

Estimation of Upward Ancillary Service Settlement

California ISO	Version: 1.0
Estimation of Upward Ancillary Service Settlement	Last Updated: 05/9/2017

Consistent with Section 11.29.10.5 of the CAISO tariff, the ISO has estimated the real time Ancillary Service Spin and Non-Spinning reserve requirements and the corresponding resource prices to be zero on the settlement statement(s) listed below. Settlement based upon corrected reserve requirements and resource price values will be reflected on the next statement cycle. Market participants were notified of the estimation through an email to the Market Settlement User Group.
