

**BEFORE THE PUBLIC UTILITIES COMMISSION OF
THE STATE OF CALIFORNIA**

In the Matter of the Application of San Diego Gas
& Electric Company (U 902 E) for a Certificate of
Public Convenience and Necessity for the Sunrise
Powerlink Transmission Project

Application 06-08-010
(Filed August 4, 2006)

**RESPONSE OF THE CALIFORNIA INDEPENDENT SYSTEM OPERATOR
CORPORATION TO SAN DIEGO GAS & ELECTRIC COMPANY'S
MOTION TO CLARIFY ASSIGNED COMMISSIONER'S RULING
AND FOR A SCHEDULE ADJUSTMENT**

Pursuant to Article 11 of the California Public Utilities Commission ("Commission") Rules of Practice and Procedure, the California Independent System Operator Corporation ("CAISO") submits this response to the motion of San Diego Gas & Electric Company ("SDG&E") for clarification of the July 24, 2007 Assigned Commissioner's Ruling Addressing Newly Disclosed Environmental Information ("ACR"). The ACR extends the procedural so that "newly disclosed environmental information" can be considered in the joint environmental impact report and environmental impact study (EIR/EIS) currently being prepared by the Commission and the United States Bureau of Land Management.¹ Prior to the issuance of the ACR, the draft EIR/EIS was set to be issued on August 3, 2007.² This date has now been extended to January 8, 2008.³

In its Motion, SDG&E requests that the procedural schedule adopted in the ACR be modified. Specifically, SDG&E requests that the delay to accommodate the additional

¹ ACR at 3.

² Assigned Commissioner and Administrative Law Judge's Scoping Memo and Ruling (November 1, 2006) at 19.

³ ACR at 17.

environmental review contemplated by the ACR be reduced from five months to one month.⁴

The net effect of granting SDG&E's request would be the issuance of the draft EIR/EIS no later than September 3, 2007.

In support of its request, SDG&E states that the time period for issuing the draft EIR/EIS should be shortened to one month because a longer delay will cause the completion date for the Sunrise project to slip beyond the projected need date of 2010.⁵ SDG&E further states that the "new" information referenced in the ACR is part of the existing record in the proceeding and has already been reviewed by Commission staff.⁶ Accordingly, SDG&E argues that this "new" information should not require further environmental analysis as contemplated by the ACR.⁷

The CAISO supports any effort to conclude the environmental review process as expeditiously as possible so that the Sunrise project will be in-service when needed. The CAISO's analysis shows a capacity deficiency in SDG&E's service territory beginning in 2010⁸ and believes that the Sunrise project represents the best option for meeting this need over the long-term. In addition, the CAISO's analysis of the impact of deferring the in-service date for the project shows that, based on cost escalation rates developed by the Edison Electric Institute for the 2004-2006 period, the net benefits associated with the project will be reduced if the in-service date slips beyond 2010.⁹

SDG&E asserts that much of the "newly disclosed environmental information" addressed in the ACR has actually been known to Commission staff since early in the proceeding.

Accordingly, the CAISO urges the Commission staff and SDG&E to work together to make sure

⁴ SDG&E Motion at 18.

⁵ SDG&E Motion at 3.

⁶ SDG&E Motion at 9.

⁷ SDG&E Motion at 15.

⁸ CAISO Rebuttal Testimony (conformed version) at 38-39.

⁹ CAISO Rebuttal Testimony (conformed version) at 63-65.

that existing information in the record is appropriately considered in the environmental review process and supports SDG&E's efforts to ensure that any additional information needed to complete the environmental review is provided to Commission staff in a timeframe that will minimize any further delay to the procedural schedule.¹⁰

The CAISO supports the Commission's obligation to conduct a full and complete environmental review of the Sunrise project and hopes that such review will be completed as quickly as possible so that a final decision in this proceeding can be issued in time for the Sunrise project to be in-service to meet SDG&E's 2010 reliability need.

Respectfully submitted,
