***note: This matrix only includes those items that SCE deems to be “medium” or “high” priority items.**

Roadmap section number, or specify “New”	Title and description of proposed enhancement	Justification for proposed enhancement based on criteria stated above
2.2.5	Dispatchable Demand Response	Medium priority: Grid reliability
2.2.8	Dynamic pivotal supplier test for market power mitigation	Medium priority: Market Efficiency
2.2.11	Multi-day unit commitment in the IFM	High priority: Market Efficiency
2.2.12	Relax DEC Bidding Activity Rule on Final Day-Ahead Resource Schedules	Medium priority: Market Efficiency
2.2.15	Ramp Rate Enhancements	Medium priority: Grid reliability
2.2.18	Hourly rather than daily designation of AS Contingency Only Flag	Medium priority: Market efficiency
2.2.20	Modeling Constraints of Combined Cycle Units	High priority: Grid reliability
2.2.21	Treatment of use-limited resources with limited number of hours or start-ups	High priority: Market efficiency
2.2.25	Partial RA Units	High priority: Market efficiency
2.2.26	Sale of CRRs in CRR Auctions	High priority: cost impact to market participants
2.2.28	Two-tier rather than single-tier RT Bid cost recover allocation	High priority: Market efficiency
2.3.5	Exchange of Day Ahead Scheduling Information	Medium priority: Grid Reliability
2.3.7	Maximizing Intertie Transfer Capacity	High: Grid reliability
2.4.4	Payment Acceleration	Medium priority: cost impact to market participants/CAISO
2.4.5	System for Reporting outages and derates	High priority: Grid reliability
2.6.3	Transmission Ownership Rights	Medium priority: Market efficiency
2.7.2	Credit Requirements for CRR holders	Medium priority: cost impact to market participants
2.8.2	Sale of CRRs in the CRR auctions	High priority: cost impact to market participants
2.8.4	Software for bundling individual PNode CRRs into	Medium priority: Grid reliability

	trading hub CRRs	
3.2	Long Term Security	High priority: Grid reliability
3.2.3	CPUC Phase 2 Resource Adequacy	High priority: Grid reliability
3.2.4	Demand Response	Medium priority: Grid reliability
3.2.5	CAISO Short-term reliability service	High priority: Grid reliability
3.2.6	RA Requirements for non-CPUC jurisdictional entities	High priority: Grid reliability
New	Tagging and Tracking System for RA Capacity	High priority: Grid reliability
New	Fix PIRP re: disincentives for PIRP resources to schedule Day Ahead	High priority: Grid reliability
