Known Issues - DRRS

#	System	Summary	S atus	Estimated Fix Date
1	DRRS	U: Advanced filter input controls do not automatically dose as the user is dicking from one control to another, causing the controls (date picker, text felds, dropdown lists, etc.) to stack on top of each other. User must dick on the control to make it disappear.	Cpen	TBD
2	DRRS	 U: The application disconnect/connect icon and its espective display text are not in-sync: When the application is disconnected caused by a timeout, the text displays as "Ginnected" where it should display as "Disconnected". When the application econnects, the icon obes not display as connected While there is an issue with the visual feedback, the application functionality is not impacted. 	Феn	TBD

- Timeline: July 27 September 04
- Structured: August 19 Complete (Rerun on 9/2-Complete)
- Setup needed:
 - PDR-LSR Curtailment.
 - If market participant wants to see only energy award, then, submit very cheap energy bids
 - If market participant wants to see AS award, say Spin, submit very expensive energy bids and 0\$ Spin bid
 - PDR-LSR Consumption.
 - Avoid submitting large negative energy bid. Suggested bid around \$ -1

System	Phase 1: 8/31	Phase 2: 9/21
ВААОР	 Allow EIM entity override activation for the contingencies up to 15 in NA contingency list Add visibility of other adjacent BAAs ETSR locks and reasons Add Static ETSR transfer data to RTD Dispatch Control Display (ETSR tab). Add Static ETSR transfer data to BAAOP ETSR Detail Display (in RTD) In RTD/RTPD Dispatch Control display, in Dispatch Instruction Review table, add columns for UP and DN remaining ramp capacity (5/15 minute respectively). In addition, include the sum of these columns at bottom of table. Example Calculation: RTD UP Ramp = MIN(5MinRampRate, UpperLim-CurrentDispatch]. Add Supplemental DOT to VER resources to Dispatch Control displays; Detail: In BAAOP RTD/RTPD Dispatch Control, add SUPP DOT column Fix the functionality for Manual Dispatches - users should be able to utilize MSG functions, such as designating a specific configuration, and users should be able to do commitment override EIM Entities have a notification status of market inputs, showing if BAAOP received the latest payload of critical market inputs. Example Critical data submissions: (not all inclusive) 	Fix/Improve SVG One Lines. Request to be able to view SE and telemetry values for all substation flows and elements
BSAP	 Add Manual Dispatch information to BSAP Resource Bal Viewer. Add any applicable deviations that used in the test to BSAP BAA Bal Viewer. For the Bid Range Capacity Test Results report, Requirement Amount Column needs to publish the true requirement, not just the INCREMENTAL/DECREMENTAL requirement 	N/A
RTM	 Publish the data of the MW infeasibility data and ABC Up and Down Dispatches of RTPD/RTD Publish the effective ETSR import and export limits for the market run for RTPD and RTD Support Pump Storage for EIM BAAs 	 Publish the effective load conforming for the market run for RTPD and RTD for Binding and Advisory
CMRI	 Display and publish, download the data of the MW infeasibility data and ABC Up and Down Dispatches of RTPD/RTD For the Bid Range Capacity Test Results report, Requirement Amount Column needs to display and publish, download the true requirement, not just the INCREMENTAL/DECREMENTAL requirement. Only upstream has changes with regards to the data that is sends to CMRI. 	 Display and publish, download the data of the effective load conforming for the market run for RTPD and RTD for 1.CMRI Load Conforming Binding rpt 2. CMRI Load Conforming Advisory rpt

Trouble-shooting tips to access ADS

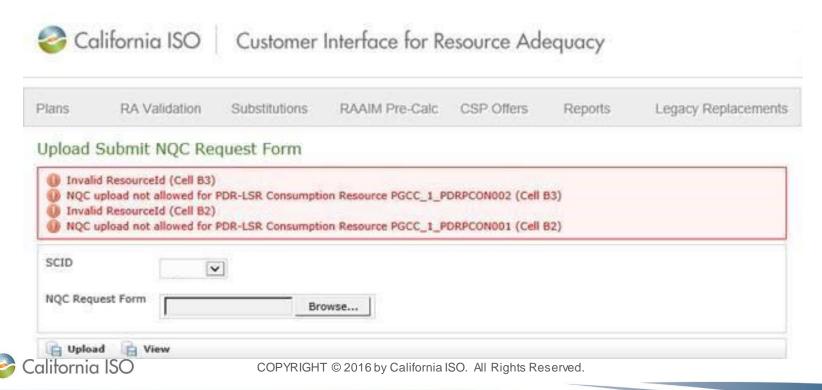

- Check your firewall settings.
- Clear the browser cache & cookies.
- Pop-up blockers on your browser may lead to issues accessing CAISO ADS.
- If you use a pop-up blocker, you must whitelist the CAISO domain (caiso.com)

Energy storage and distributed energy resources phase 3 - CIRA changes

- PDR_LSR Consumption resources are not eligible for Resource Adequacy
- CIRA will not allow a PDR-LSR Consumption resource to submit a request for NQC
