Re: California Independent System Operator Corporation  
Amended Filing to Comply with Order No. 676-J  
Docket Nos. ER23-___-000; RM05-5-029; RM05-5-030

Dear Secretary Bose:

The California Independent System Operator Corporation (CAISO)\(^1\) submits this amended filing in compliance with the Commission’s Order No. 676-J.\(^2\) In Order No. 676-J, the Commission directed public utilities, including the CAISO, to incorporate in their jurisdictional tariffs the latest versions of the business practice standards promulgated by the Wholesale Electric Quadrant (WEQ) of the North American Energy Standards Board (NAESB) and included by reference in the Commission’s regulations. None of the NAESB standards adopted by Order No. 676-J requires substantive CAISO tariff revisions for implementation. The CAISO accordingly requests that the Commission accept the enclosed revisions to incorporate the NAESB standards into the tariff by reference, with an open-ended effective date.\(^3\)

---

\(^1\) Capitalized terms not otherwise defined herein have the meanings set forth in appendix A to the CAISO tariff.

\(^2\) *Standards for Bus. Practices & Commc’n Protocols for Pub. Util.,* Order No. 676-J, 175 FERC ¶ 61,139 (2021) (Order No. 676-J). The CAISO submits this filing so that its proposed tariff changes in Attachments A and B are consistent with the description of the NAESB standards set forth in Order No. 676-J.

\(^3\) As discussed below, the CAISO is also filing a request for waiver of some of the NAESB standards. The CAISO is also submitting this filing with an open-ended effective date of 12/31/9998 and will file an informational filing with filing code type 150 within five business days of the actual effective date.
I. **Background**

In Order No. 676-J, the Commission amended its regulations to incorporate by reference the latest version (Version 003.3) of specified business practice standards that NAESB filed with the Commission on March 30, 2020. The Version 003.3 NAESB standards include updates to standards that the Commission previously incorporated by reference into its regulations.

The Version 003.3 standards include revisions related to the surety assessment on cybersecurity performed by Sandia National Laboratories (Sandia) designed to strengthen the practices and cybersecurity protections established within the standards.\(^4\) The standards also include revisions to support new OASIS functionality that will allow for the posting of third party offers of planning redispatch services as well as providing additional information regarding the curtailment of firm transmission service.\(^5\) The standards also include changes that were made to support consistency with the North American Electric Reliability Corporation (NERC) Reliability Standards.\(^6\) The standards also include additions, revisions, and reservations made to the WEQ-008 Transmission Load Relief (TLR) – Eastern Interconnection Business Practice Standards, which NAESB advises completes the standards development effort for the Parallel Flow Visualization (PFV) enhanced congestion management process (PFV Standards).\(^7\) The standards also include five additional revisions to the OASIS suite of standards that were not made in response to Commission orders.\(^8\) In addition, the standards include revisions to the NAESB WEQ-023 Modeling Business Practice Standards.\(^9\) Finally, the Commission also revised 18 CFR § 37.6(b)(2)(i) to codify that the calculation of Available Transfer Capability (ATC) must be conducted in manner that is transparent, consistent with system conditions and outages for the relevant timeframe, and not unduly discriminatory or preferential.\(^10\)

Order No. 676-J directed public utilities to revise their OATTs to incorporate the following NAESB standards by reference:

The Commission directed public utilities to submit their Order No. 676-J compliance filings by October 27, 2022, and to make the OATT revisions in those filings using an open-ended effective date.\textsuperscript{12}

II. Proposed Tariff Revisions

Adoption of the NAESB standards set forth in Order No. 676-J does not require any substantive changes or revisions to the existing provisions of the CAISO tariff. Therefore, in accordance with Order No. 676-J, the CAISO has revised section 7.3.3 of its tariff to incorporate those NAESB standards by reference, using the referencing language prescribed in Order 676-J and replicated in Section I above.

The CAISO also has revised tariff section 7.3.3 to list the NAESB standards for which the CAISO has requested waiver, pursuant to the petition for waiver it is submitting the same day as this compliance filing.

III. Effective Date

Pursuant to the directives in Order No. 676-J, the CAISO requests that the Commission accept the tariff revisions contained in this filing with an open-ended effective date.
