

**UNITED STATES OF AMERICA  
BEFORE THE  
FEDERAL ENERGY REGULATORY COMMISSION**

Southern California Edison Company)

Docket No. EL10-81-000

**MOTION TO INTERVENE AND COMMENTS OF THE CALIFORNIA  
INDEPENDENT SYSTEM OPERATOR CORPORATION**

The California Independent System Operator Corporation submits this motion to intervene and comments on the petition for declaratory order filed by Southern California Edison Company on August 4, 2010 in this proceeding.<sup>1</sup> SCE's petition requests the Commission's approval of SCE's recovery of any costs of abandoned plant and other rate incentives for the proposed Lugo-Pisgah transmission project and the Red Bluff substation. Very similar issues have been raised in the proceedings on SCE's petition for similar rate incentives for its proposed Eldorado-Ivanpah transmission project in Docket No. EL10-1.

**I. COMMENTS**

As the ISO proposed in its November 2, 2009 comments in Docket No. EL10-1, the ISO also proposes in this proceeding that the Commission make any approval of SCE's request for recovery of abandoned plant costs conditional on the ISO's approval of the Lugo-Pisgah project and Red Bluff substation through execution of Large Generator Interconnection Agreements that specify the need for these facilities as network upgrades in those LGIAs. In the ISO's additional comments submitted in Docket No. EL10-1 on August 24, 2010, the ISO clarified

---

<sup>1</sup> This motion and comments are submitted pursuant to Rules 212 and 214 of the Commission's Rules of Practice and Procedure, 18 C.F.R. §§ 385.212, 385.214 (2009) and the Notice of Filing issued in this proceeding on August 9, 2010. The ISO is sometimes also referred to as the CAISO.

the relationship of the ISO's generator interconnection process to its transmission planning process. The ISO incorporates all of its comments in Docket No. EL10-1 herein by reference.

## **II. MOTION TO INTERVENE**

The ISO is a non-profit public benefit corporation organized under the laws of the State of California, with a principal place of business at 151 Blue Ravine Road, Folsom, CA 95630. The ISO is a balancing authority responsible for the operation of transmission facilities placed under the ISO's operational control pursuant to a Transmission Control Agreement between the ISO and participating transmission owners. The ISO conducts a generator interconnection process pursuant to Commission-approved generator interconnection provisions of the ISO tariff.<sup>2</sup>

The petition requests incentives for proposed transmission facilities that are currently being evaluated under the ISO's generator interconnection process, which may affect the transmission rates that the ISO collects under its tariff. No other party can adequately represent the ISO's interests. Accordingly, the ISO requests the Commission's permission to intervene with full rights of a party.
