Updates

None.

Bi-Weekly Market Performance Report

The ISO posted the bi-weekly market performance report for December 21, 2022 – January 3, 2023. During this period, market prices are very high driven by high natural gas prices for all gas price hubs in California. The ISO posted the bi-weekly market performance report for January 3-17, 2023. During this period, market prices are lower than December prices and the maximum DLAP price was \$275.

Review of the Price Correction Report

During the week of Jan 2-6, 2023, the ISO processed 30 intervals for price correction due to software defects and data input errors. During the week of Jan 9-13, 2023, the ISO processed 28 intervals for price correction due to software defects and data input errors. During the week of Jan 16-20, 2023, the ISO processed 13 intervals for price correction due to software defects.

General Questions

None

¹ The California ISO (CAISO) hosts this bi-weekly market update conference call, generally at 10:15AM PST bi-monthly on Thursdays. This call is an opportunity for market participants to ask general questions regarding the market. Please send any questions to [CIDI system](#), which includes questions that have proprietary information and that might be commercially sensitive.
