The Honorable Kimberly D. Bose  
Secretary  
Federal Energy Regulatory Commission  
888 First Street, NE  
Washington, DC 20426

**Re: California Independent System Operator Corporation  
Docket Nos. ER06-615-\_\_\_\_ and ER07-1257-\_\_\_\_  
Market Disruption Report**

Dear Secretary Bose:

The California Independent System Operator Corporation (CAISO) hereby submits its August/September report covering Market Disruption reportable events under Section 7.7.15 of its FERC Electric Tariff (ISO Tariff) that occurred from August 16, 2015 to September 15, 2015.<sup>1</sup>

Please contact the undersigned with any questions.

Respectfully submitted,

**By: /s/ Anna A. McKenna**

## I. Background

A Market Disruption is an action or event that causes a failure of a CAISO Market, related to system operation issues or System Emergencies.<sup>1</sup> Pursuant to Section 7.7.15 of the ISO Tariff, the California Independent System Operator Corporation (ISO or CAISO) can take one or more of a number of specified actions in the event of a Market Disruption, to prevent a Market Disruption, or to minimize the extent of a Market Disruption. The ISO reports Market Disruption occurrence in any of the following circumstances:

- When any of the ISO market processes fail to publish, including the Integrated Forward Market (IFM), Residual Unit Commitment (RUC), the Real-Time Market, which includes the Hour-Ahead Scheduling Process (HASP), Fifteen Minute Market (FMM), and the Real-Time Dispatch (RTD) processes;
- When the ISO manually overrides the closing of the Day-Ahead Market; or
- Any time that the ISO removes Bids from a CAISO Market to prevent a Market Disruption or to minimize the extent of a Market Disruption.

The Market Disruption report contains the following information:

- The frequency and types of actions taken by the ISO pursuant to Section 7.7.15;
- The nature of the Market Disruptions that caused the ISO to take action, or the Market Disruptions that were successfully prevented or minimized by the ISO as a result of taking action, and the ISO's rationale for taking such actions pursuant to Section 7.7.15;
- Information about the Bids (including Self-Schedules) removed pursuant to Section 7.7.15 (*i.e.*, megawatt quantity, point of interconnection, specification of the Day-Ahead versus Real-Time Bid, and Energy or Ancillary Services Bid); and
- The ISO's rationale for its removal of Bids (including Self-Schedules) pursuant to Section 7.7.15.<sup>2</sup>

---

<sup>1</sup> These system operation issues or System Emergencies are referred to in Sections 7.6 and 7.7, respectively, of the ISO Tariff. ISO Tariff, Appendix A, definition of Market Disruption. Capitalized terms not otherwise defined herein have the meanings set forth in the ISO Tariff.

<sup>2</sup> *Id.* at P 29 & n.29.

**II. Report on Market Disruptions Occurring from August 16, 2015 through September 15, 2015**

The ISO’s report on Market Disruptions that occurred during the time period from August 16, 2015 through September 15, 2015, is provided in Table 1 and Attachment A below. Attachment A includes an entry for each reportable Market Disruption event and each entry also indicates:

- (1) The date of the Market Disruption;
- (2) The hour and Dispatch Interval when the Market Disruption ended;
- (3) The type of CAISO Market in which the Market Disruption occurred; and
- (4) A description of the nature of the Market Disruption, the nature of any actions taken by the ISO, the rationale for such actions, and the Market Disruption prevented or minimized as a result of taking such actions.

For each of the CAISO Markets, Table 1 lists the number of Market Disruptions and the number of times that the CAISO removed Bids (including Self-Schedules) during the time period covered by this report. As shown in Table 1, there were a total of 49 Market Disruptions for the reporting period. Table 1 also indicates that the CAISO did not remove any Bids (including Self-Schedules) in any of its markets during the reporting period.

**Table 1: Summary of Market Disruption Report**

Type of CAISO Market	Market Disruption or Reportable Events	Removal of Bids (including Self-Schedules)
<b>Day-Ahead</b>		
IFM	0	0
RUC	0	0
<b>Real-Time</b>		
Fifteen Minute Market Interval 1	1	0
Fifteen Minute Market Interval 2	0	0
Fifteen Minute Market Interval 3	4	0
Fifteen Minute Market Interval 4	8	0
Real-Time Dispatch	36	0

Table 1 above shows the market disruptions in the real time market in order to incorporate the FMM binding intervals.

A majority of the RTD and FMM instances were caused due to a software patch that caused application problems. The frequency of RTD failures

decreased from 47 to 36 failures in comparison to the September 2015 Report. RTD failures accounted for approximately 73 percent of all of the Market Disruptions during this reporting period.

The following dates were when the most failures occurred. On August 17, there was 1 FMM, and 6 RTD disruptions due to an application problem. On August 26, there were 2 FMM, 4 RTD disruptions due to patch roll back and patch deployment. On August 28, there were 2 FMM, and 14 RTD disruptions where the previous good interval was used due to application failure.

Market Disruption Report  
September 15, 2015**

**Table 3: Market Disruptions, Nature of Actions Taken by the California ISO, Rationale and/or Market Disruption Prevented or Minimized as a Result of such Actions**

<b>Count</b>	<b>Date</b>	<b>Hour</b>	<b>Interval</b>	<b>Market</b>	<b>Nature of Actions, Nature of Market Disruption, Rationale and/or Market Disruption Prevented or Minimized as a Result of such Actions</b>
1	8/17/2015	15	4	FMM	FMM did not run due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval.
2	8/17/2015	15	7	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
3	8/17/2015	15	8	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
4	8/17/2015	15	9	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
5	8/17/2015	24	4	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
6	8/17/2015	24	5	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval., Contingency dispatch
7	8/17/2015	24	6	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval., Contingency dispatch

Count	Date	Hour	Interval	Market	Nature of Actions, Nature of Market Disruption, Rationale and/or Market Disruption Prevented or Minimized as a Result of such Actions
8	8/18/2015	11	6	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval., Software failure / Unplanned outage
9	8/18/2015	16	3	FMM	FMM did not run due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval.
10	8/18/2015	17	3	FMM	FMM did not run due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval.
11	8/19/2015	1	4	FMM	FMM did not run due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval, Planned maintenance. Patching.
12	8/19/2015	1	7	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval, Planned maintenance. Patching.
13	8/19/2015	1	8	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval, Planned maintenance. Patching.
14	8/19/2015	1	9	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval, Planned maintenance. Patching.
15	8/26/2015	15	4	FMM	FMM was run in manual due to patching, Planned maintenance
16	8/26/2015	15	7	RTD	RTD was run in manual due to patching, Planned maintenance

Count	Date	Hour	Interval	Market	Nature of Actions, Nature of Market Disruption, Rationale and/or Market Disruption Prevented or Minimized as a Result of such Actions
17	8/26/2015	15	8	RTD	RTD was run in manual due to patching, Planned maintenance
18	8/26/2015	19	4	FMM	FMM did not run due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval, Planned maintenance. Patch roll back.
19	8/26/2015	19	7	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval, Planned maintenance. Patch roll back.
20	8/26/2015	19	8	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval, Planned maintenance. Patch roll back.
21	8/27/2015	18	3	FMM	FMM did not run due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval.
22	8/27/2015	18	9	RTD	RTD failed due application problem. Loss clearing payload and LMP filled from previous good interval., Software failure / Unplanned outage
23	8/28/2015	11	12	RTD	RTD Broadcast failed. Loss clearing payload and LMP filled from previous good interval.
24	8/28/2015	12	3	FMM	FMM did not run due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval.
25	8/28/2015	12	9	RTD	RTD failed due application problem. Loss clearing payload and LMP filled from previous good interval.

Count	Date	Hour	Interval	Market	Nature of Actions, Nature of Market Disruption, Rationale and/or Market Disruption Prevented or Minimized as a Result of such Actions
26	8/28/2015	12	10	RTD	RTD failed due application problem. Loss clearing payload and LMP filled from previous good interval.
27	8/28/2015	12	11	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
28	8/28/2015	12	12	RTD	RTD results were blocked and previous solution used.
29	8/28/2015	13	1	RTD	RTD results were blocked and previous solution used.
30	8/28/2015	13	9	RTD	RTD failed due application problem. Loss clearing payload and LMP filled from previous good interval.
31	8/28/2015	14	9	RTD	RTD failed due application problem. Loss clearing payload and LMP filled from previous good interval.
32	8/28/2015	14	10	RTD	RTD failed due application problem. Loss clearing payload and LMP filled from previous good interval.
33	8/28/2015	14	11	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
34	8/28/2015	14	12	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
35	8/28/2015	15	1	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.

Count	Date	Hour	Interval	Market	Nature of Actions, Nature of Market Disruption, Rationale and/or Market Disruption Prevented or Minimized as a Result of such Actions
36	8/28/2015	15	1	FMM	FMM failed due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval.
37	8/28/2015	15	2	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
38	8/28/2015	23	6	RTD	RTD Broadcast failed. Loss clearing payload and LMP filled from previous good interval.
39	8/31/2015	18	4	FMM	FMM did not run due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval.
40	8/31/2015	18	8	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
41	9/2/2015	17	4	FMM	FMM did not run due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval.
42	9/2/2015	17	7	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
43	9/2/2015	17	8	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
44	9/7/2015	15	4	FMM	FMM did not run due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval.

Count	Date	Hour	Interval	Market	Nature of Actions, Nature of Market Disruption, Rationale and/or Market Disruption Prevented or Minimized as a Result of such Actions
45	9/7/2015	15	7	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
46	9/7/2015	15	8	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
47	9/15/2015	21	4	FMM	FMM did not run due to application problem. This interval was filled either automatically or interactively. MQS published Pnode clearing and resource awards for this interval.
48	9/15/2015	21	7	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.
49	9/15/2015	21	8	RTD	RTD did not run due to application problem. Loss clearing payload and LMP filled from previous good interval.

Notes:

Integrated Forward Market (IFM): The Day-Ahead Market run in which the ISO conducts the market for purchases and sales of Energy for all hours of the next Trading Day based on submitted supply and demand bids, and performs the procurement of Ancillary Services.

Residual Unit Commitment (RUC): The Day-Ahead Market run in which the ISO conducts unit commitment of additional resources based on submitted availability bids and the forecast of demand for every hour of the next Trading Day.

Fifteen Minute Market (FMM) Interval 1: The first of a series of four market runs conducted every Trading Hour in advance of the Operating Hour. In this run the ISO conducts the Market Power Mitigation and Reliability Requirement Determination for submitted Bids, which applies to all of the Real-Time Market processes for the given Trading Hour. In this interval the ISO also conducts the procurement of incremental Ancillary Services from internal resources and dynamic external resources.

Fifteen Minute Market (FMM) Interval 2: The second of a series of four market runs conducted every Trading Hour in advance of the Operating Hour during which the ISO conducts the HASP. In the HASP, the ISO conducts the procurement and sale of Energy and Ancillary services from non-dynamic System Resources based on submitted Bids and the CAISO Forecast of CAISO Demand. In this interval the ISO also conducts the advisory procurement of incremental Ancillary Services from internal resources and dynamic external resources from T to T+60 minutes and procurement for the given Trading Hour.

Fifteen Minute Market (FMM) Interval 3: The third of a series of four market runs conducted every Trading Hour. During this interval the ISO conducts the commitment of internal Short-Start and Fast Start Units for the Time Horizon of T-30 minutes to T+240 minutes. In this interval the ISO also conducts the procurement of incremental Ancillary Services from internal resources and dynamic external resources for the given Trading Hour.

Fifteen Minute Market (FMM) Interval 4: The fourth of a series of four market runs conducted every Trading Hour. This interval is for the Fifteen Minute Market for the T-105 minutes to T+60 minutes time horizon. In this interval the ISO also conducts 15-minute Ancillary Service Awards for non-Hourly System Resources, internal resources and dynamic external resources for the given Trading Hour.

Real-Time Dispatch (RTD): The five minute interval of any given Operating Hour during which the ISO conducts the market for Energy based on submitted bids and the CAISO Forecast of CAISO Demand.

## CERTIFICATE OF SERVICE

I hereby certify that I have served the foregoing document upon the parties listed on the official service list in the captioned proceedings, in accordance with the requirements of Rule 2010 of the Commission's Rules of Practice and Procedure (18 C.F.R. § 385.2010).

Dated at Folsom, California this 15<sup>th</sup> day of October, 2015.
