Upon completion of this template, please submit it to initiativecomments@caiso.com. Submissions are requested by close of business on **August, 4 2016**.

1. Please provide your comments on the proposed automatic voltage regulation requirements for asynchronous resources.

The Six Cities support the ISO’s proposal to adopt automatic voltage control requirements for asynchronous resources required to provide reactive power capability. The Six Cities do not have any comments on the specific voltage regulation and reactive power control requirements set forth by the ISO on page 5 of the Addendum to the Draft Final Proposal.
