

NRG Energy, Inc. Comments on Local Market Power Mitigation Draft Final Proposal

<b>Submitted by</b>	<b>Company</b>	<b>Date Submitted</b>
Brian Theaker	NRG Energy, Inc. ("NRG")	January 29, 2016

NRG is as concerned about the over-application of local market power mitigation as the CAISO is concerned about the under-application of local market power mitigation. NRG therefore supports the CAISO's efforts to improve the accuracy of the application of local market power mitigation as set forth in the Draft Final Proposal.

As noted in prior comments, while NRG is concerned about any carry-over of unnecessary mitigation, NRG appreciates that the CAISO proposes to carry over mitigated bids only through a 15-minute RTPD run instead of through the entire hour.
