

# Memorandum

**To:** ISO Board of Governors

**From:** Roger Collanton, Vice President, General Counsel, and Corporate Secretary

**Date:** July 18, 2018

**Re:** **Decision on consent agenda**

---

***This memorandum requires Board action.***

Pursuant to the ISO bylaws and the Charter for Energy Imbalance Market Governance, the EIM Governing Body has primary authority, as delegated by the Board of Governors, over changes to market rules that are specific to the energy imbalance market. The Charter specifies that such market rules changes go first to the EIM Governing Body for approval, and then to the Board for approval via consent agenda. In its general session meeting on July 12, 2018, the EIM Governing Body took the following action that is subject to Board approval via consent agenda:

- Approved, in a 5-0 vote, Management's proposal for tariff clarifications enhancing the EIM greenhouse gas attribution.

Management proposes the following motion:

***Moved, that the Board of Governors approves the July 26, 2018 consent agenda comprised of EIM greenhouse gas attribution enhancements; and***

***Moved, that the Board of Governors authorizes Management to make all necessary and appropriate filings with the Federal Energy Regulatory Commission to implement the enhancements described in Management's memorandum to the EIM Governing Body dated July 5, 2018, including any filings that implement the overarching initiative policy but contain discrete revisions to incorporate Commission guidance in any initial ruling on the proposed tariff amendment.***

Management's memorandum to the EIM Governing Body detailing the proposal and the EIM Governing Body's corresponding motion approving the proposal are included as Attachment 1.
