Southern California Edison (SCE) submits these comments on the California Independent System Operator's (CAISO) 2019 Catalog¹.

SCE supports the CAISO initiating the proposed 6.1.3 California ISO to Market Participant Relationship Enhancement as a stakeholder process

SCE thanks the CAISO for considering this initiative in the stakeholder catalog. SCE had submitted this for consideration due to the direction in which the CAISO is heading. The CAISO's need to differentiate between economic and physical characteristics makes this initiative essential.
