**Re: AES Huntington Beach, L.L.C., Docket No. ER13-351-000  
Informational Filing and Request for Privileged Treatment and  
Request to file One-Day Out-of Time**

Dear Ms. Bose:

The California Independent System Operator Corporation (“ISO”) submits this informational filing, pursuant to the Federal Energy Regulatory Commission’s January 4, 2013 order approving the Reliability Must-Run Agreement for synchronous condensers at AES Huntington Beach Generating Station Units 3 and 4 (“RMR Agreement”).<sup>1</sup> This order directed the ISO to file a report every 90 days “on the hours of operation of the synchronous condensers until [the synchronous condensers are] no longer deemed necessary due to changed circumstances, such as the return of [the San Onofre Nuclear Generating Station Units 2 and 3] or other generation changes.”<sup>2</sup> In accordance with the January 4 order, the ISO submits its second report, attached as Appendix A.

The ISO is seeking privileged treatment of Appendix A pursuant to 18 C.F.R. Section 388.112 and Article 5.5 of the RMR Agreement. Article 5.5 of the RMR Agreement requires the RMR owner, on a monthly basis, to provide the ISO and the Responsible Utilities certain information, including the “Counted Service Hours,” and requires the ISO to treat this information as confidential. Counted Service Hours is equivalent to “hours of operation” and, therefore, the ISO is required to treat this information as confidential.

As discussed in its first report, filed on September 23, 2013, the ISO proposes to submit reports by the tenth day following the end of each subsequent three-month period of operations using the information provided to the ISO by the RMR owner in accordance with Article 5.5 of the RMR Agreement. Accordingly, the ISO is submitting its third report on March 10, 2014.

<sup>2</sup> *Id.* at P 24.

Due to an administrative error, the ISO is filing this report after 5:00 PM on March 10, 2014. The ISO requests leave to file this report one-day-out-of time and apologizes for any inconvenience this may cause. The ISO will file its fourth report on June 10, 2014.

Please contact the undersigned if you have any questions about this submittal.

Respectfully submitted,

**By: /s/ Sidney M. Davies**
