California Independent System Operator
Corporation
Docket No. ER17-847-000

March 24, 2017

California Independent System Operator
Corporation
250 Outcropping Way
Folsom, CA 95630

Attention: Daniel Shonkwiler
Lead Counsel

Reference: Tariff Revisions

Dear Mr. Shonkwiler:

On January 24, 2017, the California Independent System Operator Corporation (CAISO) submitted tariff revisions to adjust the timing of one of the phases in its settlement and billing process. Under the tariff revisions, CAISO will issue its second-to-last recalculation settlement statement 33 months (T+33M) after the applicable trading day, rather than 35 months (T+35M).¹ The tariff revisions will allow CAISO to provide market participants additional time to review and dispute the second-to-last settlement statements before the final settlement statement is issued 36 months after the applicable trading day. The tariff revisions are accepted for filing, effective May 3, 2017, as requested.²

¹ The tariff revisions provide for a two month period during which CAISO will issue both T+33M and T+35M recalculation settlement statements. During the two month overlap period of May 3, 2017-July 3, 2017, it will be necessary for CAISO to issue a T+35 statement to cover the remainder of the trading days that will not be captured by a T+33 recalculation statement because they precede August 1, 2014, which is the first trading day that will be covered by the new T+33M statements.
