NOTES AND DEFINITIONS

MW1, MW2 .. MW11: Resource loading points. MW1 should represent the minimum production level (Pmin).   Data for a production point at or near maximum output must be provided.

HR1, HR2… HR11:   Heat rate (Btu/kwh) at the associated level of production (MW1, MW2..MW11)

ER1, ER2… ER11:   Emission rate (lbs of NOX/Mwh) at the associated level of production (MW1, MW2…MW11)
