Folsom, CA 95763-9014

Dear Board of Governors:

On behalf of NV Energy, I am writing to express support for the Energy Imbalance Market Transitional Committee's proposal for long-term governance of the energy imbalance market.

The proposal is a balanced approach and provides appropriate participation from energy imbalance market stakeholders, including the nominating committee for a five member board. It also supports additional regional collaboration through the formation of a body of state regulators and a regional issues forum.

NV Energy successfully began energy imbalance market parallel operations with CAISO on September 1, 2015 and looks forward to attesting to our readiness to FERC by the end of this month.

Sincerely,

Walter Spansel
