Additional comments

Please offer any other feedback your organization would like to provide on the [draft final proposal](#) for the Market Settlement Timeline initiative.

PSE believes that the Draft Final Proposals meets the objectives CAISO set forth for this initiative - namely, producing more accurate initial settlement statements, allowing for sufficient time for CAISO and market participants to resolve disputes, and providing flexibility in publishing settlement statements and weekly invoices. PSE does not have concerns with

the initiative at this time, and appreciates CAISO's willingness to address the concerns that stakeholders raised throughout the stakeholder process.
