II. BACKGROUND

On May 28, 2004, Southern California Edison Company (SCE) tendered for filing a revision to its Transmission Owner Tariff (TO Tariff), FERC Electric Tariff, Second Revised Volume No. 6. SCE states that the revisions modify the TO Tariff by revising the definition of Reliability Services to reflect a new category of Reliability Services costs to be imposed by the ISO on Participating Transmission Owners (PTOs) in the ISO.

By its Notice issued June 4, 2004, the Commission established June 18, 2004, as the date motions to intervene are to be filed in the above-captioned proceeding.

III. BASIS FOR MOTION TO INTERVENE

The ISO is a non-profit public benefit corporation organized under the laws of the State of California and responsible for the reliable operation of a grid comprising the transmission systems of Pacific Gas & Electric Company, Southern California Edison Company, San Diego Gas & Electric Company and the Cities of Vernon, Anaheim, Azusa, Banning and Riverside, California. As the

operator of this grid, the ISO believes that it has a unique interest in any Commission proceeding concerning the issues raised in the captioned proceeding.

IV. CONCLUSION

For the foregoing reasons, the ISO respectfully requests that the Commission permit it to intervene, and that the ISO be accorded full party status in this proceeding.

Respectfully submitted,
