Intertie Deviation Settlement
Tariff Clarification

5.9.2024
Housekeeping reminders

• This call is being recorded for informational and convenience purposes only. Any related transcriptions should not be reprinted without ISO’s permission.

• This collaborative working group are intended to stimulate open dialogue and engage different perspectives.

• Please keep comments professional and respectful. Please try and be brief and refrain from repeating what has already been said so that we can manage the time efficiently.

• If you need technical assistance during the meeting, please send a chat to the event producer.
Instructions for raising your hand to ask a question

• If you are connected to audio through your computer or used the “call me” option, select the raise hand icon located on the bottom of your screen
  – Note: #2 only works if you dialed into the meeting.
  – Please remember to state your name and affiliation before making your comment.

• You may also send your question via chat to Brenda Corona or to all panelists
The CAISO identified a gap between the tariff language and policy/implementation for tariff section 30.5.7

- The intertie deviation settlement rules call for each fifteen-minute market (FMM) award to be reduced to zero should the transmission profile of an E-Tag not be received by T-40
  - The policy and implementation allow for reinstatement of schedules for FMM intervals should an E-Tag be received between T-40 and T-20
  - Existing tariff language reduces the FMM schedules to zero irrespective of E-Tag submittal between T-40 and T-20
Example of market and tagging timelines

30.5.7 E-Tag Rules and Treatment of Intertie Schedules

• In addition to complying with all generally applicable E-Tagging requirements, Scheduling Coordinators receiving a HASP Block Intertie Schedule or HASP Advisory Schedule must submit an E-Tag (or set of E-Tags) in support of the HASP Schedule that passes CAISO E-Tag validation procedures. Such Scheduling Coordinators are also subject to the FMM Schedule consequences specified in this Section 30.5.7.
30.5.7.1 FMM E-Tag Submission Timing Cut-Offs

For the purposes of this section 30.5.7, the CAISO enforces the following FMM E-Tag submission timing cut-offs for Intertie Bids:

a) Forty minutes prior to the Trading Hour (T-40) for the first FMM interval of the Trading Hour.

b) Twenty-five minutes prior to the Trading Hour (T-25) for the second FMM interval of the Trading Hour.

c) Twenty minutes prior to the Trading Hour (T-20) for the third and fourth FMM interval of the Trading Hour.
30.5.7.2 Upper Limit on FMM Schedules

The RTUC does not award FMM Schedules that exceed the lowest of the:

1. Quantity of the HASP Block Intertie Schedule or HASP Advisory Schedule ADS recognizes the Scheduling Coordinator as accepting for the period covered by the FMM interval.
2. Transmission profile of the E-Tag at the FMM E-Tag submission timing cut-off for the FMM interval.
3. Energy profile of the E-Tag at the FMM E-Tag submission timing cut-off for the FMM interval.
30.5.7.3 Intra-Hour Schedule Changes for HASP
Advisory Schedules

The FMM may provide an intra-hour Schedule change to a resource with a
HASP Advisory Schedule. The MW level to which the FMM can provide such a
change above the HASP Advisory Schedule is limited by the quantity of the
transmission profile submitted by the FMM E-Tag submission timing cut-off for
the relevant FMM interval.

The CAISO may increment or decrement the Energy profile on behalf of the
Scheduling Coordinator to correspond to the intra-hour redispatch. Absent
extenuating circumstances, the CAISO automatically makes such updates. In
performing this service for a Scheduling Coordinator, the CAISO does not
assume any responsibility for compliance with any E-Tag requirements or
obligations to which the Scheduling Coordinator is subject. The Scheduling
Coordinator is responsible for reviewing any potential updates to the Energy
profile to review the updates and ensure they appropriately reflect the FMM
schedule. The changed energy profile will apply for the balance of the
operating hour unless it is subsequently changed by a further updated energy
profile.
30.5.7.4 CAISO Adjustments to Energy Profile for Reliability

The CAISO may modify the Energy profile for any Intertie Schedule due to reliability-related curtailments.

The California ISO Stakeholder Symposium will be held on Oct. 30, 2024 at the Safe Credit Union Convention Center in Sacramento, California.

A welcome reception for all attendees will be held the evening of Oct. 29.

Additional information, including event registration and sponsorship opportunities, will be provided in a future notice and on the ISO’s website.

Please contact Symposium Registration at symposiumreg@caiso.com with any questions.
A new caiso.com is coming in late May.

Training sessions will be held on:
May 23 from 9:00 a.m. – 10:00 a.m.
May 29 from 10:00 a.m. – 11:00 a.m.

Watch the Daily Briefing for details and follow us on social media.
