WASHINGTON, D.C. 20426

OFFICE OF ENERGY MARKET REGULATION

Southern California Edison Company  
Docket No. ER12-2592-000  
**October 11, 2012**

Southern California Edison Company  
P.O. Box 800  
2244 Walnut Grove Ave.  
Rosemead, CA 91770

Attention: James A. Cuillier, Director  
FERC Rates & Regulation

Reference: Small Generator Interconnection Agreement

Dear Mr. Cuillier:

On September 7, 2012, Southern California Edison Company (SoCal Edison) filed a Small Generator Interconnection Agreement (SGIA) among California Independent System Operator Corporation (CAISO), SoCal Edison as the Interconnection Customer, and SoCal Edison as the Participating Transmission Owner (Participating TO). The Interconnection Customer proposes to interconnect its proposed 8 MW Lithium-ion battery storage facility, named the Tehachapi Wind Energy Storage Project (Project), to SoCal Edison's Monolith Substation at the 66 kV substation and transmit energy to the CAISO controlled grid. The Interconnection Request specified the following two phases for the Project: (1) a demonstration phase that is slated to begin on August 30, 2012, and would terminate by June 30, 2015, and (2) a 12.5 year permanent phase. SoCal Edison states the SGIA specifies the terms and conditions pursuant to which the Participating TO and CAISO will provide interconnection service; the Participating TO will design, procure, construct, own, operate, and maintain the Participating TO's Interconnection Facilities required for the demonstration phase and the Interconnection Customer will pay for such Participating TO's Interconnection Facilities. Waiver of the Commission's notice requirements pursuant to section 35.11 of the Commission's rules and regulations (18 C.F.R. § 35.11) is granted and the SGIA is accepted for filing, effective September 8, 2012, as requested.

This filing was noticed on September 7, 2012, with comments, protests, or motions to intervene due on or before September 28, 2012. No protests or comments were filed. Notices of intervention and unopposed timely filed motions to intervene are granted pursuant to the operation of Rule 214 of the Commission's Rules of Practice and Procedure (18 C.F.R. § 385.214). Any opposed or untimely filed motion to intervene is governed by the provisions of Rule 214.

This acceptance for filing shall not be construed as constituting approval of the referenced filing or of any rate, charge, classification or any rule, regulation or practice affecting such rate or service contained in your tariff; nor shall such acceptance be deemed as recognition of any claimed contractual right or obligation associated therewith; and such acceptance is without prejudice to any findings or orders which have been or any which may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against Southern California Edison Company.

This action is taken pursuant to the authority delegated to the Director, Division of Electric Power Regulation – West, under 18 C.F.R. § 375.307. This order constitutes final agency action. Requests for rehearing by the Commission may be filed within 30 days of the date of issuance of this order pursuant to 18 C.F.R. § 385.713.

Sincerely,

Steve P. Rodgers, Director  
Division of Electric Power  
Regulation - West
