• Business Practice Manuals
  ➢ The purpose of BPMs is to set forth business practices that implement the ISO tariff.

  ➢ The ISO conducts a yearly policy initiative roadmap process to consider and rank initiatives.
    ➢ Policy changes submitted though the PRR process will be referred to the policy initiative road map process.

  ➢ Each subject area in a BPM is based on enabling language in the ISO tariff.
    ➢ The PRR process cannot be used to introduce changes that are not supported by existing tariff authority.
