Solar Eclipse Readiness

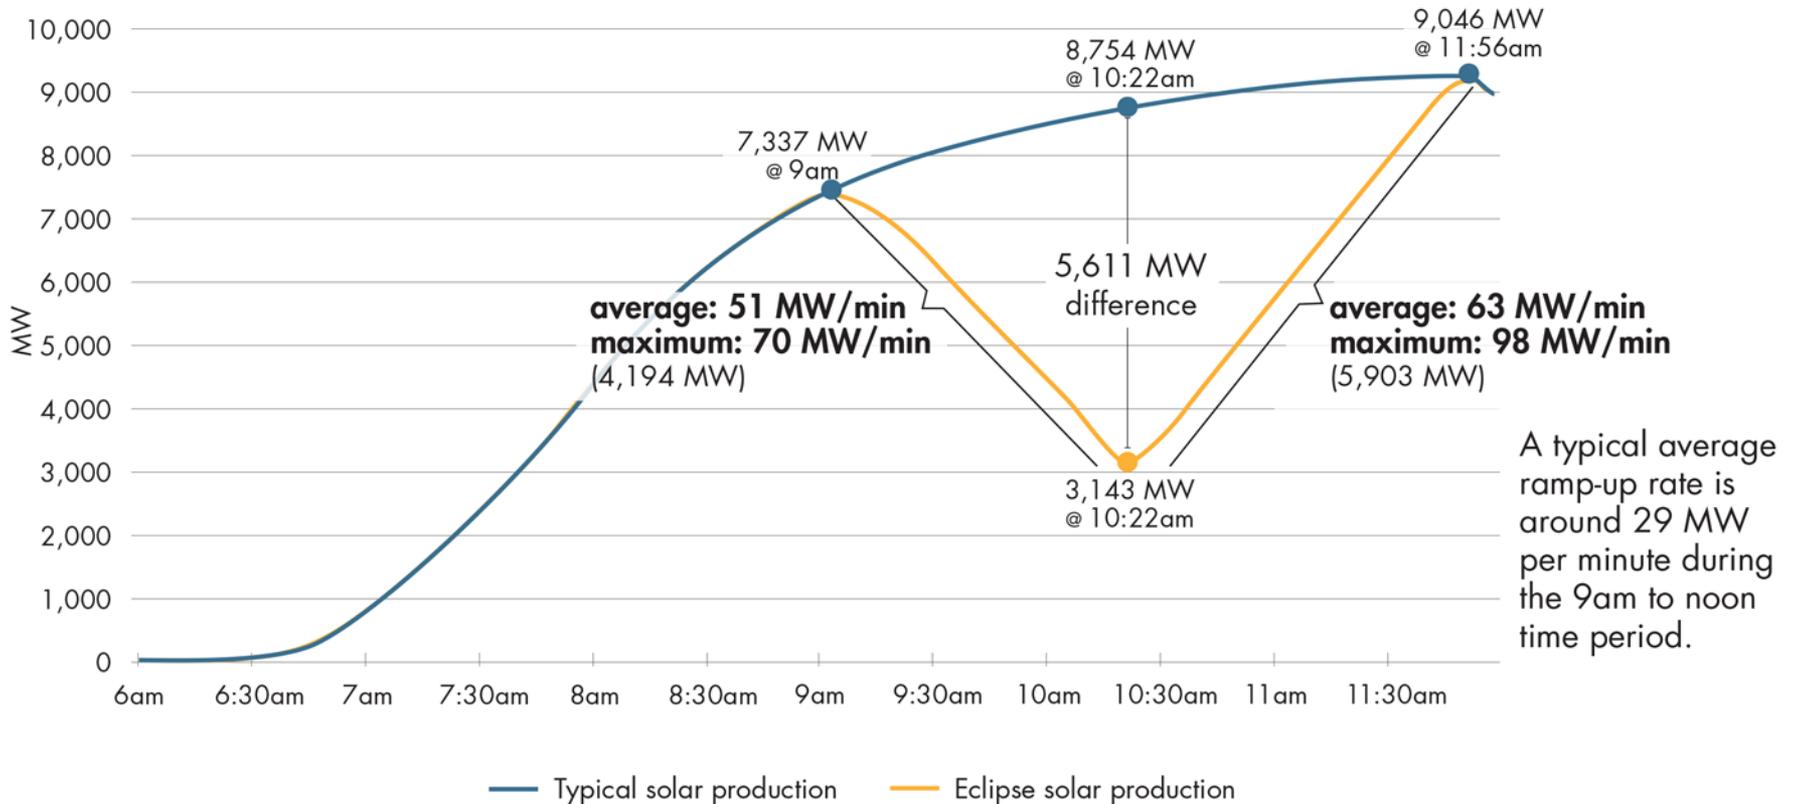

Nancy Traweek, Executive Director, System Operations
August 21, 2017

August 21, 2017 solar eclipse

Potential MW impact on ISO solar generation

ISO preparations for the 2017 solar eclipse

- Refined resource, load and weather forecasts.
- Increased Operating reserve and regulation.
- Positioned large hydropower resources for rapid response.
- Completed a day-ahead market simulation for different scenarios.
- Frequent outreach to Market Participants including solar operators
