**Re: California Independent System Operator Corporation,
Docket No. ER06-615-____
Informational Filing per ISO Tariff Section 39.7.1.3.2
Request for Privileged Treatment Under 18 C.F.R Section 388.112**

Dear Secretary Bose:

Pursuant to Section 39.7.1.3.2 of its tariff, the California Independent System Operator Corporation submits this informational filing containing the rates or formulas used to calculate negotiated default energy bids, custom operations and maintenance adders, and major maintenance adders that were implemented or modified in the month of October 2014. This filing includes information on eight resources with revised major maintenance adders that went into effect in October 2014 replacing previously effective major maintenance adders and one resource withdrew its major maintenance adder. No information is being submitted relating to negotiated default energy bids or custom operations and maintenance adders.

I. REQUEST FOR CONFIDENTIAL TREATMENT

Section 20.2 of the ISO tariff requires that the ISO treat individual bids from scheduling coordinators as confidential. Negotiated default energy bids and start-up and minimum load costs, which include customer operations and maintenance, and major maintenance adders, are components of bids. Accordingly, pursuant to section 20.2 of the ISO tariff, the ISO has labeled the documents included with this filing as confidential. In addition, the documents contain proprietary information regarding specific generating units, such as unit efficiency factors, scaling factors, and operation and maintenance costs. For these reasons, the Commission should accord these attachments privileged treatment pursuant to 18 C.F.R. Section 388.112.

II. CONTENTS OF FILING

This filing is comprised of:
