

Memorandum

Re: **Business practice manual change management activities update**

This memorandum does not require Board action.

This memorandum is a regular report required by the Federal Energy Regulatory Commission to inform the ISO Board of Governors on the status of the business practice manual change requests submitted by stakeholders and the California Independent System Operator Corporation.

The ISO inaugurated the public change management process for business practice manuals (BPMs) on April 1, 2009. Both the ISO and stakeholders use the same electronic system and process to submit and track proposed changes to the BPMs. The process includes stakeholder review, ISO approval or rejection, and a possible appeal to the BPM Appeals Committee, which is comprised of three ISO officers.

As of October 15, 2013, eight proposed revision requests (PRRs) were active in the BPM change management system, all of which were submitted by the ISO. These eight active PRRs impact the following BPMs:

- Congestion Revenue Rights (1 request)
- Market Instruments (2 requests)
- Outage Management (1 request)
- Reliability Requirements (1 request)
- Settlements and Billing (2 requests)
- Transmission Planning Process (1 request)

PROCESS OVERVIEW

The ISO held monthly BPM change management stakeholder meetings on August 27, 2013, where seventeen stakeholders participated, and on September 24, 2013, where twelve stakeholders participated. Based on stakeholder comments during the meetings, and on the types of comments entered into the BPM change management electronic system, it appears that stakeholders are generally satisfied with the process, as well as with the progress made on the active PRRs.
