**Re: California Independent System Operator Corporation,  
Docket No. ER06-615-\_\_\_\_  
Informational Filing per ISO Tariff Section 39.7.1.3.2  
Request for Privileged Treatment Under 18 C.F.R Section 388.112**

Dear Secretary Bose:

Pursuant to Section 39.7.1.3.2 of its tariff, the California Independent System Operator Corporation submits this informational filing containing the rates or formulas used to calculate negotiated default energy bids and major maintenance adders that were implemented or modified in the month of February 2014. On October 29, 2013, the Commission accepted the ISO's tariff amendment allowing major maintenance adders to be included as components of start-up or minimum load costs.<sup>1</sup> This filing includes descriptions of three new major maintenance adders. No information is being submitted relating to negotiated default energy bids or custom operations and maintenance adders.

**I. REQUEST FOR CONFIDENTIAL TREATMENT**

Section 20.2 of the ISO tariff requires that the ISO treat individual bids from scheduling coordinators as confidential. Negotiated default energy bids and start-up and minimum load costs are components of bids. Accordingly, pursuant to section 20.2 of the ISO tariff, the ISO has labeled the documents included with this filing as confidential. In addition, the documents contain proprietary information regarding specific generating units, such as unit efficiency factors, scaling factors, and operation and maintenance costs. For these reasons, the Commission should accord these attachments privileged treatment pursuant to 18 C.F.R. Section 388.112.
