

## **RIG Acceptance Testing Support**

In order to provide quality customer service and improve the current process for scheduling RIG Acceptance Testing (Point 2 Point Testing) the following requirements will need to be met in order to request a date for the test.

1. Buckets 1 – 4 of the NRI Checklist must be received and approved.
2. All pre-testing must be completed with a confirmation email. See step 3 below. *This will be changing in the near future to a new form that must be filled out and submitted.*
3. Once 1 and 2 are completed and communication over the ECN is ready, email EDAS at EDAS@caiso.com with a **confirmation that all required pretesting has been completed**, and request a communication check and appointment for testing. If we are able to poll the meters and connect securely to the RIG we will do our best to schedule your RIG Acceptance Testing within 2 weeks.

**Please indicate in the subject line: “Request for Communication Check and Point 2 Point Testing”**

Detailed information for scheduling fieldwork appointments can be found on CAISO website from the link below. Please follow these instructions when requesting an appointment:
