

# Decision on Outage and Availability Reporting

**Gregory Van Pelt**  
**Manager of Outage Management**

**California ISO**  
Your Link to Power

Board of Governors Meeting  
General Session  
May 21-23, 2008

# The issues with current reporting included:

## Market Participants:

-  Excessive administrative burden
-  Too much focus on penalties
-  Time constraints occasionally exceeded

## CAISO:

-  Continued reliability requirements

# The proposed changes to generator reporting are:

	Current	Proposed
Report availability changes within	30 Minutes	60 Minutes
Late report violation penalties	One warning per rolling twelve months, then penalties	One allowance per month, then warning, then penalties

# The schedule of events for the proposed filing is:

- 🌐 Issue paper posted for comment - February 20, 2008
- 🌐 Stakeholder conference calls - March 5, and April 7, 2008
- 🌐 Post proposed Tariff language – May 7, 2008
- 🌐 Stakeholder conference call – May 16, 2008
- 🌐 Recommend proposal for BOG approval - May 21-23, 2008
- 🌐 Proposed FERC filing date – by May 30, 2008

# Recommendation

- Management recommends Board approval of a proposed tariff amendment that would refine the requirements for reporting outage and availability information for generating units.
