Attention: Andrew Ulmer
Director, Federal Regulatory Affairs

Reference: Compliance filings

Dear Mr. Ulmer:

On December 17, 2012, in Docket Nos. ER12-2207-001 and ER12-2209-001, the California Independent System Operator Corporation (CAISO) filed to comply with Commission directives in an order issued on November 5, 2012, regarding two unexecuted small generator interconnection agreements.¹ Specifically, CAISO removed the reclassification provision in accordance with the November 5 Order's directives, but failed to comply with the directive to revise a financial security posting deadline.

Subsequently, on March 5, 2013, in Docket Nos. ER13-1034-000 and ER13-1036-000, CAISO submitted, pursuant to Order No. 714,² a concurrence tariff record for each

¹ See *Southern California Edison Company*, 141 FERC ¶61,100 (2012) (November 5 Order). In this order the Commission directed that a provision outlining contingencies associated with the possibility of a reclassification of facilities (reclassification provision) be removed from the SGAs (*See* P 29). The Commission also accepted Southern California Edison's offer to change a financial security posting deadline to be concurrent with the start of construction activities instead of thirty days after the effective date.

² See Order No. 714, 124 FERC ¶ 61,270 at P 63 (2008), wherein the Commission

of the two interconnection agreements filed by Southern California Edison (SoCal Edison) in Docket Nos. ER12-2206-002 and ER12-2208-002,³ that supersede the interconnection agreements filed in Docket Nos. ER12-2207-001 and ER12-2209-001. The concurrence tariff records filed in Docket Nos. ER13-1034-000 and ER13-1036-000 satisfy the directives of the November 5 Order and are hereby accepted by the Commission, effective as of July 6, 2012.⁴

The filings in Docket Nos. ER12-2207-001 and ER12-2209-001 were noticed on December 18, 2012, with comments, protests, or interventions due on or before January 7, 2013. The filings in Docket Nos. ER13-1034-000 and ER13-1036-000 were noticed on March 5, 2013, with comments, protests, or interventions due on or before March 26, 2013. No protests or adverse comments were filed. Notices of intervention and unopposed timely filed motions to intervene are granted pursuant to the operation of Rule 214 of the Commission's Rules of Practice and Procedure (18 C.F.R. § 385.214). Any opposed or untimely filed motion to intervene is governed by the provisions of Rule 214.

This acceptance for filing shall not be construed as constituting approval of the referenced filing or of any rate, charge, classification or any rule, regulation or practice affecting such rate or service contained in your tariff; nor shall such acceptance be deemed as recognition of any claimed contractual right or obligation associated therewith; and such acceptance is without prejudice to any findings or orders which have been or any which may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against CAISO.

This action is taken pursuant to the authority delegated to the Director, Division of Electric Power Regulation - West under 18 C.F.R. § 375.307. This order constitutes final agency action. Requests for rehearing by the Commission may be filed within 30 days of

is permitting joint filers to designate one entity to file a tariff and a non-designated entity to submit a certificate of concurrence.

³ The CAISO concurrence tariff records correspond to the interconnection agreements filed under SoCal Edison's Transmission Owner tariff and designated as Service Agreement Nos. 124 and 125 in Docket Nos. ER12-2206-002 and ER12-2208-002.

⁴ Because the filings in Docket Nos. ER13-1034-000 and ER13-1036-000 supersede the formerly filed interconnection agreements, the tariff records in Docket Nos. ER12-2207-001 and ER12-2209-001 are terminated as moot.
