

**Grid Ops Committee Recommendation on Tri-Valley Project**

**MOVED, that the ISO finds that the Tri-Valley project, as approved by the ISO Governing Board at its January 27, 2000 meeting, is the preferred alternative among those reviewed by the ISO to address the identified reliability concerns on the ISO Grid pertaining to the Tri-Valley area (without regard to routing) and directs PG&E to proceed with its proposed transmission expansion project.**

Committee Action: Failed Vote Count: 6-5-0 Moved: Fielder Second: McNalley				Board Action: Passed Vote Count: 17-3-2 Moved: Kehrein Second: Barkovich
