### Bi-Weekly Market Performance Report

The ISO posted the bi-weekly market performance report for August 04 through August 17. The maximum day-ahead cleared demand was less than 47,280 MW for the two-week period. The Maximum day-ahead DLAP price was \$226.32, which occurred during the evening peak. There were some price excursions in the fifteen-minute market and the root cause of those excursions are available on the first tab of the report.

### Review of the Price Correction Report

During the week of July 19– July 23, the ISO processed 67 intervals for price correction due to a software defect and data input errors. During the week of July 26– July 30, the ISO processed 25 intervals for price corrections due to data input errors and software defect.
