### 2023 GMC Revenue Requirement and Rates Timeline

# **<u>Highlights</u>**: Considerable upward cost pressures in the labor market and additional positions drive the 2023 revenue requirement to increase by \$17 million.

- At \$199.6 million, the 2023 revenue requirement is \$17 million higher than 2022.
- The O&M budget request is \$26.6 million higher primarily due to higher labor costs driven by inflationary pressures and funding for 50 new positions intended to address strain points within the organization.
- The ISO will offset some of the operating cost increase through continued growth in the other revenue categories, a smaller collection of capital, and a sizeable return of funds through the operating reserve credit.

# **GMC Revenue Requirement:** The proposed revenue requirement increased by \$17 million, primarily due to a higher O&M budget.

### **Debt Service**: Annual requirement remains \$14.7 million.

- \$165.4 million outstanding principal
- \$14.7 million requirement consists of:
  - \$11.7 million in debt payments due to bondholders, and
  - \$3 million to be collected for required reserve
- Level annual debt service until February 2039
  - Bonds are callable in February 2031

### <u>Cash-Funded Capital</u>: \$22 million will be collected for capital in the proposed revenue requirement.

- Total project approvals are targeted at \$25 million for further market, operational, and technology enhancements as well as for other capital projects
- Leverage \$3 million from capital reserves to fund projects
- List of proposed projects is contained within the budget book

# Other Costs and Revenues: Higher RC Funding Requirement and new WEIM customers help drive other revenues to increase to \$57.5 million.
