Please provide your organization's position on the fifteen-minute scheduling granularity features topic as described in section 2 of the proposal. (Please indicate Support, Support with caveats, Oppose, or Oppose with caveats)

## 2. Fifteen-Minute Granularity Impacts to the Energy Imbalance Market

Please provide your organization's feedback on the Fifteen-Minute Granularity Impacts to the Energy Imbalance Market topic as described in section 3 of the proposal. Please explain your rationale and include examples if applicable.

Idaho Power Company generally supports the proposal to move to fifteen-minute granularity. That being said, the changes described in the proposal will require changes to EIM Entities' Open Access Transmission Tariffs ("OATT") and existing systems. The California ISO should allow sufficient time in its implementation

processes to allow EIM Entities to make corresponding changes to their OATTs (including any filings with the Federal Energy Regulatory Commission) and systems, and to allow for adequate testing and simulation.

Please provide your organization's position on the Fifteen-Minute Granularity Impacts to the Energy Imbalance Market topic as described in section 3 of the proposal. (Please indicate Support, Support with caveats, Oppose, or Oppose with caveats)

Support with caveats (see above).

#### 3. Energy Imbalance Market Governing Body Role

Please provide your organization's feedback on the EIM Governing Body Role as described in section 4 of the proposal. Please explain your rationale and include examples if applicable.

Please provide your organization's position on the EIM Governing Body Role as described in section 4 of the proposal. (Please indicate Support, Support with caveats, Oppose, or Oppose with caveats)
