

Market Update Call Meeting Minutes

July 02, 2020¹

Agenda

- 1) Updates and Meeting Minutes Review Rahul Kalaskar
- 2) Weekly Performance Report Rahul Kalaskar
- 3) Price Correction Reports Rahul Kalaskar
- 4) General Questions/ Comments- Rahul Kalaskar

Update:

Weekly Market Performance Report

The ISO has published the bi-weekly market performance report for June 24, 2020 – July 07, 2020. The maximum hourly IFM DLAP price for this period was \$64.54/MWh. For July 6, 2020, the day-ahead total cleared demand was above 40,000 MW. The Real-Time market is generally quiet with few price excursions for this period. The root cause of price excursions is shown in the first tab of the bi-weekly market performance report.

Review of the Price Correction Report

During the week of June 29– July 03, the ISO processed 1321 intervals for price correction due to data input errors and software defect. During the week of July 6- July 10, the ISO processed 1169 intervals for price correction due to data input errors and software defect. During the week of July 13- July 17, the ISO processed 20 intervals for price correction due to data input errors.

General Reminders

- NOTE: The current best practice, and preferred method, of asking questions is to route through the Customer Inquiry, Dispute and Information system, "CIDI".
- Please submit your questions ahead of the call; there are occasions when we have to gather information: submission ahead of time allows us more preparation time to reply.
- To add general comments/questions/requests to the action item list or meeting agenda, market participants should also open corresponding CIDI tickets with both the Functional Environment as "Market Performance" and SCID as "XPUB" by close of business (COB) on Mondays.

¹ The California ISO (CAISO) hosts this bi-weekly market update conference call, generally at 10:15AM PST bi-monthly on Thursdays. This call is an opportunity for market participants to ask general questions regarding the market. Please send any questions to CIDI system, which includes questions that have proprietary information and that might be commercially sensitive.
