3.2 **Termination**

3.2.1 **Termination by CAISO.** Subject to Section 5.2, the ISO-CAISO may terminate this Agreement by giving written notice of termination in the event that the Participating Generator commits any material default under this Agreement and/or the ISO-CAISO Tariff which, if capable of being remedied, is not remedied within thirty (30) days after the ISO-CAISO has given, to the Participating Generator, written notice of the default, unless excused by reason of Uncontrollable Forces in accordance with Article X of this Agreement. With respect to any notice of termination given pursuant to this Section, the ISO-CAISO must file a timely notice of termination with FERC. The filing of the notice of termination by the
3.2.2 Termination by Participating Generator. In the event that the Participating Generator no longer wishes to schedule Energy or provide Ancillary Services through a Scheduling Coordinator over the ISO-CAISO Controlled Grid, it may terminate this Agreement, on giving the ISO-CAISO ninety (90) days written notice, provided, however, that in accordance with Section 4.1.3, the Participating Generator may modify Schedule 1 to eliminate generating resources which it no longer owns or no longer has contractual entitlement to and such modification shall be effective upon receipt by the CAISO. With respect to any notice of termination given pursuant to this Section, the ISO-CAISO must file a timely notice of termination with FERC. The filing of the notice of termination by the ISO-CAISO will be considered timely if: (1) the request to file a notice of termination is made after the preconditions for termination have been met, and (2) the ISO-CAISO files the notice of termination within 30 days of receipt of such request. ARTICLE IV

GENERAL TERMS AND CONDITIONS

4.1 Net Scheduled QFs

4.1.1 Identification of Net Scheduled QF. The Participating Generator has identified the Net Scheduled QF that it owns, operates or has a contractual entitlement to, in Schedule 1, as required by Section 4.6.4 of the ISO-CAISO Tariff.

4.1.2 Technical Characteristics. The Participating Generator shall provide to the ISO-CAISO the required information regarding operating contacts, rated capacity, and operating characteristics of the Net Scheduled QF. Pursuant to Section 8.10.4 of the ISO-CAISO Tariff, and the Existing QF Contract, if any, associated with that Net Scheduled QF, the ISO-CAISO may verify, inspect and test the capacity and operating characteristics of the Net Scheduled QF. The performance of such inspection or test shall be conducted at a time mutually agreed upon by the Parties, which agreement shall not unreasonably be withheld.

4.1.3 Notification of Changes. Sixty (60) days prior to changing any technical information in Schedule 1, the Participating Generator shall notify the ISO-CAISO of the proposed changes. Pursuant to Section 8.10.4 of the ISO-CAISO Tariff, the ISO-CAISO may verify, inspect and test the capacity and operating characteristics; provided that the performance of such inspection or test is conducted at a time mutually agreed upon by the Parties, which agreement shall not unreasonably be withheld. The ISO-CAISO shall post on the ISO-CAISO Home Page Website a schedule showing, for at least one year in advance: (i) the proposed dates on which the ISO-CAISO’s Master File will be updated, which dates shall occur at least every three months; (ii) the dates on which the information contained in the revised Master File will become effective; and (iii) the deadlines by which changed technical information must be submitted to the ISO-CAISO in order to be tested and included in the next scheduled update of the ISO-CAISO’s Master File.
Unless the Participating Generator fails to test at the values in the proposed change(s), the change will become effective upon the effective date for the next scheduled update of the Master File, provided the Participating Generator submits the changed information by the applicable deadline. Subject to such notification this Agreement shall not apply to any Net Scheduled QF identified in Schedule 1 which the Participating Generator no longer owns nor has contractual entitlement.

4.2 **Agreement Subject to ISO-CAISO Tariff.** The Parties will comply with all applicable provisions of the ISO-CAISO Tariff, including Sections 7.4, 8.2.3.4 and 4.6 except as expressly provided in Sections 4.2.1 through 4.2.5 of this Agreement.

4.2.1 **Net Generation Metering.** Notwithstanding Sections 10.1.3 of the ISO-CAISO Tariff, the Participating Generator may net the value for the Generation produced by each Net Scheduled QF listed in Schedule 1 and the value for the Demand of the Self-provided Load that is (i) served by the Net Scheduled QF and (ii) electrically located on the same side of the Point of Demarcation.

4.2.2 **Meter and Telemetry Location.** The Participating Generator may satisfy the provisions of the ISO-CAISO Tariff for the installation of meters and telemetry by installing at the Point of Demarcation meters and telemetry for the purpose of recording the net impact of the Net Scheduled QF upon the CAISO-Controlled Grid; provided that the installed meters and telemetry satisfy the technical functional and performance requirements for meters and telemetry set forth in the ISO-CAISO Tariff.

4.2.3 **Scheduling, Billing and Settlement.** For scheduling, billing, and settlement purposes regarding Net Scheduled QF Self-provided Load, measurements shall be made at the Point of Demarcation.

4.2.4 **Operating Limitations.** Net Scheduled QF operating limitations shall be set forth in Schedule 1 of this Agreement, the resource data template used for transmittal of Participating Generator technical data to the ISO-CAISO pursuant to the ISO-CAISO Tariff, or as otherwise mutually agreed to by the Parties.

4.2.5 **Limitations on ISO-CAISO Operating Orders.** The ISO-CAISO will not knowingly issue an operating order that: (1) requires the Participating Generator to reduce its Generation below the delineated minimum operating limit, other than in a System Emergency; (2) conflicts with operating instructions provided by the Participating Generator; or (3) results in damage to the Participating Generator’s equipment, provided that any such equipment limitation has been provided to the ISO-CAISO and incorporated in the Participating Generator’s operating instructions to the CAISO. If the Participating Generator: (1) receives a Final Schedule which requires operation below the minimum operating limit, and (2) deviates from that Final Schedule to continue to operate at the minimum operating limit, it will not be subject to any penalties or sanctions as a result of operating at the minimum operating limit. The Participating Generator’s consequences for deviating from Final Schedules in Real-Time will be governed by the ISO-CAISO Tariff.

4.3 **Obligations Relating to Ancillary Services**

4.3.1 **Submission of Bids.** When the Scheduling Coordinator on behalf of the Participating Generator submits a bid for Ancillary Services, the Participating Generator will, by the operation of this Section 4.3.1, warrant to the ISO-CAISO that it has the capability to provide that service in accordance with the ISO-CAISO Tariff and that it will comply with ISO-CAISO Dispatch Instructions for the provision of the service in accordance with the ISO-CAISO Tariff.

4.3.2 **Certification.** The Participating Generator shall not use a Scheduling Coordinator to submit a bid for the provision of an Ancillary Service unless the Scheduling Coordinator serving that Participating Generator is in possession of a current certificate pursuant to Sections 8.4 and 8.109 of the ISO-CAISO Tariff.
4.4 **Obligations relating to Major Incidents**

4.4.1 **Major Incident Reports.** The Participating Generator shall promptly provide such information as the ISO-CAISO may reasonably request in relation to major incidents, in accordance with Section 4.6.7.3 of the ISO-CAISO Tariff.

4.5 **Dispatch and Curtailment.** The ISO-CAISO shall only dispatch or curtail a Net Scheduled QF of the Participating Generator: (a) to the extent the Participating Generator bids Energy or Ancillary Services from the Net Scheduled QF into the ISO-CAISO’s markets or the Energy is otherwise available to the ISO-CAISO under Section 40.1.4 of the ISO-CAISO Tariff; or (b) if the ISO-CAISO must dispatch or curtail the Net Scheduled QF in order to respond to an existing or imminent System Emergency or condition that would compromise ISO-CAISO Control Area integrity or reliability as provided in Sections 7 and 7.36.1, and 11.2.4.2.1 of the ISO-CAISO Tariff.

4.6 **Information to Be Provided by Participating Generator.** The Participating Generator shall provide to the ISO-CAISO (a) a copy of the FERC order providing Qualifying Facility status to the Net Scheduled QF listed in Schedule 1, (b) a copy of any existing power purchase agreement with a UDC for the Net Scheduled QF listed in Schedule 1, and (c) a copy or a summary of the primary terms of any agreement for standby service with a UDC or MSS Operator. The Participating Generator shall notify the ISO-CAISO promptly of any change in the status of any of the foregoing.

**PENALTIES AND SANCTIONS**

5.1 **Penalties.** If the Participating Generator fails to comply with any provisions of this Agreement, the ISO-CAISO shall be entitled to impose penalties and sanctions on the Participating Generator. No penalties or sanctions may be imposed under this Agreement unless a Schedule providing for such penalties or sanctions has first been filed with and made effective by FERC. Nothing in the Agreement, with the exception of the provisions relating to ADR, shall be construed as waiving the rights of the Participating Generator to oppose or protest any penalty proposed by the ISO-CAISO to the FERC or the specific imposition by the ISO-CAISO of any FERC-approved penalty on the Participating Generator.

5.2 **Corrective Measures.** If the Participating Generator fails to meet or maintain the requirements set forth in this Agreement and/or in the ISO-CAISO Tariff as limited by the provisions of this Agreement, the ISO-CAISO shall be permitted to take any of the measures, contained or referenced in the ISO-CAISO Tariff, which the ISO-CAISO deems to be necessary to correct the situation.

ARTICLE II

ACKNOWLEDGEMENTS OF PARTICIPATING LOAD AND CAISO

2.1 **CAISO Responsibility.** The Parties acknowledge that the ISO-CAISO is responsible for the efficient use and reliable operation of the ISO-CAISO Controlled Grid consistent with achievement of planning and operating reserve criteria no less stringent than those established by the Western Systems Coordinating Council and the North American Electric Reliability Council and further acknowledge that the ISO-CAISO may not be able to satisfy fully these responsibilities if the Participating Load fails to fully comply with all of its obligations under this Agreement and the ISO-CAISO Tariff.

2.2 **Scope of Application to Parties.** The Participating Load and ISO-CAISO acknowledge that all Loads which desire to submit Adjustment Bids, Supplemental Energy bids, or Ancillary Services bids or self-provided schedules to the ISO-CAISO through a Scheduling Coordinator must be included in Schedule 1 to this Agreement. ARTICLE III

TERM AND TERMINATION

3.1 **Effective Date.** This Agreement shall be effective as of the later of the date it is executed by the Parties or the date accepted for filing and made effective by FERC, and shall remain in full force and effect until terminated pursuant to Section 3.2 of this Agreement.

3.2 **Termination**

3.2.1 **Termination by CAISO.** Subject to Section 5.2, the ISO-CAISO may terminate this Agreement by giving written notice of termination in the event that the Participating Load commits any material default under this Agreement and/or the ISO-CAISO Tariff which, if capable of being remedied, is not remedied within thirty (30) days after the ISO-CAISO has given, to the Participating Load, written notice of the default, unless excused by reason of Uncontrollable Forces in accordance with Article X of this Agreement. With respect to any notice of termination given pursuant to this Section, the ISO-CAISO must file a timely notice of termination with FERC. The filing of the notice of termination by the ISO-CAISO will be considered timely if: (1) the request to file a notice of termination is made after the preconditions for termination have been met, and (2) the ISO-CAISO files the notice of termination within thirty (30) days of receipt of such request. This Agreement shall terminate upon acceptance by FERC of such a notice of termination.

3.2.2 **Termination by Participating Load.** In the event that the Participating Load no longer wishes to submit Adjustment Bids or transmit Energy, Supplemental Energy bids, or Ancillary Service bids or self-provided schedules over the ISO-CAISO Controlled Grid, it may terminate this Agreement, on giving the ISO-CAISO ninety (90) days written notice, provided, however, that in accordance with Section 4.4, the Participating Load may modify Schedule 1 to eliminate Load which it no longer provides for and such
modification shall be effective upon receipt by the CAISO. With respect to any notice of termination given pursuant to this Section, the ISO-CAISO must file a timely notice of termination with FERC. The filing of the notice of termination by the ISO-CAISO will be considered timely if: (1) the request to file a notice of termination is made after the preconditions for termination have been met, and (2) the ISO-CAISO files the notice of termination within thirty (30) days of receipt of such request. This Agreement shall terminate upon acceptance by FERC of such a notice of termination.

ARTICLE IV
GENERAL TERMS AND CONDITIONS

4.1 Technical Characteristics.

4.1.1 Curtailable Demand. As required by Section 8.4 of the ISO-CAISO Tariff, the Participating Load shall provide the ISO-CAISO with all technical and operational information requested in Schedule 1 for each Curtailable Demand that it owns, operates, or has a contractual entitlement to. For those Loads designated by the Participating Load as providing Curtailable Demand, Schedule 1 requires the Participating Load to indicate in Schedule 1 whether the Load can be scheduled or bid as Non-Spinning Reserve or Replacement Reserve. Pursuant to Section 8.10.1 of the ISO-CAISO Tariff, the ISO-CAISO may verify, inspect and test the capacity and operating characteristics provided in Schedule 1 for Curtailable Demands.

4.1.2 Dispatchable Load. The Participating Load shall provide the ISO that information required in Schedule 1 which is relevant to the Dispatchable Load that it owns, operates, or has a contractual entitlement to for the provision of Adjustment Bids.

4.2 Metering and Communication.

4.2.1 Curtailable Demand. Pursuant to Sections 8.4.4 and 8.4.6 of the ISO-CAISO Tariff, Curtailable Demand that is scheduled or bid as Non-Spinning Reserve or Replacement Reserve is required to comply with the ISO-CAISO’s communication and metering requirements.

4.2.2 Dispatchable Load. The Participating Load shall schedule Dispatchable Load pursuant to Section 2.2.11.1 of the ISO Tariff. Dispatchable Load shall comply with the ISO’s communication and metering requirements.

4.3 UDC Interruptible Load Programs. Due to the ISO-CAISO’s reliance on interruptible Loads to relieve System Emergencies and its contractual relationship with each UDC, the ISO-CAISO will not accept, and the Participating Load shall not submit Adjustment Bids, Supplemental Energy bids, or Ancillary Services bids or self-provided Ancillary Service Schedules from interruptible Loads which are subject to curtailment criteria established under existing retail tariffs, except under such conditions as may be specified in the ISO-CAISO Tariff.

4.4 Notification of Changes. Sixty (60) days prior to changing any technical information in Schedule 1, the Participating Load shall notify the ISO-CAISO of the proposed change(s). Pursuant to Section 8.10.4 of the ISO-CAISO Tariff, the ISO-CAISO may verify, inspect and test the capacity and operating characteristics provided in the revised Schedule 1. The ISO-CAISO shall post on the ISO-CAISO’s Home Page a schedule
showing, for at least one year in advance: (i) the proposed dates on which the ISO-CAISO’s Master File will be updated; (ii) the dates on which the information contained in the revised Master File will become effective; and (iii) the deadlines by which changed technical information must be submitted to the ISO-CAISO in order to be tested and included in the next scheduled update of the ISO-CAISO’s Master File. Unless the Load fails to test at the values in the proposed change(s), the Participating Load’s proposed change(s) will become effective upon the effective date for the next scheduled update of the Master File, provided that the Participating Load submits the changed information by the applicable deadline and is tested by the deadline. Subject to such notification this Agreement shall not apply to any Loads identified in Schedule 1 which the Participating Load no longer owns or no longer has a contractual entitlement to.

4.5 Agreement Subject to ISO-CAISO Tariff. The Parties will comply with all applicable provisions of the ISO-CAISO Tariff, including Sections 7.4, 8 and 10. This Agreement shall be subject to the ISO-CAISO Tariff, which shall be deemed to be incorporated herein.

4.6 Obligations Relating to Ancillary Services

4.6.1 Submission of Bids and Self-provided Schedules. When the Scheduling Coordinator on behalf of the Participating Load submits a bid or self-provided schedule for Ancillary Services, the Participating Load will, by the operation of this Section 4.6.1, warrant to the ISO-CAISO that it has the capability to provide that service in accordance with the ISO-CAISO Tariff and that it will comply with ISO-CAISO Dispatch Instructions for the provision of the service in accordance with the ISO-CAISO Tariff.

4.6.2 Certification. The Participating Load shall not use a Scheduling Coordinator to submit a bid for the provision of an Ancillary Service or submit a schedule for the self provision of an Ancillary Service unless the Scheduling Coordinator serving that Participating Load is in possession of a current Ancillary Service certificate pursuant to Sections 8.4 and 8.10 of the ISO-CAISO Tariff.

4.7 Obligations relating to Major Incidents. The Participating Load shall promptly provide such information as the ISO-CAISO may reasonably require in relation to the ISO’s investigations of operating situations or events, or for the ISO’s reporting to the authorities such as the FERC, California Public Utilities Commission, Western Systems Coordinating Council, or North American Electric Reliability Council.

ARTICLE V

If the Participating Load fails to comply with any provisions of this Agreement, the ISO CAISO shall be entitled to impose penalties and sanctions on the Participating Load, including the penalties set forth in Section 8.10.28.10.7 of the ISO-CAISO Tariff. No penalties or sanctions may be imposed under this Agreement unless a Schedule providing for such penalties or sanctions has first been filed with and made effective by FERC. Nothing in this Agreement, with the exception of the provisions relating to ADR, shall be construed as waiving the rights of the Participating Load to oppose or protest any penalty proposed by the ISO-CAISO to the FERC or the specific imposition by the ISO-CAISO of any FERC-approved penalty on the Participating Load.
5.2 **Corrective Measures.** If the Participating Load fails to meet or maintain the requirements set forth in this Agreement and/or the ISO-CAISO Tariff, the ISO-CAISO shall be permitted to take any of the measures, contained or referenced in the ISO-CAISO Tariff, which the ISO-CAISO deems to be necessary to correct the situation.

**ARTICLE VI**

**COSTS**

6.1 **Operating and Maintenance Costs.** The Participating Load shall be responsible for all its costs incurred in meeting its obligations under this Agreement for the Load identified in Schedule 1.

The Scheduling Coordinator and the ISO-CAISO are hereinafter referred to as the "Parties".
Whereas:

A. The ISO-CAISO Tariff provides that a Scheduling Coordinator may submit Dynamic Schedules to the ISO-CAISO from System Resources.

B. The Scheduling Coordinator is currently Scheduling Coordinator for a System Resource associated with a power plant(s) interconnected in a Control Area other than the ISO-CAISO Control Area (the "Host Control Area").

C. The Scheduling Coordinator wishes to implement and operate a dynamic functionality that allows scheduling of Energy, Supplemental Energy, and Energy associated with Spinning Reserve and Non-Spinning Reserve bidding dynamically from a System Resource into the ISO-CAISO Control Area from the Host Control Area and, therefore, wishes to undertake to the ISO-CAISO that it will comply with the applicable provisions of the ISO-CAISO Tariff.

D. The Parties are entering into this Agreement in order to establish the terms and conditions on which the ISO-CAISO and the Scheduling Coordinator will discharge their respective duties and responsibilities under the ISO-CAISO Tariff.

NOW THEREFORE, in consideration of the mutual covenants set forth herein, THE PARTIES AGREE as follows:

ARTICLE I
DEFINITIONS AND INTERPRETATION

Master Definitions Supplement. All terms and expressions used in this Agreement shall have the same meaning as those contained in the Master Definitions Supplement to the ISO-CAISO Tariff.

Rules of Interpretation. The following rules of interpretation and conventions shall apply to this Agreement:

(h) unless the context otherwise requires, any reference to a “person” includes any individual, partnership, firm, company, corporation, joint venture, trust, association, organization or other entity, in each case whether or not having separate legal personality;

(i) unless the context otherwise requires, any reference to a Party includes a reference to its permitted successors and assigns;

(j) any reference to a day, week, month or year is to a calendar day, week, month or year; and the captions and headings in this Agreement are inserted solely to facilitate reference and shall have no bearing upon the interpretation of any of the terms and conditions of this Agreement.

ARTICLE II

ACKNOWLEDGEMENTS OF SCHEDULING COORDINATOR AND CAISO

2.1 CAISO Responsibility. The Parties acknowledge that the ISO-CAISO is responsible for the efficient use and reliable operation of the ISO-CAISO Controlled Grid consistent with achievement of planning and operating reserve criteria no less stringent than those established by the Western Electricity Coordinating Council and the North American Electric Reliability Council and further acknowledges that the ISO-CAISO may not be able to satisfy fully these responsibilities if the Scheduling Coordinator fails to fully comply with all of its obligations under this Agreement and the ISO-CAISO Tariff.

ARTICLE III

TERM AND TERMINATION

3.1 Effective Date. This Agreement shall be effective as of the date set forth above, unless accepted for filing and made effective by FERC on some other date, if FERC filing is required, and shall remain in full force and effect until terminated pursuant to Section 3.2 of this Agreement.
3.2 Termination

3.2.1 Termination by CAISO. Subject to Section 3.2.2, the ISO-CAISO may terminate this Agreement by giving written notice of termination in the event that the ISO-CAISO’s agreement with the Host Control Area has terminated or the Scheduling Coordinator commits any material default under this Agreement and/or the ISO-CAISO Tariff which, if capable of being remedied, is not remedied within thirty (30) days after the ISO-CAISO has given, to the Scheduling Coordinator, written notice of the default, unless excused by reason of Uncontrollable Forces in accordance with Article X of this Agreement. With respect to any notice of termination given pursuant to this Section, the ISO-CAISO must file a timely notice of termination with FERC, if this Agreement has been filed with FERC, or must otherwise comply with the requirements of FERC Order No. 2001 and related FERC orders. The filing of the notice of termination by the ISO-CAISO will be considered timely if: (1) the filing of the notice of termination is made after the preconditions for termination have been met, and (2) the ISO-CAISO files the notice of termination within sixty (60) days after issuance of the notice of default. This Agreement shall terminate upon acceptance by FERC of such a notice of termination, if filed with FERC, or thirty (30) days after the date of the ISO-CAISO’s notice of default, if terminated in accordance with the requirements of FERC Order No. 2001 and related FERC orders.

3.2.2 Limitation on ISO-CAISO Termination. Notwithstanding the provisions of Section 3.2.1, in the event of noncompliance with the provisions of the ISO-CAISO’s Standards, the ISO-CAISO shall have the right to terminate this Agreement after three (3) instances of noncompliance. In the event that the ISO-CAISO determines that the Scheduling Coordinator has failed to comply with the ISO-CAISO’s Standards, the ISO-CAISO will provide written notice to that effect to the Scheduling Coordinator, and the Scheduling Coordinator shall have seven (7) days to correct the non-compliant condition(s). If the ISO-CAISO determines that Scheduling Coordinator has not corrected the non-compliant condition(s) within seven (7) days after the third notice of noncompliance, the ISO-CAISO may, by further written notice to the Scheduling Coordinator, terminate this Agreement and the existing functionality and arrangements described herein pursuant to Section 3.2.1, but without providing for the additional thirty (30)-day cure period otherwise provided in Section 3.2.1.

3.2.3 Termination by Scheduling Coordinator. In the event that the Scheduling Coordinator no longer wishes to submit dynamic schedules Bids to the ISO-CAISO, it may terminate this Agreement, on giving the ISO-CAISO ninety (90) days written notice. With respect to any notice of termination given pursuant to this Section, the ISO-CAISO must file a timely notice of termination with FERC, if this Agreement has been filed with FERC, or must otherwise comply with the requirements of FERC Order No. 2001 and related FERC orders. The filing of the notice of termination by the ISO-CAISO will be considered timely if: (1) the request to file a notice of termination is made after the preconditions for termination have been met, and (2) the ISO-CAISO files the notice of termination within thirty (30) days of receipt of such request. This Agreement shall terminate upon acceptance by FERC of such a notice of termination, if such notice is required to be filed with FERC, or upon ninety (90) days after the ISO-CAISO’s receipt of the Scheduling Coordinator’s notice of default, if terminated in accordance with the requirements of FERC Order No. 2001 and related FERC orders.

The provisions of Section 14 of the ISO-CAISO Tariff will apply to liability arising under this Agreement except that all references in Section 14 of the ISO-CAISO Tariff to Market Participants shall be read as references to the Scheduling Coordinator and references in the ISO-CAISO Tariff shall be read as references to this Agreement.
ARTICLE X

UNCONTROLLABLE FORCES

10.1 Uncontrollable Forces. Section 14 of the ISO-CAISO Tariff shall be incorporated by reference into this Agreement except that all references in Section 14 of the ISO-CAISO Tariff to Market Participants shall be read as references to the Scheduling Coordinator and all references to the ISO-CAISO Tariff shall be read as references to this Agreement.

ARTICLE XI

MISCELLANEOUS

11.1 Assignments. Either Party may assign or transfer any or all of its rights and/or obligations under this Agreement with the other Party’s prior written consent in accordance with Section 22.2 of the ISO-CAISO Tariff. Such consent shall not be unreasonably withheld. Any such transfer or assignment shall be conditioned upon the successor in interest accepting the rights and/or obligations under this Agreement as if said successor in interest was an original Party to this Agreement.

11.2 Notices. Any notice, demand or request which may be given to or made upon either Party regarding this Agreement shall be made in accordance with the Scheduling Coordinator Agreement and in accordance with Section 22.4 of the ISO-CAISO Tariff. A Party must update the information in Schedule 6 as information changes. Such changes shall not constitute an amendment to this Agreement.

11.3 Waivers. Any waiver at any time by either Party of its rights with respect to any default under this Agreement, or with respect to any other matter arising in connection with this Agreement, shall not be deemed a waiver with respect to any subsequent default or other matter arising in connection with this Agreement. Any delay short of the statutory period of limitations in asserting or enforcing any right under this Agreement shall not constitute or be deemed a waiver of such right.

11.4 Governing Law and Forum. This Agreement shall be deemed to be a contract made under and for all purposes shall be governed by and construed in accordance with the laws of the State of California, except its conflict of law provisions. The Scheduling Coordinator irrevocably consents that any legal action or proceeding arising under or relating to this Agreement to which the ISO CAISO ADR Procedures do not apply shall be brought in any of the following forums, as appropriate: any court of the State of California, any federal court of the United States of America located in the State of California or, where subject to its jurisdiction, before the Federal Energy Regulatory Commission.

11.5 Consistency with Federal Laws and Regulations. This Agreement shall incorporate by reference Section 22.9 of the ISO-CAISO Tariff as if the references to the ISO-CAISO Tariff were referring to this Agreement.

11.6 Merger. This Agreement constitutes the complete and final agreement of the Parties with respect to the subject matter hereto and supersedes all prior agreements, whether written or oral, with respect to such subject matter.
11.7 **Severability.** If any term, covenant, or condition of this Agreement or the application or effect of any such term, covenant, or condition is held invalid as to any person, entity, or circumstance, or is determined to be unjust, unreasonable, unlawful, imprudent, or otherwise not in the public interest by any court or government agency of competent jurisdiction, then such term, covenant, or condition shall remain in force and effect to the maximum extent permitted by law, and all other terms, covenants, and conditions of this Agreement and their application shall not be affected thereby, but shall remain in force and effect and the Parties shall be relieved of their obligations only to the extent necessary to eliminate such regulatory or other determination unless a court or governmental agency of competent jurisdiction holds that such provisions are not separable from all other provisions of this Agreement.

11.8 **Amendments.** This Agreement and the Schedules attached hereto may be amended from time to time by the mutual agreement of the Parties in writing. Amendments that are subject to FERC approval shall not take effect until FERC has accepted such amendments for filing and has made them effective. If the amendment does not require FERC approval, the amendment will be filed with FERC for information.

11.9 **Counterparts.** This Agreement may be executed in one or more counterparts at different times, each of which shall be regarded as an original and all of which, taken together, shall constitute one and the same Agreement.

**IN WITNESS WHEREOF,** the Parties hereto have caused this Agreement to be duly executed on behalf of each by and through their authorized representatives as of the date hereinabove written.

The UDC and the ISO-CAISO are hereinafter referred to as the “Parties”.

Whereas:

A. The purpose of this Operating Agreement is to establish the rights and obligations of the UDC and the ISO-CAISO with respect to the UDC’s Interconnection with the ISO-CAISO Controlled Grid and the UDC’s cooperation and coordination with the ISO-CAISO to aid the reliability and the operational control of the ISO-CAISO Controlled Grid and the UDC’s Distribution System.

B. The UDC owns and operates a Distribution System within the ISO-CAISO Control Area subject to the authority of a Local Regulatory Authority.

C. The UDC wishes to transmit Energy and/or supply Ancillary Services to or from the ISO-CAISO Controlled Grid under the terms and conditions set forth in the ISO-CAISO Tariff. The UDC also wishes to support and be part of the coordinated response to System Emergencies and to System Reliability concerns relating to the ISO-CAISO Controlled Grid.

D. The ISO-CAISO has certain statutory obligations under California law to maintain the reliability of the ISO-CAISO Controlled Grid.

E. This Operating Agreement obligates the UDC and the ISO-CAISO to comply with the relevant sections of the ISO-CAISO Tariff, the ISO-CAISO Operating Procedures and the ISO-CAISO Specifications.

F. The UDC and the Participating TO with which it is interconnected intend to coordinate the planning and implementation of any expansions or modifications of the UDC’s or Participating TO’s systems that will affect their transmission interconnection, the ISO-CAISO Controlled Grid or the transmission services to be required by the UDC.

NOW THEREFORE, in consideration of the mutual covenants set forth herein, THE PARTIES AGREE as follows:
ARTICLE I

DEFINITIONS AND INTERPRETATION

1.1 Master Definitions Supplement. Unless defined in Section 1.2 of this Operating Agreement, all terms and expressions used in this Operating Agreement shall have the same meaning as those contained in the Master Definitions Supplement to the ISO-CAISO Tariff.

1.2 Special Definitions for this Operating Agreement. In this Operating Agreement, the following words and expressions shall have the meanings set opposite them:

- "ISO-CAISO Specifications" means those standards pertaining to the areas of operation listed in Article IV of this Operating Agreement, approved by the ISO-CAISO to establish detailed technical performance and reliability parameters at the ISO-CAISO Controlled Grid and UDC Interconnection, associated with the ISO-CAISO Tariff, as those standards may be amended from time to time.

- "ISO-CAISO Operating Procedure" means those procedures pertaining to the areas of operation listed in Article IV of this Operating Agreement, created by the ISO-CAISO to establish detailed operating practices at the ISO-CAISO Controlled Grid and UDC Interconnection, associated with general provisions required in the ISO-CAISO Tariff, as those standards may be amended from time to time.

- "Underfrequency Load Shedding (UFLS)" means automatic Load Shedding, accomplished by the use of such devices as underfrequency relays, intended to arrest frequency decline and assure continued operation within anticipated islands.

1.3 Rules of Interpretation. The following rules of interpretation and conventions shall apply to this Operating Agreement:

(a) if there is any inconsistency between this Operating Agreement and the ISO-CAISO Tariff, the ISO-CAISO Tariff will prevail to the extent of the inconsistency;

ARTICLE II
TERM AND TERMINATION

2.1 **Effective Date.** This Operating Agreement shall be effective as of the later of the date it is executed by the Parties or the date accepted for filing and made effective by the FERC and shall remain in full force and effect until the earlier of the termination date, the termination of the TCA or such other date as the Parties shall mutually agree. With respect to any such termination, the ISO CAISO must file a timely notice of termination with FERC, and this Operating Agreement shall terminate upon acceptance by FERC of such a notice of termination.

2.2 **Termination Date.** Either Party (the terminating Party) may terminate this Operating Agreement by giving written notice in the event that the other Party (the defaulting Party) commits any default under this Operating Agreement and/or the ISO CAISO Tariff which, if capable of being remedied, is not remedied within 30 days after the terminating Party has given the defaulting Party written notice of the default, unless excused by reason of Uncontrollable Forces under Article X of this Operating Agreement. With respect to any notice of termination given pursuant to this Section, the ISO CAISO must file a timely notice of termination with FERC. The filing of the notice of termination by the ISO CAISO will be considered timely if: (1) the request to file a notice of termination is made after the preconditions for termination have been met, and (2) the ISO CAISO files the notice of termination within 30 days of receipt of such request. This Operating Agreement shall terminate upon acceptance by FERC of such a notice of termination.

2.3 **Termination Pursuant to the TCA.** If the UDC is a party to the Transmission Control Agreement (“TCA”), this Operating Agreement shall terminate upon the effective date of the UDC’s withdrawal from the TCA in accordance with Section 3.3 of the TCA, provided, however, that first the ISO CAISO shall have filed a timely notice of termination with FERC and FERC shall have accepted such notice of termination. The filing of the notice of termination by the ISO CAISO will be considered timely if: (1) the request to file a notice of termination is made after the preconditions for termination have been met, and (2) the ISO CAISO files the notice of termination within 30 days of receipt of such request.
ARTICLE III

GENERAL TERMS AND CONDITIONS

3.1.1 Facilities Under ISO-CAISO Operational Control. Parties shall identify on Schedule 1 those facilities of the UDC that the Parties mutually agree will be placed under the ISO-CAISO’s operational control pursuant to the ISO-CAISO Tariff. In the event that a Party invokes the dispute resolution provision identified in Section 7.1 of this Operating Agreement, such dispute shall be resolved based upon whether the ISO-CAISO’s control over such disputed facilities is essential to meeting the Applicable Reliability Criteria, as defined in the ISO-CAISO Tariff. With respect to each facility identified in Schedule 1, the Parties shall negotiate the extent of the ISO-CAISO’s operational control in order to meet said standard.

3.1.2 Facilities Financed by Local Furnishing Bonds or Other Tax-Exempt Bonds. This Section 3.1.2 applies only to facilities which are under the operational control of the ISO-CAISO and are owned by a UDC with Local Furnishing Bonds or other tax-exempt bonds. Nothing in this Operating Agreement shall compel (and the ISO-CAISO is not authorized to request) any UDC with Local Furnishing Bonds, or other tax-exempt bonds, to violate restrictions applicable to facilities which are part of a system that was financed in whole or part with Local Furnishing Bonds or other tax-exempt bonds. The UDC shall cooperate with and provide all necessary assistance to the ISO-CAISO in developing specific schedules to be included in executed Operating Agreements with such UDC to meet the intent of Section 3.1.1 of this Operating Agreement.

3.2 Agreement Subject to ISO-CAISO Tariff. This Operating Agreement shall be subject to the provisions of the ISO-CAISO Tariff which shall be deemed to be incorporated by reference herein, as the same may be changed or superseded from time to time pursuant to Sections 22.10 and 22.4.3 of the ISO-CAISO Tariff. The Parties agree that they will comply with Section 4.4, and any other applicable provisions, of the ISO-CAISO Tariff.

3.3 Operation of ISO-CAISO Controlled Grid. The ISO-CAISO shall operate the ISO-CAISO Controlled Grid in accordance with the ISO-CAISO Tariff and the Transmission Control Agreement to which it is a party.

3.4.1 Compliance with ISO-CAISO Specifications and ISO-CAISO Operating Procedure. The UDC will abide by and will perform all of the obligations under the ISO-CAISO Specifications and the ISO-CAISO Operating Procedure placed on UDCs in respect of all matters set forth therein as the same may be changed or superseded from time to time pursuant to the procedures set forth in Sections 22.10 and 22.4.3 of the ISO-CAISO Tariff. In the event of any conflict or dispute over interpretation, the ISO-CAISO Tariff shall, at all times, take precedence over the ISO-CAISO Specifications and ISO-CAISO Operating Procedure. The ISO-CAISO shall not implement any reliability requirements, operating requirements or performance standards that would impose increased costs on the UDC without giving due consideration to whether the benefits of such requirements or standards are sufficient to justify such increased costs. In any proceeding concerning the cost recovery by the UDC of capital and operation and maintenance costs incurred to comply with ISO-CAISO Specifications and Operating Procedure, the ISO-CAISO shall, at the request of the UDC, provide specific information regarding the nature of, and need for, the ISO-CAISO-imposed requirements or standards to enable the UDC to use this information in support of cost recovery through rates and tariffs.

3.4.2 Review of Specifications and Operating Procedure. The ISO-CAISO shall periodically review with the UDC the ISO-CAISO Specifications and Operating Procedure and, through the Grid Reliability and
Operations Committee process, shall modify the specifications and/or Operating Procedure as necessary.

3.4.3 **Periods When Compliance is Required.** While awaiting dispute resolution or regulatory review, the UDC shall not be required to comply with changes to the ISO-CAISO Specifications and/or Operating Procedure, except where compliance is necessary in order to prevent or remedy an imminent System Emergency.

3.5 **Scheduling Coordinator Certification.** The UDC shall ensure that any Scheduling Coordinator through which it schedules Energy and Ancillary Services to or from the ISO-CAISO Controlled Grid is appropriately certified in accordance with Section 4.5.1 of the ISO-CAISO Tariff in accordance with the list of Scheduling Coordinators established by the ISO-CAISO on WEnet, the CAISO’s Web-Based Communication System.

3.6 **Single Point of Contact.** The ISO-CAISO and the UDC shall each provide a single point of contact on a 24-hour, 7-day basis for the exchange of operational procedures and information. In the case of a UDC that is also a Participating TO, there may be only one single point of contact required and, in the reasonable discretion of the ISO-CAISO, duplicative reporting requirements and functions may be waived. Details of requirements relating to and the identity of the initial points of contact are set forth in Schedule 2.

3.7 **Delegated Operational Responsibilities.** The UDC undertakes to perform all operational responsibilities delegated to the UDC by the ISO-CAISO in accordance with Section 4.4.1.2 of the ISO-CAISO Tariff and described in Schedule 3.

**ARTICLE IV**

**OPERATIONAL COORDINATION**

4.1.1 **Maintenance Coordination for Facilities under ISO-CAISO Control.** The UDC shall schedule with the ISO-CAISO on an annual basis any maintenance Outages of the equipment included in Schedule 1 pursuant to Schedule 4 in compliance with the ISO-CAISO Tariff and shall coordinate its Outage requirements with the Participating TO with which it is interconnected.

4.1.2 **Maintenance Coordination for Other Facilities.** With respect to other facilities which may affect the reliability of the UDC Interconnection, the UDC shall coordinate its Outage requirements with the Participating TO with which it is interconnected.

4.2 **System Emergencies.** The responsibilities of the Parties in relation to System Emergencies are stated in the ISO-CAISO Tariff and in Schedule 5. The ISO-CAISO shall adopt fair and non-discriminatory procedures among the UDCs to ensure that no UDC bears a disproportionate share of the ISO-CAISO’s Load Shedding program.
4.2.1 **Underfrequency Load Shedding (UFLS).** The responsibilities of the Parties in relation to UFLS are stated in Sections 7.47.7 and 7.47.7.9 of the ISO-CAISO Tariff, the ISO-CAISO Operating Procedure, the ISO-CAISO Specifications and in Schedule 6.

4.2.2 **Other Automatic Load Shedding.** The responsibilities of the Parties in relation to automatic Load Shedding as a function of voltage and other parameters are stated in the ISO-CAISO Operating Procedure, the ISO-CAISO Specifications and in Schedule 7.

4.2.3 **Manual Load Shedding.** The responsibilities of the Parties to direct and to accept direction for manual disconnection of Load, under EEP, Load curtailment programs or other emergency plans, are stated in Section 7 and Section 7.47.11.3 of the ISO-CAISO Tariff, the ISO-CAISO Operating Procedure, the ISO-CAISO Specifications and in Schedule 8.

4.3 **Electrical Emergency Plan (EEP).** The responsibilities of the Parties in relation to the EEP are stated in Section 7.47.5.1 of the ISO-CAISO Tariff, the ISO-CAISO Operating Procedure, the ISO-CAISO Specifications and in Schedule 9.

4.4 **Load Restoration.** The responsibilities of the Parties for restoring Load following a system disturbance are stated in Section 7.47.11.3 of the ISO-CAISO Tariff, the ISO-CAISO Operating Procedure, the ISO-CAISO Specifications and in Schedule 8. Additionally, the Parties shall jointly perform a review following a major Outage as provided in Section 7.47.13.1 of the ISO-CAISO Tariff.

4.5 **Records, Information and Reports.** The Parties are required to maintain such records, to share information, and to make such reports as are stated in Section 4.4.12, 4.4.6, and 4.4.8.5 of the ISO-CAISO Tariff, the ISO-CAISO Operating Procedure, the ISO-CAISO Specifications, and in Schedule 11. Additionally, the Parties shall jointly perform a review following a major Outage as provided in Section 7.47.13.1 of the ISO-CAISO Tariff.

4.6 **Interconnection Operation Standards.** The ISO-CAISO and UDC shall maintain stable established operating parameters and control power and reactive flow within standards stated in the ISO-CAISO Specifications and in Schedule 12.

4.7 **Critical Protective Systems.** The UDC shall (in accordance with Section 11.2 of this Operating Agreement) notify the ISO-CAISO as soon as is reasonably practicable of any condition that it becomes aware of that may compromise the ISO-CAISO Controlled Grid Critical Protective Systems in accordance with Section 4.4.3.2 of the ISO-CAISO Tariff and Schedule 13.

4.8 **UDC Distribution Systems.** The ISO-CAISO shall (in accordance with Section 11.2 of this Operating Agreement) notify the UDC as soon as is reasonably practicable of any condition which the ISO-CAISO becomes aware that may compromise the operation and reliability of the UDC Distribution System.

**ARTICLE V**

**ACCESS TO FACILITIES**

5.1 **Access Rights.** Pursuant to Section 4.4.6, 4.6.6 of the ISO-CAISO Tariff and Schedule 14 of this Operating Agreement, the ISO-CAISO and the UDC shall each have the right to install or to have installed equipment or other facilities, including metering equipment, on the electric utility property of the other necessary for the implementation of this Operating Agreement. The ISO-CAISO’s installation of equipment on the property of the UDC shall comply with Local Regulatory Authority regulations, except where
compliance with Local Regulatory Authority regulations would cause the ISO-CAISO to violate the ISO-CAISO Tariff, and with all relevant safety standards. In such case, the UDC and ISO-CAISO will work together to resolve the conflict between the Local Regulatory Authority regulations and the ISO-CAISO Tariff.

5.2 **Meter Testing.** The UDC shall, at the request of the ISO-CAISO and upon reasonable notice, provide access to its facilities necessary to permit the ISO-CAISO or an ISOCAISO-approved meter inspector to perform such testing as necessary in accordance with Section 4.4.8.4.6 of the ISO-CAISO Tariff and the procedures set forth in Schedule 14.

5.3 **Emergency Access Rights.** Section 4.4.8.4.3 of the ISO-CAISO Tariff shall govern the ISO-CAISO’s right to access the UDC’s equipment or other facilities during a System Emergency or where access is needed in connection with an audit function. In a System Emergency, the UDC shall have a right of access to ISO-CAISO equipment on UDC property and UDC equipment on ISO-CAISO property without notice.

**ARTICLE VI**

**COSTS**

6.1 **UDC Operating and Maintenance Costs.** The UDC shall be responsible for all costs incurred in connection with procuring, installing, operating and maintaining its facilities identified in Schedule 1 for the purpose of meeting its obligations under this Operating Agreement.

6.2 **ISO-CAISO Operating and Maintenance Costs.** The ISO-CAISO shall be responsible for the procurement, installation, operation and maintenance costs of ISO-CAISO equipment set out in Article V of this Operating Agreement installed on UDC property.

**ARTICLE VII**

**DISPUTE RESOLUTION**

7.1 **Alternative Dispute Resolution.** The Parties shall make reasonable efforts to settle all disputes arising out of or in connection with this Operating Agreement. In the event any dispute is not settled, the Parties shall adhere to the ISO-CAISO ADR Procedures set forth in Section 13 of the ISO-CAISO Tariff, which is incorporated by reference, except that all reference in Section 13 of the ISO-CAISO Tariff to Market Participants shall be read as a reference to the UDC and references to the ISO-CAISO Tariff shall be read as references to this Operating Agreement.

**ARTICLE VIII**

**REPRESENTATIONS AND WARRANTIES**

8.1 **Representations and Warranties.** Each Party represents and warrants that its execution, delivery and performance of this Operating Agreement has been duly authorized by all necessary corporate and/or governmental actions, to the extent authorized by law.
8.2 **Necessary Approvals.** Each Party represents that all necessary approvals, permits, licenses, easements, right of way or access to install, own and operate its facilities subject to this Operating Agreement have been obtained prior to the effective date of this Operating Agreement.

**ARTICLE IX**

**LIABILITY**

9.1 **Extent of Liability.** The provisions of Section 14 of the ISO-CAISO Tariff will apply to liability arising under this Operating Agreement, except that all references in Section 14 of the ISO-CAISO Tariff to Market Participants shall be read as references to the UDC and references to the ISO-CAISO Tariff shall be read as references to this Operating Agreement.

**ARTICLE X**

**UNCONTROLLABLE FORCES**

10.1 **Uncontrollable Forces Tariff Provisions.** Section 14 of the ISO-CAISO Tariff shall be incorporated by reference into this Operating Agreement, except that all references in Section 14 of the ISO-CAISO Tariff to Market Participants shall be read as a reference to the UDC and references to the ISO-CAISO Tariff shall be read as references to this Operating Agreement.

**ARTICLE XI**

**MISCELLANEOUS**

11.1 **Assignments.** Either Party may assign its obligations under this Operating Agreement, with the other Party’s prior written consent, in accordance with Section 22.2 of the ISO-CAISO Tariff, which is incorporated by reference into this Operating Agreement. Such consent shall not be unreasonably withheld.

11.2 **Notices.** Any notice, demand or request which may be given to or made upon either Party regarding this Operating Agreement shall be made in accordance with Section 22.4 of the ISO-CAISO Tariff, which is incorporated by reference, except that all reference in Section 22.4 to Market Participants shall be read as a reference to the UDC. A Party must update the information relating to its address as that information changes in accordance with Section 22.4 of the ISO-CAISO Tariff. Such changes will not constitute an amendment to this Operating Agreement.

11.3 **Waivers.** Any waiver at any time by either Party of its rights with respect to any default under this Operating Agreement, or with respect to any other matter arising in connection with this Operating Agreement, shall not constitute or be deemed a waiver with respect to any subsequent default or matter arising in connection with this Operating Agreement. Any delay short of the statutory period of limitations, in asserting or enforcing any right under this Operating Agreement, shall not constitute or be deemed a waiver of such right.
11.4 **Governing Law and Forum.** This Operating Agreement shall be deemed to be a contract made under and for all purposes shall be governed by and construed in accordance with the laws of the State of California except in its conflict of laws provisions. The Parties irrevocably consent that any legal action or proceeding arising under or in relation to this Operating Agreement to which the ISO CAISO ADR Procedures do not apply, shall be brought in any of the following forums, as appropriate: any court of the State of California, any federal court of the United States of America located in the State of California or, where subject to its jurisdiction, before the Federal Energy Regulatory Commission.

11.5 **Consistency with Federal Laws and Regulations.**

(a) Nothing in this Operating Agreement shall compel any person or federal entity to: (1) violate federal statutes or regulations; or (2) in the case of a federal agency, to exceed its statutory authority, as defined by any applicable federal statutes, regulations, or orders lawfully promulgated thereunder. If any provision of this Operating Agreement is inconsistent with any obligation imposed on any person or federal entity by federal law or regulation to that extent, it shall be inapplicable to that person or federal entity. No person or federal entity shall incur any liability by failing to comply with this Operating Agreement that is inapplicable to it by reason of being inconsistent with any federal statutes, regulations, or orders lawfully promulgated thereunder; provided, however, that such person or federal entity shall use its best efforts to comply with the ISO CAISO Tariff to the extent that applicable federal laws, regulations, and orders lawfully promulgated thereunder permit it to do so.

(b) If any provision of this Operating Agreement requiring any person or federal entity to give an indemnity or impose a sanction on any person is unenforceable against a federal entity, the ISO CAISO shall submit to the Secretary of Energy or other appropriate Departmental Secretary a report of any circumstances that would, but for this provision, have rendered a federal entity liable to indemnify any person or incur a sanction and may request the Secretary of Energy or other appropriate Departmental Secretary to take such steps as are necessary to give effect to any provisions of this Operating Agreement that are not enforceable against the federal entity.

11.6 **Integration.** This Operating Agreement constitutes the full agreement of the Parties with respect to the subject matter hereto and supercedes all prior agreements, whether written or oral, with respect to such subject matter.

11.7 **Severability.** If any term, covenant, or condition of this Operating Agreement or the application or effect of any such term, covenant, or condition is held invalid as to any person, entity, or circumstance, or is determined to be unjust, unreasonable, unlawful, imprudent, or otherwise not in the public interest by any court or government agency of competent jurisdiction, then such term, covenant, or condition shall remain in force and effect to the maximum extent permitted by law, and all other terms, covenants, and conditions of this Operating Agreement and their application shall not be affected thereby, but shall remain in force and effect and the Parties shall be relieved of their obligations only to the extent necessary to eliminate such regulatory or other determination unless a court or governmental agency of competent jurisdiction holds that such provisions are not separable from all other provisions of this Operating Agreement.

11.8 **Penalties.** Any penalties to be levied under this Operating Agreement shall be established in accordance with the ISO CAISO Tariff after consultation between the UDC and the ISO CAISO, and approval by
the FERC, and shall be set out in Schedule 15. No penalties or sanctions may be imposed under this Operating Agreement unless a Schedule providing for such penalties or sanctions has first been filed with and made effective by FERC. Nothing in this Operating Agreement, with the exception of the provisions relating to ADR, shall be construed as waiving the rights of the UDC to oppose or protest any penalty proposed by the ISO-CAISO to the FERC or the specific imposition by the ISO-CAISO of any FERC-approved penalty on the UDC.

11.9 **Section Headings:** Section headings provided in this Operating Agreement are for ease of reading and are not meant to interpret the text in each Section.

11.10 **Amendments.** This Operating Agreement and the Schedules attached hereto may be amended from time to time by the mutual agreement of the Parties in writing. Amendments that require FERC approval shall not take effect until FERC has accepted such amendments for filing and made them effective. If the amendment does not require FERC approval, the amendment will be filed with FERC for information.

11.11 **Counterparts.** This Operating Agreement may be executed in one or more counterparts at different times, each of which shall be regarded as an original and all of which, taken together, shall constitute one and the same Operating Agreement.

IN WITNESS WHEREOF, the Parties hereto have caused this Operating Agreement to be duly executed on behalf of each by and through their authorized representatives as of the date hereinabove written.

Currently the ISO_CAI SO has not delegated any operational responsibilities to the UDC in accordance with Section 4.1.24.4.1 of the ISO_CAI SO Tariff. If such a delegation occurs, they will be identified in this Schedule 3.

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
SCHEDULE 4

MAINTENANCE COORDINATION

By October 1st of each year, the UDC will exchange with the ISO CAISO a provisional planned outage program for all lines and equipment in Schedule 1. That document will be updated quarterly or as changes occur to the proposed schedule.

The ISO CAISO will approve all outages on equipment and lines transferred to ISO CAISO operational control.

Applications for scheduled work will be submitted to the ISO CAISO by ______’s Grid Operations group via means to be agreed to by both Parties. The UDC documents will record the details for all work and become the data base for reporting and recording outage information.

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
The ISO - CAISO will notify the UDC's operational contact (Operations Shift Supervisor - Grid Control), as identified in Schedule 2, of the emergency, including information regarding the cause, nature, extent, and potential duration of the emergency. The Operations Shift Supervisor will add any relevant data and will notify Distribution Operations. Distribution Operations will make the appropriate notifications within the UDC organization. The Operations Shift Supervisor and Distribution Control Shift Supervisor will then take such actions as are appropriate for the emergency.

The UDC will make requests for information from the ISO - CAISO regarding emergencies through the Operations Shift Supervisor, or the UDC Communication Coordinator may coordinate public information with the ISO - CAISO Communication Coordinator.

The UDC is required to estimate service restoration by geographic areas, and will use its call center and the media to communicate with customers during service interruptions. The UDC is also required to communicate the same information to appropriate state and local governmental entities. For transmission system caused outages the Operations Shift Supervisor will notify Distribution Operations Control Center of any information related to the outage such as cause, nature, extent, potential duration and customers affected.

Distribution Control and Grid Control Center logs, Electric Switching Orders and Energy Management System temporal data base will be used in preparation of outage reviews. These documents are defined as the chronological record of the operation of the activities which occur with the portion of the electrical system assigned to that control center. The log shall contain all pertinent information, including orders received and transmitted, relay operations, messages, clearances, accidents, trouble reports, daily switching program, etc.

The UDC will retain records in accordance with its Corporate Standard Practice for six years.

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
The objective of the Underfrequency Load Shedding (UFLS) program is to provide security and protection to the interconnected bulk power network by arresting frequency decay during periods of insufficient resources.

This plan establishes Underfrequency Load Shedding objectives consistent with the load shedding policies of the Western Systems Coordinating Council, the North American Electric Reliability Council and the UDC. The UDC’s load shedding program will be in accordance with the WSCC Off-nominal Frequency Report requirements.

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
SCHEDULE 7

OTHER AUTOMATIC LOAD SHEDDING

In addition to underfrequency relay load reduction, any undervoltage relay protection that is utilized in the UDC will be identified in the Attachment to this Schedule 7.

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
SCHEDULE 8

MANUAL LOAD SHEDDING

[Note: Schedule 8 will detail the criteria governing the implementation of manual Load Shedding and/or interruptible Loads, and will describe the UDC’s means of effecting Load Shedding and the estimated associated MW values of various UDC Loads to be shed. For Load curtailment programs Schedule 8 will also contain the UDC’s capabilities until October 1 and thereafter annually.]

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
SCHEDULE 8A

ROTATING LOAD CURTAILMENT PROCEDURES

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
SCHEDULE 8B

INTERRUPTIBLE LOAD

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
SCHEDULE 9

ELECTRICAL EMERGENCY PLAN

The ISO-CAISO Specifications will outline the basic criteria for the development, coordination, and implementation of the UDC EEP and the requirements for coordination with the ISO-CAISO EEP. Schedule 9 will include the UDC EEP as coordinated with the ISO-CAISO EEP.

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
SCHEDULE 10

LOAD RESTORATION

The UDC will follow the procedures set forth below in this Schedule 10 in promoting orderly, coordinated restoration of electric systems after a major system disturbance has occurred which resulted in load shedding by frequency relays in California.

1. Immediately after load shedding by frequency relay has occurred in the UDC, the UDC will remain in contact with their respective Participating Transmission Owner (PTO) Area Control Center (ACC) until normal frequency has been restored throughout the ISO_CAI SO Control Area or the ISO_CAI SO Shift Supervisor has concluded that such full-time communications can be terminated. Emergency communications over the California ACC Hot-line will be under the direction of the ISO_CAI SO Shift Supervisor and the senior dispatcher present at the affected PTO ACC(s).

2. Manual load restoration will not normally be initiated until the California ACC Hot Line is attended. No load is to be manually restored unless directed by the ISO_CAI SO after the frequency has recovered and there is indication that the frequency can be maintained. The UDC will await direction from their respective PTO ACC who will be in contact with the ISO_CAI SO Shift Supervisor. The ISO_CAI SO Shift Supervisor will determine whether adequate generation resources are available on line to support the load to be restored.

3. Any UDC automatic load restoration will be consistent with the WSCC Coordinated Off-Nominal Frequency Load Shedding and Restoration Plan.

4. If the ISO_CAI SO cannot meet the WSCC and NERC Control Area Disturbance Control Standard or the Control Performance Standard post disturbance, no manual load restoration will be permitted. If the frequency is such that automatic load restoration occurs under these conditions, the UDC(s) which has restored load automatically will manually shed an equivalent amount of load to offset the load which was automatically restored.

5. Restoration of ties and off-site power supply to nuclear generating facilities should be given top priority. Manual load restoration will be deferred during periods of tie restoration. The UDC should be equipped and prepared to drop load manually when necessary to allow frequency recovery sufficient to re-establish ISO_CAI SO intra-area ties and ties between the ISO_CAI SO Control Area and outside systems. Where manual load shedding is required, the ISO_CAI SO shall make reasonable efforts to allocate the load shedding requirement equitably among the UDCs where load shedding will be beneficial.

6. The UDC will use its existing plans and priorities to restore load within the parameters given by the ISO_CAI SO, giving the appropriate priority to essential services such as military, public safety agencies, water treatment plants, sewage treatment plants, etc.

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
The ISO-CAISO and UDC will jointly develop any necessary forms and procedures for collection, study and transmittal of system data, information, reports, and forecasts.

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
SCHEDULE 12

2.3 Approve transmission owner maintenance requests in a timely manner, and shall not unreasonably withhold approval of TO requests for authorization to perform energized insulator washing work or to take planned Outages needed to replace or insul-grease insulators.

2.4 Support UDC investigation of power quality incidents, and provide related data to the UDC in a timely manner.
2.5 Support installation of apparatus on the ISO-CAISO Controlled Grid to improve power quality, and take all reasonable measures to investigate and mitigate power quality concerns caused by actions or events in neighboring systems or control areas.

2.6 Maintain load power factor at each UDC Interconnection as close as possible to unity power factor and pursuant to Section 8.2.3.48.2.3.3 of the ISO-CAISO Tariff.

The information to be contained in this Schedule may be subject to additional filing due to subsequent revisions as these may be required from time to time.
Distribution protective relay schemes affecting the ISO-CAISO Controlled Grid are those associated with transformers that would trip transmission breakers and/or busses at UDC Interconnection point when activated. These would include any of the following:

1. High Side Overcurrent Relays
2. Differential Overcurrent Relays
3. Sudden Pressure Relays
4. Low Oil Relays
5. Neutral Ground Overcurrent Relays

SCHEDULE 14

RIGHTS OF ACCESS TO FACILITIES

14.1 Equipment Installation. In order to give effect to this Operating Agreement, a Party that requires to use particular equipment (the equipment owner) may require installation of such equipment on property owned by the other Party (the property owner), provided that the equipment is necessary to meet the equipment owner’s service obligations and that the equipment shall not have a negative impact on the reliability of the service provided, nor prevent the property owner from performing its own obligations or exercising its rights under this Operating Agreement.

14.1.1 Free Access. The property owner shall grant to the equipment owner free of charge reasonable installation rights and rights of access to accommodate equipment inspection, maintenance, repair, upgrading, or removal for the purposes of this Operating Agreement, subject to the property owner’s reasonable safety, operational, and future expansion needs.

14.1.2 Notice. The equipment owner shall provide reasonable notice to the property owner when requesting access for site assessment, equipment installation, or other relevant purposes. Such access shall not be provided unless the parties mutually agree to the date, time, and purpose of each access. Agreement on the terms of the access shall not be unreasonably withheld or delayed.

14.1.3 Removal of Installed Equipment. Following reasonable notice, the equipment owner shall be required, at its own expense, to remove or relocate equipment, at the request of the property owner, provided that the equipment owner shall not be required to do so if it would have a negative impact on the reliability of the service provided, or be prevented from performing its own obligations or exercising its rights under this Operating Agreement.

14.1.4 Costs. The equipment owner shall repair at its own expense any property damage it causes in exercising its rights and shall reimburse the property owner for any other reasonable costs that it may be required to incur to accommodate the equipment owner’s exercise of its rights under this Section 14.1.

14.2 Rights to Assets. The Parties shall not interfere with each other’s assets, without prior written agreement.

14.3 Inspection of Facilities. In order to meet their respective obligations under this Operating Agreement, each Party may view or inspect facilities owned by the other Party. Provided that reasonable notice is given, a Party shall not unreasonably deny access to relevant facilities for viewing or inspection by the requesting Party.

14.4 Access During Emergencies. Either Party shall have rights of access, without prior notice, to the other Party’s equipment as necessary during times of a System Emergency.
SCHEDULE 15

PENALTIES AND SANCTIONS

[Full legal name] ("Host Control Area"), having its registered and principal executive office at [address], and

California Independent System Operator Corporation ("ISO-CAISO"), a California nonprofit public benefit corporation having a principal executive office located at such place in the State of California as the ISO-CAISO Governing Board may from time to time designate, initially 151 Blue Ravine Road, Folsom, California 95630.

The Host Control Area and the ISO-CAISO are hereinafter referred to as the “Parties”.

Whereas:

A. The Parties named above operate Control Areas.

B. The Parties wish to coordinate operation of dynamic scheduling functionality to satisfy North American Electric Reliability Council ("NERC") policies, Western Electricity Coordinating Council ("WECC") Minimum Operating Reliability Criteria ("MORC"), and Good Utility Practice.

C. The Host Control Area does not have an Interconnected Control Area Operating Agreement ("ICAOA") with the ISO-CAISO and desires to implement an agreement to facilitate dynamic scheduling from System Resources in its Control Area to the ISO-CAISO Control Area without an ICAOA.

D. The Parties wish to enter into this Agreement to establish the terms and conditions for the operation of the dynamic scheduling functionality from Host Control Area’s Control Area to the ISO-CAISO Control Area.

E. The ISO-CAISO has certain statutory obligations under California law to maintain power system reliability.

NOW THEREFORE, in consideration of the mutual covenants set forth herein, THE PARTIES AGREE as follows:

1. Term and Termination

1.1 Effective Date

This Agreement shall be effective as of the date set forth above, unless this Agreement is accepted for filing and made effective by the Federal Energy Regulatory Commission ("FERC") on some other date, if FERC filing is required, and shall continue in effect until terminated.
1.2 Termination

This Agreement may be terminated by either Party upon thirty (30) days written notice to the other Party or upon mutual consent of both Parties. For entities subject to FERC jurisdiction, termination will be effective upon acceptance by FERC of notice of termination, if this Agreement has been filed with FERC, or thirty (30) days after the date of the notice of default, if terminated in accordance with the requirements of FERC Order No. 2001 and related FERC orders. The ISO-CAISO shall timely file any required notice of termination with FERC. The filing of the notice of termination by the ISO-CAISO will be considered timely if: (1) the request to file a notice of termination is made after the preconditions for termination have been met, and (2) the ISO-CAISO files the notice of termination within sixty (60) days after issuance of the notice of default.

2. Definitions

2.1 WECC Definitions

Except as defined below, terms and expressions used in this Agreement shall have the same meanings as those contained in the WECC MORC Definitions.

2.2 Specific Definitions

2.2.1 Good Utility Practice: Any of the practices, methods, and acts engaged in or approved by a significant portion of the electric utility industry in the WECC region during the relevant time period, or any of the practices, methods, and acts which, in the exercise of reasonable judgment in light of the facts known at the time the decision was made, could have been expected to accomplish the desired result at a reasonable cost consistent with good business practices, reliability, safety, and expedition. Good Utility Practice is not intended to be any one of a number of the optimum practices, methods, or acts to the exclusion of all others, but rather to be acceptable practices, methods, or acts generally accepted in the region.

2.2.2 ISO-CAISO Tariff: ISO-CAISO Operating Agreement, Protocols, and Tariff as amended from time to time, together with any appendices or attachments thereto.

2.2.3 Point of Contact: A person or entity having the authority to receive and act upon scheduling or dispatch communications from the other Control Area operator and available through a communications device mutually agreed upon on a 24-hour, 7-day basis.

2.2.4 Scheduling Coordinator: An entity certified by the ISO-CAISO for the purposes of undertaking the functions of: submitting schedules, Bids or schedules for energy, generation, transmission losses, and ancillary services; coordinating generation; tracking, billing, and settling trades with other Scheduling Coordinators; submitting forecast information; paying the ISO-CAISO’s charges; and ensuring compliance with ISO-CAISO protocols.

2.2.6 System Resource: "System Resource" is defined in the ISO-CAISO Tariff and, in the context of this Agreement, may include combinations of resources as described in the Standards.
3. General

3.1 Purpose

This Agreement sets forth the requirements that must be satisfied by the Host Control Area should it elect to support Scheduling Coordinators’ requests for implementation of a Dynamic Scheduling functionality and delivery of energy, supplemental Energy, and Energy associated with Ancillary Services (except regulation service) into the ISO-CAISO Control Area. The requirements encompass technical (energy management system (“EMS”) / automatic generation control (“AGC”) and communications), interchange scheduling, telemetry, and aspects of Control Area operations.

3.2 NERC/WECC Operating Standards Observed

Nothing in this Agreement is intended to change, supersede, or alter either Party's obligations to abide by NERC standards and policies and WECC criteria.

3.3 Applicable Standards

This Agreement incorporates, by reference, the ISO-CAISO’s Standards.

3.4 Communication

The ISO-CAISO and the Host Control Area shall each operate and maintain a 24-hour, 7-day control center with real-time scheduling and control functions. Appropriate control center staff will be provided by each Party who shall be responsible for operational communications and who shall have sufficient authority to commit and bind that Party. The ISO-CAISO and the Host Control Area shall jointly develop communication procedures necessary to support scheduling and dispatch functions. The Points of Contact and the procedures for insuring reliable communication are identified in Schedule 1.

4. Telecommunications Requirements

The ISO-CAISO and Host Control Area shall establish and maintain real-time, redundant, diversely routed, communications links between the ISO-CAISO EMS and the Host Control Area EMS, with the primary link utilizing the standard inter-control center communications protocol (“ICCP”) in accordance with the Standards for the dynamically scheduled System Resources listed in Schedule 2.

5. Telemetry

For each operating hour for which a System Resource is scheduled to deliver energy, supplemental energy, and/or energy associated with any of the non-regulating ancillary services to the ISO CAISO Control Area, the Host Control Area shall provide, via the ICCP communication links to the ISO-CAISO EMS, the data for each System Resource, as set forth in the Standards.

6. Interchange Scheduling Requirements

6.1 Dynamic Scheduling

The Host Control Area shall support Scheduling Coordinators’ requests to arrange dynamic interchange schedules for the delivery of energy to the ISO-CAISO Control Area, reflecting the System
Resource’s instantaneous energy production or allocation level and taking into account available transmission capacity.

6.2 Treatment of Area Control Error (“ACE”)

The Host Control Area shall instantaneously compensate its AGC for the System Resource’s energy output that is generated or allocated for establishing the Dynamic Schedule to the ISO such that the System Resource energy production or allocation changes have an equal in magnitude and opposite in sign effect on the Host Control Area’s ACE.

6.2 Integration of Dynamic Scheduling

For each operating hour during which energy was dynamically scheduled for delivery to the ISO Control Area, the Host Control Area shall compute an integrated amount of interchange based on the System Resource’s integrated energy production, by integrating the instantaneous System Resource production levels. Such integrated MWH value shall be agreed to hourly by the Real-Time schedulers.

6.3 Delivery of Megawatts (“MW”)

The Host Control Area shall not be obligated to make up any difference between the dynamic energy schedule and the MW being generated or allocated by the System Resource.

6.4 Access to Information

The Parties agree to exchange information related to telemetry sent and received with respect to the delivery of energy (i) at the request of the other Party for purposes of after-the-fact interchange accounting or (ii) on demand for any other purpose.

7. Other Host Control Area Responsibilities

7.1 Operational Jurisdiction

The Host Control Area will have, at a minimum, the level of operational jurisdiction over the System Resource and the associated Dynamic Schedule that NERC and WECC vest in Host Control Areas.

7.2 E-Tagging

The Host Control Area must support associated e-tagging as described in the Standards and deemed to be consistent with NERC and/or WECC requirements.

7.3 Real-Time Adjustments

The Host Control Area must have a means to manually override and/or otherwise adjust the dynamic signal in Real-Time, if needed.
7.4 Coordination with Other Control Areas

The Host Control Area must provide in real-time the instantaneous value of each Dynamic Schedule to every intermediary Control Area through whose systems such Dynamic Schedule may be implemented to the ISOCAISO.

8. Other

8.1 Losses

The ISOCAISO shall not be responsible for transmission losses caused by transmitting energy dynamically within or across the Host Control Area for delivery to the ISOCAISO.

8.2 Certification

Only ISOCAISO-certified System Resource/Host Control Area arrangements will be allowed to bid or self-provide ancillary services in the ISOCAISO’s Ancillary Services market through an ISOCAISO-certified Scheduling Coordinator.

8.3 No Guarantee of Award

Certification of a System Resource/Host Control Area arrangement allows for bidding of supplemental energy and/or certain Ancillary Services into the ISOCAISO market; it does not, however, guarantee selection of such bid.

8.4 Performance Assessment

The ISOCAISO will monitor and measure dynamically imported ancillary services, whether bid or self-provided, against the performance benchmarks described in the Standards.

8.5 Description of System Resources

Each dynamically scheduled System Resource permitted pursuant to this Agreement is described in Schedule 2.

9. Notifications

The ISOCAISO and the Host Control Area shall jointly develop methods for coordinating the notification of all affected scheduling entities within their respective Control Areas regarding schedule changes in emergency or curtailment conditions.

10 Liability

10.1 Uncontrollable Forces

An Uncontrollable Force means any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, fire, storm, flood, earthquake, explosion, any curtailment, order, regulation or restriction imposed by governmental, military or lawfully established civilian authorities, or any other
cause beyond the reasonable control of a control area operator which could not be avoided through the exercise of Good Utility Practice.

Neither the ISO-CAISO nor the Host Control Area will be considered in default of any obligation under this Agreement or liable to the other for direct, indirect, and consequential damages if prevented from fulfilling that obligation due to the occurrence of an Uncontrollable Force.

In the event of the occurrence of an Uncontrollable Force, which prevents either the ISO-CAISO or the Host Control Area from performing any obligations under this Agreement, the affected entity shall not be entitled to suspend performance of its obligations in any greater scope or for any longer duration than is required by the Uncontrollable Force. The ISO-CAISO and the Host Control Area shall each use its best efforts to mitigate the effects of such Uncontrollable Force, remedy its inability to perform, and resume full performance of its obligations hereunder.

10.2 Liability To Third Parties

Except as otherwise expressly provided herein, nothing in this Agreement shall be construed or deemed to confer any right or benefit on, or to create any duty to, or standard of care with reference to any third party, or any liability or obligation, contractual or otherwise, on the part of ISO-CAISO or the Host Control Area.

10.3 Liability Between the Parties

The Parties’ duties and standard of care with respect to each other, and the benefits and rights conferred on each other, shall be no greater than as explicitly stated herein. Neither Party, its directors, officers, employees, or agents, shall be liable to the other Party for any loss, damage, claim, cost, charge, or expense, whether direct, indirect, or consequential, arising from the Party’s performance or nonperformance under this Agreement, except for a Party’s gross negligence, or willful misconduct.

11 Miscellaneous

11.1 Assignments

Either Party to this Agreement may assign its obligations under this Agreement, with the other Party’s prior written consent. Such consent shall not be unreasonably withheld.

Obligations and liabilities under this Agreement shall be binding on the successors and assigns of the Parties. No assignment of this Agreement shall relieve the assigning Party from any obligation or liability under this Agreement arising or accruing prior to the date of assignment.

11.2 Notices

Any notice, demand, or request which may be given to or made upon either Party regarding this Agreement shall be made in writing and shall be deemed properly served, given, or made: (a) upon delivery if delivered in person, (b) five (5) days after deposit in the mail if sent by first class United States mail, postage prepaid, (c) upon receipt of confirmation by return facsimile if sent by facsimile, or (d) upon delivery if delivered by prepaid commercial courier service. A Party must update the information in Schedule 3 relating to its address as that information changes. Such changes shall not constitute an amendment to this Agreement.
11.3 Waivers

Any waiver at any time by either Party of its rights with respect to any default under this Agreement, or with respect to any other matter arising in connection with this Agreement, shall not constitute or be deemed a waiver with respect to any subsequent default or matter arising in connection with this Agreement. Any delay short of the statutory period of limitations, in asserting or enforcing any right under this Agreement, shall not constitute or be deemed a waiver of such right.

11.4 Governing Law and Forum

Subject to ICAA 11.5, this Agreement shall be deemed to be a contract made under and for all purposes shall be governed by and construed in accordance with the laws of the State of California. The Parties irrevocably consent that any legal action or proceeding arising under or relating to this Agreement shall be brought in any of the following forums, as appropriate: a court of the State of California or any federal court of the United States of America located in the State of California or, where subject to its jurisdiction, before the Federal Energy Regulatory Commission. No provision of this Agreement shall be deemed to waive the right of any Party to protest, or challenge in any manner, whether this Agreement, or any action or proceeding arising under or relating to this Agreement, is subject to the jurisdiction of the Federal Energy Regulatory Commission.

11.5 Consistency with Federal Laws and Regulations

(a) Nothing in this Agreement shall compel any person or federal entity to: (1) violate federal statutes or regulations; or (2) in the case of a federal agency, to exceed its statutory authority, as defined by any applicable federal statutes, regulations, or orders lawfully promulgated thereunder. If any provision of this Agreement is inconsistent with any obligation imposed on any person or federal entity by federal law or regulation to that extent, it shall be inapplicable to that person or federal entity. No person or federal entity shall incur any liability by failing to comply with any provision of this Agreement that is inapplicable to it by reason of being inconsistent with any federal statutes, regulations, or orders lawfully promulgated thereunder; provided, however, that such person or federal entity shall use its best efforts to comply with the ISO CAISO Tariff to the extent that applicable federal laws, regulations, and orders lawfully promulgated thereunder permit it to do so.

(b) If any provision of this Agreement requiring any person or federal entity to give an indemnity or impose a sanction on any person is unenforceable against a federal entity, the ISO CAISO shall submit to the Secretary of Energy or other appropriate Departmental Secretary a report of any circumstances that would, but for this provision, have rendered a federal entity liable to indemnify any person or incur a sanction and may request the Secretary of Energy or other appropriate Departmental Secretary to take such steps as are necessary to give effect to any provisions of this Agreement that are not enforceable against the federal entity.

11.6 Severability

If any term, covenant, or condition of this Agreement or the application or effect of any such term, covenant, or condition is held invalid as to any person, entity, or circumstance, or is determined to be unjust, unreasonable, unlawful, imprudent, or otherwise not in the public interest by any court or government agency of competent jurisdiction, then such term, covenant, or condition shall remain in force and effect to the maximum extent permitted by law, and all other terms, covenants, and
conditions of this Agreement and their application shall not be affected thereby, but shall remain in force and effect and the parties shall be relieved of their obligations only to the extent necessary to eliminate such regulatory or other determination unless a court or governmental agency of competent jurisdiction holds that such provisions are not separable from all other provisions of this Agreement.

11.7 Section Headings

Section headings provided in this Agreement are for ease of reading and are not meant to interpret the text in each Section.

11.8 Amendments

This Agreement and the Schedules attached hereto may be amended from time to time by the mutual agreement of the Parties in writing. Amendments that are subject to FERC approval shall not take effect until FERC has accepted such amendments for filing and has made them effective. If the amendment does not require FERC approval, the amendment will be filed with FERC for information. Nothing contained herein shall be construed as affecting in any way the right of the ISO, CAISO or the Host Control Area to unilaterally make application to FERC for a change in the rates, terms and conditions of this Agreement under Section 205 of the FPA and pursuant to FERC's rules and regulations promulgated thereunder.

11.9 Counterparts

This Agreement may be executed in one or more counterparts at different times, each of which shall be regarded as an original and all of which, taken together, shall constitute one and the same Agreement.

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be duly executed on behalf of each by and through their authorized representatives as of the date first written above.

ISOCAISO TARIFF APPENDIX D
Black Start Units
Appendix D - Black Start Units

The following requirements must be met by Generating Units providing Black Start ("Black Start Units"):

(a) Black Start Units must be capable of starting and paralleling with the ISO-CAISO Controlled Grid without aid from the ISO-CAISO Controlled Grid;

(b) Black Start Units must be capable of making a minimum number of starts per event (to be without aid from the ISO-CAISO Controlled Grid as determined by the ISO-CAISO);

(c) Black Start Units must be equipped with governors capable of operating in the stand alone (asynchronous) and parallel (synchronous) modes.

(d) Black Start Units must have startup load pickup capabilities at a level to be determined by the ISO-CAISO, including total startup load (MW) and largest startup load (MW) for such power output levels as the ISO-CAISO may specify.

(e) All Black Start Units must be capable of producing Reactive Power (boost) and absorbing Reactive Power (buck) as required by the ISO-CAISO to control system voltages. This requirement may be met by the operation of more than one Black Start Unit in parallel providing that:

(i) the Black Start generation supplier demonstrates that the proposed Generation resource shares reactive burden equitably;

(ii) all Participating Generators associated with the proposed Black Start source are located in the same general area.

Buck/boost capability requirement shall be dependent on the location of the proposed resource in relation to Black Start load.

(f) All Black Start Units must have the following communication/control requirements:

(i) dial-up telephone;

(ii) backup radio;

(iii) manning levels which accord with Good Utility Practice.
Appendix E

Verification of Submitted Data for Ancillary Services

The ISO-CAISO shall use the following procedures for verifying the scheduling and bid information submitted by Scheduling Coordinators for Ancillary Services. In this Appendix, a “bid” is a bid submitted by a Scheduling Coordinator in the ISO-competitive Ancillary Services market. A “schedule” is a Schedule including Ancillary Services which the Scheduling Coordinator wishes to self-provide.

1. Bid File and Schedule Format. The ISO-CAISO shall verify that the bid files and schedules submitted by Scheduling Coordinators conform to the format specified for the type of Ancillary Service bid or schedule submitted. If the bid file or schedule does not conform to specifications, it shall be annotated by the ISO-CAISO to indicate the location of the errors, and returned to the Scheduling Coordinator for corrections. Any changes made by a Scheduling Coordinator shall require a new submittal of bid or schedule information, and all validity checks shall be performed on the re-submitted bid or schedule.

2. Generation Schedules and Bids.

2.1. Quantity Data. The ISO-CAISO shall verify that no Scheduling Coordinator is submitting a scheduled or bid quantity for Regulation, Spinning Reserve, or Non-Spinning or Replacement Reserve which exceeds available capacity for Regulation and Reserves on the Generating Units, Loads and resources scheduled for that Settlement Period.

2.2 Location Data. The ISO-CAISO shall verify that the location data corresponds to the ISO-CAISO Controlled Grid interconnection data.

2.3. Operating Capability. The ISO-CAISO shall verify that the operating capability data corresponds to the ISO-CAISO Controlled Grid interconnection data for each Generating Unit, Load or other resource for which a Scheduling Coordinator is submitting an Ancillary Service bid.

3. Load Schedules and Bids. [Not Used]

3.1 Quantity Data. The ISO-CAISO shall verify that the quantity of Non-Spinning and Replacement Reserve scheduled or bid from Dispatchable Load does not exceed scheduled consumption quantities for that Settlement Period.

3.2 Location Data. The ISO-CAISO shall verify that the location of the Dispatchable Load corresponds to the ISO-CAISO Controlled Grid interconnection data for each supplier of Dispatchable Load.

4. Notification of Validity or Invalidity of Ancillary Services Schedules and Competitive Bids. The ISO-CAISO shall, as soon as reasonably practical following the receipt of competitive bids or self-provided Ancillary Service schedules, send to the Scheduling Coordinator who submitted the schedule or bid the following information:

(a) acknowledgment of receipt of the competitive bid or self-provided Ancillary Service schedule;

(b) notification that the bid or schedule has been accepted or reject for non-compliance with the rules specified in this Appendix. If a bid or schedule is rejected, such notification shall contain an explanation of why the bid or schedule was not accepted;
(c) a copy of the bid or schedule as processed by the ISO-CAISO.

In response to an invalid schedule or bid, the Scheduling Coordinator shall be given a period of time to respond to the notification. The Scheduling Coordinator shall respond by resubmitting a corrected bid or schedule. If the Scheduling Coordinator does not respond to the notification within the required time frame, the ISO-CAISO shall proceed without that Scheduling Coordinator’s bid or schedule.

5. Treatment of Missing Values.

5.1 Missing Location Values. Any bid submitted without a Location Code shall be deemed to have a zero bid quantity for that Settlement Period.

5.2 Missing Quantity Values. Any bid submitted without a quantity value shall be deemed to have a zero bid quantity for Ancillary Service capacity for that Settlement Period.

5.3 Missing Price Values. Any bid submitted with non-zero quantity value, but with a missing price value, shall be rejected.

6. Treatment of Equal Price Bids. The ISO-CAISO shall allow these Scheduling Coordinators to resubmit, at their own discretion, their bid no later than 2 hours the same day the original bid was submitted. In the event identical prices still exist following resubmission of bids, the ISO-CAISO shall determine the merit order for each Ancillary Service by considering applicable constraint information for each Generating Unit, Load or other resource, and optimize overall costs for the Trading Day. If equal bids still remain, the ISO-CAISO shall proportion participation in the Final Day-Ahead Schedule or HASP Hour-Ahead Schedule (as the case may be) amongst the bidding Generating Units, Loads and resources with identical bids to the extent permitted by operating constraints and in a manner deemed appropriate by the CAISO.

7. Receipt of Bids and Schedules. The ISO-CAISO shall maintain an audit trail relating to the receipt of bids and schedules and the processing of those bids and schedules.
