### Media Statement from California ISO Chair Michael Kahn Following new appointment to the ISO Board of Governors

"Speaking on behalf of the entire California ISO Board of Governors, I appreciate the attention Governor Schwarzenegger is paying to energy issues—especially with the thoughtful selection of these two appointees to the open ISO Board seats. I look forward to welcoming Edward Cazalet and Ken Wiseman to this important Board and helping them get off to a strong start to enhance their effectiveness with the ISO for the consumers of California."

~ Michael Kahn

*The California ISO is a not-for-profit public benefit corporation charged with managing the flow of electricity along California's open-market wholesale power grid. The mission of the California ISO is to safeguard the reliable delivery of electricity, and ensure equal access to more than 25,000 circuit miles of "electron highway". As the impartial operator of the wholesale power grid in the state, the California ISO conducts a small portion of the bulk power markets. These markets are used to allocate space on the transmission lines, maintain operating reserves and match supply with demand in real time.*

*For more information on the California ISO Board of Governors go to ([www.caiso.com](http://www.caiso.com)).*
