Bi-Weekly Market Performance Report

The ISO posted the bi-weekly market performance report for November 9-22, 2022. During this period, markets were generally quiet. The maximum day-ahead cleared demand was 28,120 MW for the two weeks. The Maximum day-ahead DLAP price was \$149/MWh. The reasons for the price excursions in the fifteen-minute and five-minute markets are documented.

Review of the Price Correction Report

During the week of Nov 14-18, 2022, the ISO processed 35 intervals for price correction due to software defects. During the week of Nov 21-25, 2022, there were no price corrections.

General Questions

None

¹ The California ISO (CAISO) hosts this bi-weekly market update conference call, generally at 10:15AM PST bi-monthly on Thursdays. This call is an opportunity for market participants to ask general questions regarding the market. Please send any questions to [CIDI system](#), which includes questions that have proprietary information and that might be commercially sensitive.
