the Identification of Electric Transmission and)	
Distribution Constraints, Actions to Resolve)	
Those Constraints, and Related Matters)	
Affecting the Reliability of Electric Supply.)	
<hr/>		

**PREHEARING CONFERENCE STATEMENT
OF THE
CALIFORNIA INDEPENDENT SYSTEM OPERATOR
(Phase 6)**

In accordance with the Administrative Law Judge’s (“ALJ”) July 20, 2004, Ruling Setting Prehearing Conference Regarding Tehachapi Transmission Expansion Plan (“July 20 Ruling”), the California Independent System Operator (“CAISO”) respectfully submits this prehearing conference (“PHC”) statement. The intent of the PHC is to obtain a status report and discuss activities of the study group created by Decision 04-06-010 to develop a comprehensive transmission development plan for the phased expansion of transmission capabilities in the Tehachapi area. Specifically, the July 20 Ruling requests that PHC statements address the following topics:

1. How are potential interconnections between the Pacific Gas and Electric Company and Southern California Edison Company (“SCE”) transmission systems being identified and assessed?

It is the CAISO’s understanding that any participant of the collaborative study group can propose an interconnection alternative to be studied. Similarly, the transmission planning staff of the CAISO has reviewed past studies of the Tehachapi area to assist in determining potential interconnections to be studied. In the CAISO’s judgment, one of the main purposes of the study group should be to evaluate all proposed transmission alternatives in a non-discriminatory way

in order to produce an optimal transmission plan, which has broad stakeholder support. Any interconnection alternative should be assessed as outlined in Section I.V.7 and I.V.8 of the July 12, 2004 study plan.

2. How are non-technical issues raised by D.04-06-010 being addressed, e.g., procedures whereby a CPCN filing and later construction of each phase of the upgrades would be triggered, application of the Tehachapi approach to other areas of the State, and demarcation between gen-ties and network transmission facilities?

The CAISO believes that SCE is the appropriate entity to respond to this question at this time.

3. How are network benefits being assessed?

The economic benefits for each alternative will be assessed using the principles and framework developed in the Transmission Economic Assessment Methodology (TEAM). A full network model production cost simulation tool will be utilized to assess the benefits of each transmission plan, which will then be compared to its cost to determine the benefits to cost ratio.

4. Are there enough scheduled meetings and other opportunities for study group members to coordinate and collaborate?

Yes. The CAISO believes that, given the conceptual nature of the studies, the study plan provides for a sufficient number of meetings and other opportunities for study group members to coordinate and collaborate. The schedule is provided in the July 14 version of the study plan.

5. How will non-consensus views be drafted and incorporated into the study group report?

The CAISO intends to work with SCE and other stakeholders to develop a process for addressing non-consensus views.

6. What transmission project is SCE planning to propose in its Certificate of Public Convenience and Necessity application due December 9, 2004?

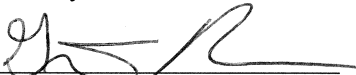

SCE constitutes the appropriate entity to respond to this question. However, the CAISO notes that SCE has proposed to the CAISO a new 25-mile transmission line from SCE's Antelope Substation to SCE's Pardee Substation. As proposed, the new line will be designed and constructed to 500 kV line design standards and initially energized and operated at 230 kV. Substation expansions at Antelope and Pardee Substations are required to accommodate the new transmission line. Under the CAISO Tariff, CAISO approval of this transmission project requires approval by the CAISO Board of Governors. The Board of Governors approved the project at their meeting held on July 29, 2004.

7. Should the July 14, 2004 Study Plan be modified?

The CAISO believes the study plan is sufficient and should not be modified.

July 30, 2004

Respectfully Submitted:

By:
