | Recommends the CAISO:  
- Keep the CRR Track 2 initiative in the catalog  
- Investigate convergence bidding prior to considering whether to allow convergence bidding at sub-load aggregation points and implementing point-to-point convergence bids  
- Open an initiative to evaluate and address convergence bidding efficiencies and/or deficiencies  
- Provide stakeholders with cost-benefit analysis on complex initiatives. | CAISO deleted CRR Track 2 from the catalog following the improvements resulting from Track 1A and 1B.  
- CAISO is monitoring convergence bidding and may address any identified issues in the future |
| PacifiCorp (PAC) | CAISO should specify the EIM Governing Body classifications for all initiatives in the discretionary section  
- CAISO should update the Day-Ahead Market Enhancements (DAME) description  
- Categorize Multi-Greenhouse Gas Area as (C, 1) rather than (D, 1)  
- Should 6.1.4 Real-Time FRP Enhancement and 6.1.13 Flexible Ramping Product Enhancements be combined under one initiative?  
- Move Full Network Model Expansion Phase 2 to Section 6 | Added preliminary EIM Governing Body classifications for all discretionary initiatives  
- Updated DAME description  
- Categorized Multi-GHGU Area as (C,1)  
- Deleted 6.1.13, repetitive with ongoing FRP Refinements initiative  
- Added Full Network Model Expansion Phase 2 to Section 6 under EDAM |

<tr>
<th>Pacific Gas and Electric (PG&amp;E)</th>
<th>Prioritize initiatives that support the following objectives: a) resource adequacy reform, b) import RA rules, and c) market power mitigation. CAISO should prioritize initiatives that can be implemented soon to avoid future emergency conditions.</th>
<th>CAISO appreciates PG&amp;E’s comments and will consider them when prioritizing initiatives in the roadmap process.</th>

<tr>
<td>WPTF</td>
<td>Requests the CAISO initiate a stakeholder process focused on a robust scarcity pricing mechanism in Q1 of 2021 rather than including it as a sub-topic within EDAM.</td>
<td>CAISO included a separate scarcity pricing initiative in the catalog in Section 5, and removed from EDAM sub-topics.</td>
