California Independent System Operator Corporation**

September 19, 2017

Dear Mr. Anders:

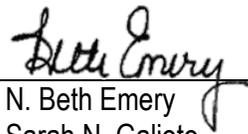

On December 28, 2016, the California Independent System Operator Corporation (CAISO) filed with the Federal Energy Regulatory Commission (Commission) proposed revisions to the Transmission Control Agreement among CAISO and its participating transmission owners to add GridLiance West Transco LLC (GridLiance West) as a party to that agreement (December 2016 Filing). CAISO's filing was necessary to, among other things, reflect GridLiance West's acquisition of certain high-voltage transmission assets from Valley Electric Transmission Association, LLC (Valley), which are under CAISO's functional control. In the December 2016 Filing, CAISO requested an effective date of March 1, 2017, the date on which GridLiance West and Valley initially expected to close the transaction.

In an order issued on February 24, 2017, the Commission accepted CAISO's proposed revisions to the Transmission Control Agreement, to become effective March 1, 2017. That order stated that CAISO must make a future filing, pursuant to section 205 of the Federal Power Act, if the requested effective date changes.

Please be advised that on September 14, 2017, GridLiance West and Valley consummated the relevant transaction, effective September 15, 2017.

Thank you for your attention to this matter. Please contact the undersigned with any questions

Sincerely,

N. Beth Emery
