

Policy Catalog and Roadmap Stakeholder Meeting

January 30, 2024

Reminders

- This call is being recorded for informational and convenience purposes only. Any related transcriptions should not be reprinted without ISO's permission.
- If you need technical assistance during the meeting, please send a chat to the event producer is Candice.

Great news with Intellor platform, specifically around audio while joining meetings

- The "call me" feature now enabled when joining Operator assisted meetings.
- I have a very positive update regarding the Webex Webinar(s) you have scheduled with us for January 2024. Integrated Webex telephone audio is now enabled for these webinars – meaning, speakers and attendees can join Webex and then use the call-me feature for the best experience. (We will still open the separate teleconference in case any of your attendees choose to use it.)

Instructions for raising your hand to ask a question

• If you are connected to audio through your computer or used the "call me" option, select the raise hand icon blocated on the bottom of your screen.

Note: #2 only works if you dialed into the meeting.

- Please remember to state your name and affiliation before making your comment.
- You may also send your question via chat to either Brenda Corona or to all panelists.

2024 Policy Initiatives Catalog and Roadmap Process

Goals for Catalog and Roadmap

Meaningfully engage external stakeholders

Integrate priorities from stakeholders, including RIF Roundtable

Transparent

- Clear methods to identify & prioritize proposals
- Fair access to ISO for all stakeholders

Aligned with internal planning processes

Strategic goals, strategic and enterprise roadmaps

Focused scope

 Initiatives connect with ISO strategic goals, ISO capacity, and stakeholder priorities

Incorporate urgent requests

Allow for unexpected initiatives, scope changes, and timeline extensions

Background

- Catalog reflects shared priorities of ISO stakeholders
 - Integrate priorities from stakeholders and Regional Issues Forum Roundtable
- Catalog and Roadmap aligned with ISO planning processes
 - ISO strategic goals, enterprise roadmap, budget, and resources

STRATEGIC PLAN 2022-2026

CAISO Public

CRITICAL STRATEGIC AND TACTICAL OBJECTIVES

- 1: RELIABLY AND EFFICIENTLY INTEGRATE NEW RESOURCES BY PROACTIVELY UPGRADING OPERATIONAL CAPABILITIES
- 2: STRENGTHEN RESOURCE ADEQUACY AND MEET CALIFORNIA'S SB100 GOALS THROUGH LONG-TERM TRANSMISSION PLANNING AND EFFECTIVE COORDINATION WITH STATE AGENCIES
- 3: BUILD ON THE FOUNDATION OF THE WESTERN ENERGY IMBALANCE MARKET TO FURTHER EXPAND WESTERN MARKET OPPORTUNITIES
- 4: PROVIDE HIGHLY RESPONSIVE AND INCLUSIVE STAKEHOLDER ENGAGEMENT AND CUSTOMER SERVICE
- 5: CREATE A FLEXIBLE AND ADAPTIVE WORK ENVIRONMENT THAT RETAINS AND ATTRACTS A HIGHLY SKILLED AND ENGAGED WORKFORCE

STRATEGIC OBJECTIVE 1:

Reliably and efficiently integrate new resources by proactively upgrading operational capabilities

- 1A. Modernize tools that support control center operations.
- 1B. Ensure that our mission-critical information technology is secure, scalable, and resilient.
- 1C. Increase coordination with distribution system operators.

See pages 5-6, 2022-2026 Strategic Plan

STRATEGIC OBJECTIVE 2:

Strengthen resource adequacy and meet California's SB 100 goals through long-term transmission planning and effective coordination with state agencies

- 2A. Ensure development of long-lead transmission plans that meet goals reliably and economically.
- 2B. Reimagine grid interconnection, prioritization, and coordination processes.
- 2C. Sharpen the ISO's resource adequacy strategy and clarify priorities for engagement in CPUC and CEC policy processes.

See pages 7-8, 2022-2026 Strategic Plan

STRATEGIC OBJECTIVE 3:

Build on the Foundation of the Western Energy Imbalance Market to Further Expand Western Market Opportunities

- 3A. Extend the ISO day-ahead market to participants across the West and pursue additional opportunities for regional coordination
- 3B. Effectively prioritize and sequence market design enhancements.
- 3C. Enable new technologies through efficient market rules and interfaces.

See pages 9-11, 2022-2026 Strategic Plan

STRATEGIC OBJECTIVE 4:

Provide highly responsive and inclusive stakeholder engagement and customer service

- 4A. Foster broad stakeholder trust through transparency, collaboration and mutually beneficial solutions.
- 4B. Provide highly accurate, easily accessible, clear information to ensure customer preparedness and to deepen understanding about the reliability needs of the grid.
- 4C. Ensure rigorous information-driven decision making across the ISO.
- 4D. Maintain customer confidence through continued disciplined cost management and strategic investments.

See pages 12-13, <u>2022-2026 Strategic Plan</u>

STRATEGIC OBJECTIVE 5:

Create a flexible and adaptive work environment that retains and attracts a highly skilled and engaged workforce

5A. Foster an equitable and inclusive workplace that models excellence and the ISO's cultural values.

5B. Cultivate strong leadership and technical competencies.

See pages 14-15, <u>2022-2026 Strategic Plan</u>

Stakeholder Input on Strategy

Two formal opportunities:

1: Review and feedback sessions

2: Policy requests

The stakeholder catalog process is one way to suggest market design changes, but not the only way

- Contact the ISO directly:
 - Customer service or CIDI tickets
 - Market performance calls
- Working groups and ongoing stakeholder processes:
 - Initiatives on the <u>2023-2025 Roadmap</u>
 - (e.g., day-ahead resource sufficiency)
 - Price formation enhancements working group
 - Greenhouse gas coordination (GHG) working group
 - Gas resources management working group
 - Resource adequacy (RA) working group
- Submit a proposal in the Catalog process to ensure that is prioritized with others for the 2024 Catalog

Break

Catalog Submission Template

- Released January 31, 2024
 - Submissions open February 1 Feb 28, 2024
 - New initiatives or resubmissions accepted
- Changes from 2023
 - Single annual submission period
 - Additional information requested:
 - Proposed initiative scope & market design elements to be addressed
 - Business justification: alignment with ISO strategic objectives and impact on other market participants
 - Timing & urgency

Submissions Template Questions

Issue Description

Proposed Initiative Description

 Scope of proposal, elements of existing market design proposing to address

Business Justification

Alignment with ISO strategic objectives, impact on other market participants

Timing & Urgency

Regulatory requirements or time-sensitive reliability impacts

Data

 Identify existing data and missing data needed to analyze issue & develop solutions

Urgent Policy Initiative Requests

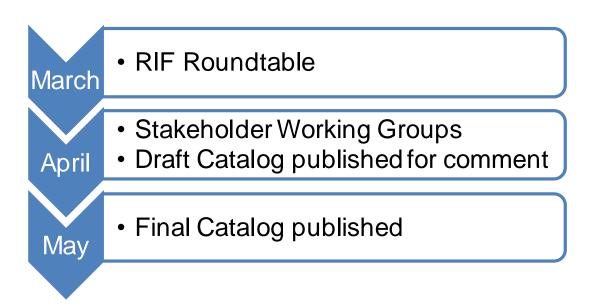

- Alternative initiative submission process will be available on a rolling basis for unexpected time-sensitive initiative needed to meet a significant and immediate reliability threat or regulatory requirement.
- Goal: predictable, transparent process to communicate urgent policy initiative needs.

Stakeholder Prioritization Working Groups

Goals

- Develop understanding of breadth of stakeholder support for individual submissions & reasons for support
- Identify logical groupings of submissions
- Clarify purpose of submissions

Catalog Submission Prioritization Criteria

- Stakeholder-identified priorities
- Alignment with ISO strategic plan and objectives
- Feasibility
 - Objectives are implementable and realistic
- Timing and complexity
 - ISO staff resources are available to develop and implement changes
 - 2024 consideration: staff resources used for EDAM implementation
- Urgency
 - Consequences of failing to address the issue are high and impact the broader stakeholder community

Next Steps

- February 1 28: Discretionary policy initiatives submission period
- March: RIF Roundtable
- April: Stakeholder prioritization workshop
- April: Draft Catalog published for stakeholder comment
- May: Final Catalog published

NEWS RELEASE: FERC accepts ISO tariff changes for a Western day-ahead electricity market

- New rules adopted for the Day-Ahead Market
 Enhancements (DAME) and the Extended Day-Ahead
 Market (EDAM).
- Stakeholders were deeply engaged in designing the market rules through a collaborative working group process, which included regional utilities, independent energy providers, state regulators, public interest organizations, and a variety of entities representing various interests and points of view throughout the Western Interconnection.
- Learn more about EDAM through this <u>link</u>.

Inside the ISO, Leadership, Operations

The great transformation: Designing the grid of the future

By Mark Rothleder

California ISO executives and staff members are frequently asked to address energy conferences across the U.S. and abroad. The following is a keynote speech from Mark Rothleder, the ISO's Senior Vice President and Chief Operating Officer, delivered at "The Great Transformation: Designing the Grid of the Future" conference hosted Jan. 16 ...
