Topic	Facilitator
Agenda and Roll Call	John Huetter
Disabling TLS 1.0 and 1.1	John Huetter
ADS UI and Reporting	Akm Ferdous
ISO Daily Briefing	John Huetter
Adjourn	John Huetter

Disabling TLS 1.0 and 1.1

The ISO will disable TLS 1.0 and 1.1 in accordance with industry best practices for security and data integrity

TLS 1.0 and 1.1 disabled in MAP-Stage on February 26

Scheduled date to disable TLS 1.0 and 1.1 in production: April 23

Next Week!

Participants should be nearing the end of their testing

The ADS 6.1.0.0 client is required for TLS 1.2: https://mpp.caiso.com/ads_install

Both v6 and v7 ADS APIs support TLS 1.2

Fall 2018 – ADS Replacement

Project Info	Details
Application Software Changes	• Transition to web-based user interface to eliminate the need to install thick client. • Transition ADS provisioning to the Access and Identity Management (AIM) application including Resource Level Access Controls (RACL) access • Display 15 minute schedules, 5 & 15-minute Flex Ramp awards (FRU/FRD) in ADS GUI and will be available via B2B. Details will be communicated in BRS. • Various enhancements (mostly related to user interface) adding content per Operation's request.

Fall 2018 – ADS Replacement

As part of this initiative, CAISO would like to re-evaluate the current expectation for 'Query Tool reporting' which is used for historical purpose.

Reports/Query results that are currently available in ADS:

- DOT (Real-Time and Hourly Pre-Dispatch)

- Commitment

- AS Awards

- MSS LF Instructions

- Trajectory (Advisory)
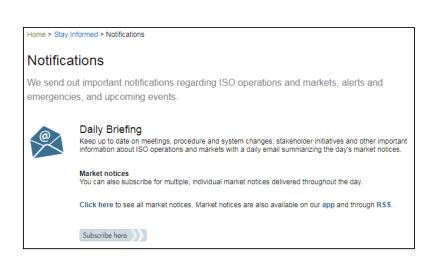

User Feedback Requested

CAISO proposes to keep in ADS 90 days worth of data. Is there a need for any historical data to be kept beyond the 90 day period?

California ISO

ISO Daily Briefing

A digest version of ISO Market Notices

Distributed on weekdays at 1:30 PM (Pacific)

To subscribe to the ISO Daily Briefing:

- http://www.caiso.com

- Stay Informed

- Notifications

- Click the "Subscribe here" link in the Daily Briefing section

- Complete the form, checking the Daily Briefing option
  - ❖ *If you currently receive ISO market notices and you re-subscribe, the system will override your previous category selections.*
  - ❖ *If you still want to receive market notices in other categories, reselect categories of interest when you subscribe to the Daily Briefing.*

California ISO

Change to How TUG Meetings Are Cancelled

In the future, TUG meetings will be cancelled via the ISO Daily Briefing

Subscribe to the ISO Daily Briefing using the instructions on the prior slide

The ISO calendar will also show the cancellation

The calendar is on the ISO's home page: www.caiso.com

Next TUG: May 1
